

Positive Proof of FORD ECONOMY

City of Detroit purchases 137 new Ford cars Hundreds now in use prove low cost of operation

THESE 137 new Ford cars represent one of the largest deliveries ever made to a municipality at one time.

21 radio-equipped Ford scout cars were traded in on this purchase. They had been operated day and night for two years in heavy traffic and all kinds of weather.

Their individual records ranged from 78,434 miles to 143,723 miles with a grand total of 2,283,097 miles. The operating cost of the 21 cars was 2.284 cents a mile—less than 2 1/3 cents. This cost included all fuel, oil, tires, repairs and every other item except depreciation and insurance.

Of 577 Ford cars in Detroit City service, the 300 in the Police Department traveled a total of 6,591,937 miles during the past fiscal year, at an average cost of 2.9 cents a mile.

Many claims have been made on operating costs, but here in the carefully kept motor car records of the City of Detroit is positive proof of Ford economy.

In the paragraphs above, it is seen that 21 Ford scout cars averaged less than 2 1/3

cents a mile and 300 Ford cars in all branches of Detroit police work averaged 2.9 cents a mile!

Day and night, twenty-four hours a day, these Ford cars are in operation. Few branches of transportation demand such gruelling service. The records show that low fuel and oil consumption is but one of the Ford's many economies. Ford materials, simplicity of design and accuracy in manufacturing provide unusual strength, stamina and freedom from replacements and repairs.

The individual car buyer as well as the purchasing department of a city or a business cannot afford to ignore the proved economy of the Ford car.

Honor Roll of High School Has Many Seniors

Eleven of Twenty-Six Members of Honor Roll Are Members of the Class of 1932

Following the first quarter examinations of the Plattsmouth high school, the announcement has been made of the honor roll, this being composed of the students who received three or more "A's" on their studies for the opening quarter of the year.

This group is considered the honor roll because of the high scholastic standing of the young people comprising the list of students.

In the first quarter tests the seniors showed the largest number on the honor roll, the juniors being second while the sophomores and freshmen were much below their general average.

The result of the first quarter examinations has resulted in a great deal of interest and numbers of the lower class members are preparing to make their way into the coveted roll by the second quarter of the school year.

The honor group of the school is composed of the following:

- Seniors—John Becker, Dorothy Farmer, Malinda Friedrich, Madge Garnett, Louis Knoffieck, Antonette Koubek, Irene Simons, Eleanor Swatek, Helen Wurga, Edward Wehrlein and Mary Lois Wiles.
- Juniors—George Adam, Donald Bushnell, Margaret Lahoda, Emily Lorenz, Stuart Porter, Meta Schackneis, Floyd Shanholz and Elinore Smetana.
- Sophomores—Lois Bestor, James Robertson, Dorothy McCarthy and Dorothy Seimonett.
- Freshmen—Charles Dow, Richard Rea and Virginia Trively.

How they succeeded we are not informed, for they had not returned when we were in town. This much we do know, that they must have had an excellent time or they would have been home sooner.

Miss Harriet Haynes of Osmond who is a student in the Wesleyan university, Evelyn Huston of Lincoln, also a student there, accompanied by Miss Evelyn Barkhurst, who is also a student of that school, were spending last week-end at the Barkhurst home in Alvo and in the morning all went to Omaha where they enjoyed a very fine play, as the closing of a very enjoyable day, before returning to their studies at Lincoln.

He had undergone an operation for appendicitis and as it was an emergency case, his condition was considered serious, but he rallied quickly and has made splendid progress. He is now able to be up and around and made a trip back to see his surgeon last Saturday.

During his stay at the M. E. hospital he shared a room with Lawrence Smith, of Nehawka, son of Mr. and Mrs. Herman Smith of that place. This young man was seriously injured when a truck he was driving for the Yant Construction company, of Omaha, overturned in turning a sharp corner, and went into a ditch, near Irvington. Mr. Smith received a broken back and since the accident he has been paralyzed from the waist down. His condition is considered critical.

Many people had read of this sad accident and Mr. Smith received much sympathy from Otto's relatives and friends who visited him at the hospital.—Louisville Courier.

CHRISTIAN SCIENCE

In the lesson-sermon for Sunday, Nov. 22nd, subject "Soul and Body," there is given a part of Paul's great address to the Athenians which contains this statement of man's true being: "For in Him we live, and move, and have our being; as certain also of your own poets have said, For we are also His offspring." (Acts 17:28.) A correlative passage from the Christian Science textbook reads: "The chief stones in the temple of Christian Science are to be found in the following postulates: that God is God, good, and not evil; that Soul is spirit, not to be found in the body; that Spirit is not, and cannot be, materialized; that Life is not subject to death; that the spiritual real man has no birth, no material life, and no death." (Science and Health p. 288.)

The subject of the lesson-sermon for the following week is: "Ancient and Modern Necromancy, alias Mesmerism and Hypnotism, denounced."

The burning brand from the open fire-place is another threat of fire.

The cozy log fire crackles merrily—a glowing ember pops out and sets the rug ablaze. The flames are beyond control before they are discovered. Just another little thing that causes disaster.

Insurance—adequate insurance against such a calamity is just plain good business. And a long century of loss paying has demonstrated that there is no sounder fire insurance than that offered by the Hartford Fire Insurance Company, represented by this agency.

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! As harmless as the recipe on the wrapper; mild and bland as it tastes. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is need. In cases of colic, diarrhea or similar disturbance, it is invaluable. A coated tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.
