

WEEPING WATER

Cash Sylvester was calling on the trade in the line of gasoline and oils at Elmwood on Tuesday afternoon of this week.

Robert Ambler, who thinks when one puts money into a car it is well to care for it, has been constructing a garage at his home on the south side.

Charles Griffin and Wm. Sheehan of Manley were in Weeping Water on last Tuesday looking after some shopping which they could not do in Manley.

Mr. and Mrs. Russell Pugh were enjoying a visit with some of their friends at Louisville, they driving over for the occasion and as well enjoying the splendid drive.

Homer Sylvester, salesman for the Cole Motor company, was a business visitor in Plattsmouth where he was called to look after some matters and also stopped at Murray where he had an errand to look after on last Monday.

Elmer Michelsen and the family were enjoying a very pleasant visit on last Sunday at the home of Mr. and Mrs. Theodore Klambunde, Mercedes Klambunde and Michelsen being sisters. A very pleasant visit was had.

Wm. Van Every and the family were over to Greenwood on last Sunday where they went to visit at the home of Mr. and Mrs. Walter Brakehage, Mrs. Brakehage being a niece of Mrs. Van Every. They drove and enjoyed a very pleasant trip and good visit.

Enjoyed Grand Lodge Session.

The delegates of the two lodges of Weeping Water and Avoca of the I. O. O. F. and Daughters of Rebeckah, who visited the grand lodge at Grand Island last week, when they attended the session. There were there from Avoca, Louis Carsten as delegate from the I. O. O. F. and Mrs. Mary, L. K. Herman for the Rebeckahs, and from the Weeping Water lodge was Richard P. Hobson and from the Rebeckahs was Mrs. Mary Michelsen.

Are Liking the Town.

Mr. and Mrs. A. R. Birdsall who recently purchased the bungalow Inn from Irene Gibson, have arrived and taken charge of the business here and are liking the town and the people very much. They are having a sale of their goods in Greenwood and will make their home here in the future.

Prosperity Makes Appearance

Times are getting better, not as rapidly as many would desire, but it looks like it is on a solid basis. During the past three weeks there has been added to the value of farm products, wheat selling thirteen cents higher per bushel and with a crop still existing of 680,000,000 making \$85,400,000 and for corn this year's crop not counting the carry over in either grain of 2,700,000,000, with an advance of six cents the bushel, making \$187,000,000 or for the two grains \$272,400,000. This is not including the other crops, such as cotton and the other grains. There is much more people working at productive employment than a month ago and much less unemployment. This return of better times is welcomed by everybody and we can stand more of it, so send it along. There is every prospect for further advances in the price of farm products which will enable them to purchase what they are needing. The eastern mills are working and over time to get the orders filled which are waiting.

Farm House Burns.

The home of Mr. and Mrs. Frank Hunt southeast of Weeping Water was burned to the ground on Monday of this week during the time of the very high wind. With the wind blowing a gale it was not possible to do much with the fire. A call was made on the Weeping Water fire department, but they were unable to do much as there was no water and after the run of three miles the fire had such a start that it was futile to fight it. The place is what is known as the Amiek place and was owned by Mr. Amiek the father of Mrs. Hunt.

Building on the Highway.

Louis Eastridge is having a building erected on the O street road or highway No. 24 where it intersects highway No. 50, and where he will conduct a filling station and we were informed would also conduct a store. It looks like this would be a good place for the two lines of business.

Enjoyed Nice Sunday Drive.

Dr. M. U. Thomas and wife on last Sunday afternoon went for a drive in the country, the weather being fine and the sunshine gorgeous, driving south passed the west of Avoca and through Otos, Dunbar, Talmage and passing over to the east caught the highway and returned, passing through Union and found some wonderful country and pretty scenery.

Entertained at Bridge.

Mrs. E. P. Marshall and A. H. Jones entertained on last Tuesday afternoon at the home of the former and had a large number of the lady friends as their guests and where they enjoyed the afternoon most pleasantly with their games, their social conversation and the very dainty refreshments which they served. All present were loud in their praise of the splendid time which they had. On Saturday afternoon the two entertainers will again be hostesses, this time at the home of Mrs. A. H. Jones.

Visiting at Hiawatha, Kansas.

On last Sunday Mr. and Mrs. Martin Parks and Clarence Cashner and wife who are brother and sister of Mrs. W. D. Baker were visiting for the day at the Baker home, where all enjoyed the visit very much, and so good a time were they having that when they came to return home, to Hiawatha, Mrs. Baker was prevailed

THE FUNERAL HOME

Modern conditions and standards of living have called into being an entirely new kind of institution for meeting a universal human need—The Funeral Home.

Planned for the specific purpose which it serves, it offers greater efficiency and greater convenience than was possible in the past.

We are proud to be able to offer the communities which we serve the use of such an establishment.

Hobson Funeral Home

ed upon to accompany them, and she is spending the week there.

WAYNE GETS BREAK TO DOWN PERU 6-0

Peru, Oct. 25.—Wayne normal realized on a break and defeated Peru today, 6 to 0, before a homecoming crowd of 1,000.

A high kick by Hatcher of Peru near his own goal posts gave the Wildcats their opportunity and the ball in the last quarter. Beck plunged over for the tally. Andrews failed to kick goal.

Twice the Bobcats marched or passed to within two yards of the visitors' goal but were unable to cross the line. Once in the third quarter after a 35-yard run by Harris and some deft passing they fumbled on the one-foot line. Again in the final period, after Wayne had scored, Peru reached the two-yard line but was driven back.

In the first half, Copeland of Wayne intercepted a pass and ran 73 yards to the Peru two-yard line. The whistle blew and cut this offensive short.

Peru made 213 yards from scrimmage, against the visitors' 87, and 12 first downs against 4.

CHICAGO STADIUM DENIED CARNERA-UZEUDUN BOUT

Chicago—The Illinois state athletic commission denied the Chicago Stadium corporation permission to stage a ten round bout between Primo Carnera, Italian giant, and Paulino Uzeudun, veteran Spaniard. The commission ruled that the match was not a suitable one in turning down the stadium's request. The New York state athletic commission previously had denied Madison Square Garden permission to present the bout.

Mrs. Judd's Lawyers Agree to Extradition

Make Plans to Return Confessed Slayer of Two Companions to Phoenix to Stand Trial.

Los Angeles, Cal., Oct. 26.—Plans to contest the extradition of Mrs. Ruth Judd to Arizona have been abandoned, it was announced by attorneys tonight, and she is expected to start for Phoenix, probably Wednesday, to stand trial for the "trunk slaying" of Hedvig Samuelson and Mrs. Agnes Anne Le Roi.

Attorney Charles Craddock, associated with the defense, said the decision to yield to the desire of Arizona authorities for an early trial was reached at a conference with County Attorney Andrews and Sheriff McFadden of Phoenix.

McFadden was prepared to leave tonight for Sacramento to obtain the signature of Governor Rolph to extradition papers. The sheriff said he would return Wednesday morning and would start for Phoenix with Mrs. Judd and a Phoenix police matron.

Hearing Postponed.

Mrs. Judd, who in written and verbal statements has said she shot and killed Miss Samuelson and Mrs. Le Roi in self-defense at Phoenix, October 17, was taken from the county jail for arraignment today on a fugitive complaint by which charges of murder were formally entered against her. The hearing was postponed until November 9, pending settlement of the extradition contest.

Craddock indicated an application will be made for dismissal of the habeas corpus writs filed shortly after Mrs. Judd was arrested last Friday and returnable November 3.

The strain showed plainly on Mrs. Judd as she entered the courtroom on the arm of her brother, Burton J. McKinnell, university law student. She was pale and trembling. Jail attendants said she dozed occasionally during the night, often rising bolt upright and calling for her husband, Dr. W. C. Judd.

New Interpretation.

McFadden put a new interpretation on the killings. He said he knew her well, Mrs. Judd having nursed Mrs. McFadden once when she was ill.

The sheriff said he believed the wound in Mrs. Judd's hand, which she said was inflicted by Miss Samuelson, actually occurred when she of the shots fired by Mrs. Judd pierced Miss Samuelson's body and came out imbedding itself in the alleged slayer's hand.—World-Herald.

BASKETBALL "TIME OUT" REDUCED TO ONE MINUTE

New York.—The joint basketball rules committee held its annual meeting here and listened to an interpretation of various changes in the regulations by Oswald Tower, editor of the basketball guide.

The most important rule revision cuts the "time out" allowance from two minutes to one. Another prohibits high school teams from playing more than three overtime periods and still another gives the referee the right to take the ball from any player who holds it more than five seconds in the back court while closely guarded.

L. W. St. John of Ohio State, chairman, pleaded for "sane, sensible officiating," and asked officials not to call "every little rule in the book" to the discontent of player and spectator alike.

WHEAT-COFFEE TRADE

Chicago—The grain stabilization corporation, trading agency of the federal farm board, had before it the plan of the American coffee industry to dispose of the 1,050,000 bags of coffee traded by the Brazilian government for farm board wheat. The plan, submitted by an advisory committee of the National Coffee Roasters' association, would become effective in October, 1932, if approved by the stabilization corporation and the farm board.

Factory Farm Said to Destroy Home System

Co-operative Plan Is Urged Instead at Chicago Meeting by America's Farm Leaders

Chicago—Factory farming of the type spreading in Russia was denounced here yesterday by one of America's farm leaders as destructive to home life.

In disavowing "great mechanized farms doing away with the small farm units," Mr. Howard A. O'Neal, president of the American Farm Bureau Federation, made no reference to Russia in a speech before the National Association of Farm Equipment Manufacturers, but dealt plainly with the "corporate farm of huge size operated on a factory basis with gangs of laborers." There are examples of the development of several sections of the United States, principally in wheat farming.

Hundreds of thousands of American farmers are not producing economically, Mr. O'Neal granted. The small size of the farm unit is often a cause of inefficiency, he said, because it prevents the application of the most efficient methods of production. However, he declared he did not believe corporation farming to be the solution.

"That plan has been adopted many times in the past, and as many times it has failed," he said, "there are few exceptions where specialized crops or unusual locations have given some measure of success to this method of agriculture, but for the most part agriculture is more than a business. To be successful it must be a method of living. It must be based on a family economy. The very nature of farming makes it unadaptable to the eight-hour law and the factory whistle.

"This question has another side. The individual farm home provides the greatest possible protection of those fundamentals of family life that we believe are the foundations of our nation. The development of a system of agriculture that would wipe out the individual farm family home would be more detrimental to our nation than any possible economy of production that could result.

"I believe there is another way out. I believe that a system of co-operative production comparable to our co-operative marketing can be established. I believe that a plan can be developed for pooling the intelligence, the manpower, credit resources, and possibly the actual acreage which will make possible all of the economies that are to be derived by farming large units and by using

MisSimplicity

makes your clothes fit like a Paris Mannequin's!

Leading dressmakers everywhere say, "It's no trick to achieve smart lines, when the frock is fitted over a correct moulding foundation." MisSimplicity, designed by Gossard, skillfully moulds the figure to slim curves. The diagonal "cross-pull" of the waist-line straps flattens the diaphragm and abdomen, uplifts the bust, slenderizes the waistline and holds the figure to correct posture. Side panels of pliant elastic taper the hips to perfection.
