District Judge Chappell at Lincoln
 Suspends License, But Safety
 Measures Hold.

Nebraska truck drivers will not be required to pay the increased registration that was provided for in the law passed by the last legislature, the measure as far as the license apply being suspended by District Judge Chappell at Lincoln, Friday.

There was no suspension of the safety measures that are a part of the law, however, Judge Chappell holding that these are in effect and not affected by the fact that the law will be passed on by the voters at the election in 1932.

Truck operators of the state had called for a referendum on the regulatory measure, S. F. 33, by Schepman of Falls City, which was passed over the veto of Governor Bryan. The bill proposed to increase registration rates from commercial trucks from \$15 to \$50 per cent.

Chappell held that the truck operators will not be required to pay the fees on next January, but will be required immediately to comply with the safety regulations.

The safety regulations, which provide that trucks loaded to the extent of five tons shall travel at a speed not greater than 35 miles an hour, shall not be wider than eight feet, longer than 50 feet (with trailer) nor higher than 12 feet. It is also required that the trucks have a rear vision mirror.

The increased fees which were suspended pending the referendum would have required payment of from \$10 to a maximum of \$225 for registration.

SECOND BRITT TRIAL BEGINS

Lincoln, Nov. 30.—A jury to try Jack Britt again on the charge of participating in the \$2,500,000 Lincoln National bank robbery was formed in district court here Monday afternoon, and attorneys made opening statements.

A jury disagreed on Britt's guilt last month.

Attorney Max Towle told the jury seven witnesses would identify Britt as one of the robbers which looted the bank Sept. 17, 1930. Defense attorneys asserted Britt was in East St. Louis, his home, the day of the holdup.

Britt was arrested at East St. Louis last summer along with Howard Lee and Thomas O'Connor, both of whom have been convicted on similar charges and sentenced to 25 years imprisonment.

 During the fall, James Heineman, Miron and Carl Hoezel, all nephews of Henry Heineman, and who make their home at Hitchcock, South Dakota, have been in the vicinity of Murdock picking corn, in which line they have found a good deal of work to do. With the bad weather which came on Thanksgiving day and following, they departed for their home in the north. However, they might have con-

tinued to work when the snow had disappeared. They stopped at Plattsmouth for a short visit with Bobby Hunter before continuing on their way home.

Enjoyed Nice Time
 On Thursday evening of last week there was held at the Callihan church a "Friendly" social, which was a get-together meeting for all the members of the church as well as their friends. Undergoes Operation
 Mrs. William Meyers, formerly Miss Marguerite McDonald, daughter of Mr. and Mrs. O. E. McDonald, has been suffering for some time with a complication of diseases and while at times she was feeling fine, at other times she would suffer very severely. It was decided that she enter the Nicholas-Senn hospital for relief by an operation. When it was found by a clinic that she had a tumor as well as trouble with the appendix, it was thought best to undergo the operation. The mother was with the daughter last Tuesday during the ordeal and following which she rallied nicely, but is still at the institution.

CLAIMS DECEPTION TRIED
 Washington—A democratic "conspiracy to deceive the people as to the effects of the Smoot-Hawley tariff" was charged Thursday by Senator Smoot, one of its authors. The chairman of the finance committee, in a lengthy statement, said democratic leaders "are trying to face the facts" and instead "are trying to bolster up their arguments for an assault upon American protective duties in this critical period by hysterical appeals to prejudice and ignorance and by copious use of misleading data."

FOREIGN IMPORTERS
 "Foreign importers are steadily encroaching upon the American market at a time when domestic industry is crippled and millions are unemployed," he said. "I defy any one to dispute that fact. But the democratic leaders will not meet that issue. They prefer to keep their heads in the clouds of theory, disdaining to contemplate the actual conditions with which the American people are confronted."

'Farmer Better
Off than Skill-
ed Worker'

Duncan Marshall, Canadian Agriculturalist, "Stay Out of Debt."

Chicago, Dec. 3.—The farmer is better off than the skilled worker in times of economic depression, said Duncan Marshall of Toronto, former Canadian agricultural commissioner, in a luncheon address today.

"The farmer knows he will never be in the army of the unemployed," he said, "all he needs to find a job is to walk out the back door of his home, and he has one."

Prize winners of the national 4-H club boys and girls contests were guests with him at a Kiwanis club farm program.

His advice to the farmer was to stay out of debt.

"While farming is the most independent business in the world," said Marshall, "nothing will do more to take away this independence than getting into debt. The trouble is that we have all wanted to go too fast, with the result that when times got bad many of us could not wallow out of the debts we assumed when prosperity was with us."

Farmer and city man, he said, mix each own a 10 thousand dollar home.

Both investments are homes," he said, "but the one provides a living, while the other produces only interest and taxes. One of the good results of the depression is that it proved to the farmer the desirability of farm life."—World-Herald.

LIBRARY NOTES
 The reading of the school children is showing great progress. Four rooms entered in the banner contest were 100 per cent in their reading for the first quarter. The reading for the contest second quarter is starting off with a great deal of friendly rivalry.

Favorite books in the Freshman class have been Long Trail by Hamlin Garland and Sunny by Will James. The latter is proving so popular as did Smoky by the same author. These are all stories of western life—and very good ones, which older people could enjoy, too.

The Library is grateful to the American Legion Auxiliary for a money gift which made it possible to buy a much needed reference book. This is Living Authors by Dilliant, and it will be an invaluable help in the work in English classes.

Book week displays have been taken down but we hope that many people saw in them titles of books they will want to read. There were two displays in store windows, one of books on the American Indian and the other books of general travel and history. In the Library were two interesting displays, one centered about a castle, and the other about a lovely Japanese scene which Miss Leonard made.

The Thanksgiving display had as its title "Plenty" and showed three Puritan men and two Puritan women in the proper setting. The costumes of the little men and women were made by Doris Rager.

Users of the Library will find it interesting and worth their time to watch for the different displays the librarians put out. Books that would otherwise be missed are often brought to one's attention in that way.

Jury Finds for
Louisville Bank
in Damage Suit

Long Drawn Out Case of Mrs. Tillie McCarty vs. Bank of Commerce Decided Friday.

The damage suit of Mrs. Tillie McCarty of Louisville, against the Bank of Commerce of that place, was terminated Friday afternoon at 3 o'clock when it was given to the jury, who some two hours later returned a verdict finding for the defendant bank.

This action is one in which Mrs. McCarty asked damages in the sum of \$5,000 as the result of a former action in which the Bank of Commerce had sought the collection of a note against Mrs. McCarty and which she denied having signed or received any consideration. In the first case Mrs. McCarty was the victor in the trial in the district court and later the case was affirmed by the supreme court at Lincoln.

The present trial covered from Tuesday to Friday, a great deal of the time being taken up with the testimony of handwriting experts who were called upon to testify for both the plaintiff and the defendant on the question of the signatures of Robert McCarty, deceased husband of the plaintiff, whose hand it was contended had written the note which had been the basis of the former action.

Admission of farm board officials to losses of \$225,000,000 of the government's revolving farm relief fund served to redouble the demand for a thorough investigation of their expenditures.

Senate leaders also were incensed over salaries paid officials of the board's subsidiary organizations and the tremendous brokerage charges paid to the wheat and cotton subsidiaries.

Protests from independent merchants and commission exchanges against federal loans to cooperatives also accentuated the demand for an investigation. Independent merchants charged they were being "driven to the wall" by the government's financial discrimination in favor of cooperatives.

Senate hearings were handicapped by the agriculture committee's lack of power to subpoena books or papers of the farm board and its subsidiaries. Consequently, a resolution was being prepared by Senator Nor-

Hoover's hope to avoid a congressional battle over the federal farm board was dimmed Monday when Republican leaders conceded the probability of a senate inquiry into farm relief activities.

House republicans yielded Thursday to the persistent clamor of the wet bloc for a change in rules of procedure which will permit a vote on prohibition at the coming session. Meeting in party conference they have agreed to support an amendment to the rules under which any piece of legislation can be brought to a roll call if 145 members sign a petition asking that this be done. Present rules require 215 signers.

With democratic leaders of the house and chiefs of both parties in the senate agreeable, a vote on the perennial prohibition issue seems assured in both branches. The drys, confident of numerical superiority, are ready for it. The wets have no delusions of victory. Their goal is to have the attitude of all members of congress, definitely on record before next year's general elections.

The independents long have fretted under the present stringent house rules. As they stand now, the speaker, the majority floor leader and the chairman of the rules committee have been able to say what bills and resolutions would receive action. While the republicans were meeting democratic house leaders got together to discuss the question of rule changes and agreed to sponsor a rule even more liberal than that of the republicans. Representative Crisp of Georgia was designated to present a program at the party caucus on Saturday. He favors a minimum requirement of 100 signatures.

Senator Norris, a leading dry, said he was willing to let prohibition come to a vote in the judiciary committee, of which he is chairman. He added, however, he regarded such a move as a "waste of time."

We are confronted with problems of vastly greater importance than prohibition, namely unemployment, and see them. Tell them what kind of a vote in the judiciary committee, of which he is chairman. He added, however, he regarded such a move as a "waste of time."

Senator Fess, who also speaks for the drys, reiterated that he welcomed a showdown on the issue.

Altho a bloc of democrats headed by Representatives Rayburn of Texas, plans to resist all efforts to modify the rules at the caucus, it was freely predicted by other party leaders that a liberalized program would be adopted.

The house independents meet Friday to formulate their legislative program. Representative La Guardia of New York, one of the group's leaders, said this would be designed to improve economic conditions. Another anti-prohibitionist, Representative Clancy of Michigan, said "a
