Feedstuffs a Crying Need in Drouth Area

Governor Suggests Counties Send Agents to South Platte for Feedstuffs

Governor Bryan's state relief organization which was formed primarily to obtain food for people of six or eight northern counties in the drouth area is now sending out an appeal for feed for livestock which is represented as starting for lack of feed. Only a few cars of feedstuffs have been received by the state organization. Many farmers in the afflicted counties are represented as unable to sell livestock because of its poor condition. Horses are needed for next year's farming operation and cows and chickens contribute to family support when furnished with feed.

Governor Bryan asks communities to assemble grain, hay or other fodder which live stock can eat. He has suggested that if counties in the north could send an agent to the South Platte country an exchange of obligations for feedstuffs might be arranged, as needy farmers are willing to repay contributors.

J. D. Ream of Broken Bow has suggested to the governor the plan of having 200 or 300 horses driven from the drouth counties to Custer county, where the livestock could be apporportioned to farmers from one to six head to a farmer, to be cared for free by running with the farmers own livestock. This may be impractical, if the horses are too poor that they cannot be driven so long a distance, said the governor, but he welcomes the suggestion in the spirit in which it was made.

A pathetic letter comes from a farmer's wife in Boyd county, to Governor Bryan, in which she says: "Wont you please send out a call to this great nation to help us grasshopper and drouth victims? We must have help soon"

or we will not have any horses or cattle or hogs. My horses are now gaunt and hollow eyed for want of feed. Do you know that over 1,800 farmers applied for government aid? But the federal loan was such that most farmers could not take the loan, as most of us are mortgaged up to the limit. God in heaven, what will we do? Why must we suffer? Please send us help soon."

A telegram to State Tax Commissioner Smith from Otto Bogner of Crofton, member of the Knox county committee, on behalf of Fordyce in Cedar county, says: "Northwestern Cedar county food matter serious. Ship car to Fordyce at once; I will personally assist in distribution. Letter follows."

The governor said a car would be sent to Fordyce. A delegation of Cedar county people is to call on Governor Bryan concerning need of feed for livestock. The delegation spent the forenoon in the supreme court to hear argument in a suit involving the right of state superintendent to withhold state school funds from district No. 6, Cedar county, on the ground that the school is not a public school but a denominational school.

Food supplies for people are being assembled at many places. F. L. Potbaast of Pickrell states that a car of supplies is being assembled by the people of that community.

From out at Riverside in Buffalo county, comes word from E. R. Elliott that a car of supplies are being assembled there.

The American Legion and auxiliary at Axtell is assembling a car, according to word received from Arthur J. Lawson.

The Gresham community will contribute a carload of corn, according to S. J. Thompson who is in charge of the work of assembling it.

Carl T. Curtis writes from Minnekahta that the legion, with the cooperation of the people of the community, is sponsoring the assembling of a car at that point.

ACCIDENTAL GUNFIRE KILLS DEBATE COACH

Ottumwa, Ia.—Leland E. Austin, Ottumwa high school debate coach was killed Sunday by an accidental discharge of a shotgun in the hands of Jack Mercer, high school junior. They and another student were hunting near here. Mercer's gun fired when the youth was startled by a quail which flushed near him.

Responding to Appeal for Aid in Drouth Area

American Legion Committee Feels Indebted to Farmers in This Vicinity for Their Support

While it is true that the crossroads are not in the best of condition at this time, every attempt should be made to have donations delivered to car sometime during this week, as shipment will not go forward until Saturday unless car is loaded to capacity before this day.

By all accounts the farmers in this vicinity have great anxiety to render all the aid possible in behalf of their farmer neighbors in the northern part of the state, being prone to recognize their predicament.

While it is an established fact that feed for stock is urgently needed at this time in the stricken areas, nevertheless, there is also an acute shortage of other items such as food stuffs, clothing, and other necessities, and in view of this known shortage, citizens of Plattsmouth are urged to fully consider the plea of the Legion Committee for donations of flour, canned goods, and groceries of all kinds. A cash donation of 25c will purchase a bushel of oats, and since this item may be purchased in abundance locally, all persons who desire to do so may give a cash donation for or even a greater amount, and Commander W. T. Distell will negotiate with some farmer to furnish oats at 25c per bushel delivered. Each donor will be accorded credit strictly in accordance with the amount given.

The Legion Committee mailed out letters of appeal as quoted below to all box holders on Rural Routes 1 and 2, and due to the expense involved, could not consistently mail such appeals to all within the city limits.

"In response to an appeal made by Governor Bryan for aid to be given the drouth and grasshopper sufferers in the northern part of Nebraska, the undersigned committee under the supervision of Hugh J. Kearns Post, American Legion, Plattsmouth gladly accepted the responsibility of handling details necessary whereby a carload of foodstuffs, including feed for stock may be loaded and shipped to the stricken area not later than January 6th.

"You are asked to contribute something to aid in getting these unfortunate people thru the winter and into another crop year. Anything that you may contribute will be greatly appreciated by them together with the committee in charge and we know that you will feel better for having done your bit.

"Anything that you may have a surplus of will be cheerfully accepted as a donation, such as corn, wheat, oats, potatoes, canned fruits, vegetables, meat, smoked meats, dried fruits, or vegetables, groceries of all kinds, clothing or cash if you prefer, in fact almost anything that you may feel like donating to so worthy a cause.

"Car to receive Plattsmouth shipment is now located at C. B. & Q. Freight house, Plattsmouth, and you can either deliver donation to car or business houses displaying signs as follows: 'Donations Received for Drouth Sufferers.'

"In the event that you may not be in a position to deliver your donation, kindly call Phone No. 93 and some member of the committee will call for same.

"As information, the C. B. & Q. railroad company, the committee, and everyone assisting in this work are doing so free of any charge whatever and all donations will be delivered free of charge to some needy person in the drouth area.

"Please place your name and address on all donations in order that all donations may be properly recorded. This drive will close on January 6th, therefore be sure to send in your donations by that date.

"COMMITTEE FOR RELIEF "Benefit Dance—old fashioned modern—Legion Building, Wednesday evening, January 6th, 1932."

A list of all contributions, and the donor, will be carried in tomorrow's issue of this paper.

PLAN TRIBUTE TO LEADER

Oyster Bay.—Three bright new American flags flew on a blitop which a band of pilgrims will climb Wednesday to pay tribute to the memory of the late Theodore Roosevelt. The flags, renewed periodically by war veterans who revere the late president's memory, fly over a grave on which the only inscription is: Theodore Roosevelt. Born Oct. 27, 1858. Died Jan. 6, 1919."

DISCUSS LIBRARY PLAN

The board of education, which was requested by the city council to assist in the carrying of the public library maintenance cost to the amount of \$700, has laid the matter over for the present. The board of education is securing the estimates of cost that school maintained libraries have brought in various communities. Replies have been received from Nebraska City and Auburn where the schools have their own reference libraries independent of the city library. The board of education is not planning the creation of a school library but wish to secure what is a just and proper share of their expense of library maintenance.

How many chances of fire in your home?

You don't know. But there are a great many chances—too many to wish to gamble. Why not let the insurance company take the risk? Insurance costs but a very little and if fire comes, your policy may mean your salvation. There is no better protection than the sound indemnity of dependable fire insurance.

Let this agency tell you about it. You will be under no obligation. Better insure in the Hartford Fire Insurance Company.

COMMISSIONERS HOLD SESSION

The board of county commissioners opened their regular January meeting at the court house Tuesday, taking up the matter of allowing the claims that have accumulated for the December expenses of the county. The board at this session will also take up the plans for the new year. Owing to the storm and heavy snow County Commissioner Fred Gorder of Weeping Water remained here over night rather than take the risk of attempting the journey home and back by auto.

EXAMINATION FOR POSTMASTER

An examination for the appointment of a postmaster at Cedar Creek will be held at the postoffice in Plattsmouth on Saturday, January 9th. This is a fourth class office and the appointment is made under the civil service rules. The term of A. O. Ault, the present postmaster is expiring and examination will be made of the applicants for the office.

Ten-Inch Snow Blocks Highways Over the West

Train and Bus Service Into This City Delayed as Wind Drifts the Snow Badly.

Real winter weather set astride the entire mid-west today as the cold following the ten inch snow drove down the temperature.

The snow was the heaviest that has fallen in a one day record in this section for a number of years, continuing all through Tuesday and into the evening when it subsided, but was followed by a wind that whirled the snow into drifts all over the middle west.

Traffic was moving Tuesday with some delay through the storm, but this morning train and bus service here was badly crippled, through trains from the west being several hours late while the buses' were delayed from the south into this city. On the main highways patrols were busy in removing the snow to keep these arteries open for travel, but on the less used roads drifts served to keep them closed until late in the day.

The storm seemed to have affected the area west of Lincoln the worst in the state, as there, almost every line of transportation was checked by the deep drifts and wire communication also suffered from the effects of the heavy storm that raged all day Tuesday.

Louisville Plant Winner of Safety Award

Ash Grove Employees Establish Remarkable Safety Record—No Lost-Time Accidents.

Safely working a total of 502 consecutive days to January 1, 1932, the employees of the Ash Grove Lime and Portland Cement company's plant, located in Louisville, established a new safety record which entitles them to national honors. The plant will be awarded the Portland Cement association safety trophy, a handsome cast stone monument, designed at the Art Institute in Chicago. The monument, which stands over eight feet high, is made of portland cement and white granite. Upon its face are sculptured two lifesize figures, representing Safety following Wisdom. It will be appropriately inscribed with the plant's record and erected on the plant grounds.

Superintendent A. K. Frolch and all of the employees of the plant are to be congratulated on their perfect safety record, which is an outstanding example of the value of co-operation between management and employees," said Wm. M. Kinney, vice president of the Portland Cement association, presenters of the trophy.

WET DEMOCRAT IS ELECTED

Manchester, N. H.—William N. Rogers, wet democrat, Tuesday was elected to the congressional seat made vacant by the death of Representative Fletcher Hale, republican, of the First New Hampshire district, defeating former Governor John H. Bartlett, republican, 27,453 to 24,505.

Rogers, the first democrat to represent New Hampshire in congress in ten years, also was the last democrat to serve in the house. Weather conditions played an important part in the day's special election. Heavy snow and severe cold in the rural republican strongholds kept many from the polls while Rogers piled up a commanding lead in the cities. A tide of democratic votes in Manchester and Somersworth swept Rogers into office.

MAY CUT RAILROAD HOURS

McCook—Railroaders here will decide Jan. 19 if they are to follow the example of Burlington workers at Lincoln and Omaha, in voluntarily reducing their working hours.

Lincoln and Omaha chapters of the Brotherhood of Railroad Trainmen voted to put the six day week into effect this year, to provide more work for trainmen and yard men out of jobs now. It was estimated sixty-five men would be given work as a result of the plan in Omaha and Lincoln.

A maximum working time of 208 hours was fixed for yardmen, while roadmen are held to a maximum of freight runs of 3,500 and passenger runs of 5,500 miles per month.

SNOW PROVIDES WORK

The heavy snow of Tuesday proved a boon to a number of the unemployed over the city, they being fortunate enough to secure a great many jobs of shoveling away the snow in the business and residential sections of the city. In the main business section the heavy snowfall kept a force busy all day in trying to keep the walks cleared of the snow and in most cases unsuccessfully.

NAMES TO BE CONSIDERED

Washington—An open meeting of the senate agriculture committee to consider three nominations to the federal farm board has been called for Thursday by Chairman McNary, republican, Oregon. The nominees, all now serving under recess appointments, are Sam H. Thompson of Illinois; William S. Schilling, Minnesota; and Frank Evans, Utah. They will be asked to appear.

BOYS IN ACT OF VENGEANCE

Gallipolis, O.—A lurid story that a father and his seven children were burned to death by two boys as an act of vengeance was being investigated by Gallia county authorities Tuesday night. The fire victims were James White and his children, who met death when their log cabin home was destroyed last spring. An eighth child was the sole survivor.

Sheriff Swanson, of Gallia county and George H. Lamb, assistant superintendent of the boys industrial school at Lancaster, said two inmates of the school had confessed

they fired the cabin because one of them was beaten by White during a first fight. The boys were named Albert Reymor and Elsworth Mowyer. While the authorities expressed some doubt as to the truth of the alleged confession, Lamb said the boys' statement contained only a few minor discrepancies.
