### Counties will **Receive \$82,390** from the State

Reimburgement to Counties for Overpayment of Auto Registration

Countles are soon to receive \$82,-398 as reimbursement for overpayment of automobile registration fees to the state, dating from 1926. State Auditor Marsh will issue warrants to seventytwo counties which have filed claims as soon as Secretary Cochran compares and audits the claims with registration records which he keeps in his office. The warrants would have been issued some time ago upon the state registration fund, said Deputy Auditor H. O. Parsons, but for the delay in hearing from counties. Thurston and Cherry counties have not responded. Nineteen other counties have admitted that they have no claims for reimbursement. Lancaster and Douglas are among those which retained the proper amount out of the registration fees and have

The legislature appropriated \$133, 000 for reimbursement. The overpayment by counties was due to the fact that they did not first retain cents for the county treasurers' service and then deduct 2 1-2 percent to go to the state capitol, and then from this net amount remit 30 percent to the state for road maintenance and retain 70 percent for county road purposes. The counties to be reimbursed sent the state its 30 percent before making the proper deductions.

Claims of counties on file with the state auditor, subject to change by the state department of registration, are:
