A CRITIC OF LIQUOR RAIDS

New Orleans.—United States Attorney Edmond E. Talbot criticized prohibition forces here as a result of the technical arrest of patrons during raids upon three suburban night clubs. Patrons who were found drinking liquor at the tables or in possession of flasks were told to report Monday before U. S. Commissioner Carter. Talbot said he would not accept charges against them. He said he would ask for a complete report on the raids before deciding.

"Such raids are not in line with the policy of the department of justice in the enforcement of the prohibition law," he said. "It does not sanction the action of agents going in and raiding guests, and I will not prosecute those persons who were arrested for having a glass or a bottle of liquor."

Fine Trucking Company at Council Bluffs

Lee Company of Glenwood Hauling Goods from Omaha to Glenwood to Appeal Case.

Holding that the shipping of merchandise from Council Bluffs to Omaha before trucking back into Iowa on interstate licenses was plain evasion of the inter-state carrier laws, Jack De Witt, justice of the peace, Council Bluffs, fined R. J. Hixson and the Theodore Lee Carrier company of Glenwood \$100 and costs after a long hearing Wednesday afternoon. The Lee company does much of their trucking through this city.

The case was appealed by Roy Peterson, attorney for the Lee company, who furnished an appeal bond of \$100. The case was promptly transcribed to the district court by the justice.

Evidence at the hearing revealed that a consignment of fruit and vegetables from a Council Bluffs fruit company to Glenwood was being taken to Omaha, where it would be reconsigned on the same truck back into Iowa.

The arrest was made by C. L. Price, inspector for the state railway commission.

The Lee company and Hixson were charged with operating a truck for interstate carrier trips with only interstate certificates and licenses. The justice ruled that by the simple method of driving the goods across the state line, an attempt was made to evade the interstate laws and make an interstate shipment out of merchandise which was never intended to leave the state.

Inspector Price testified that no effort had been made by the company involved to appear before the State Railway commission and apply for interstate certificates and licenses which would enable the trucker to pick up and deliver goods within the Iowa border. The interstate licenses cover carrier work only between states.

As mentioned above the attorney for the Lee Transfer has appealed the case to the district court.

FIGHTING FIRE ON A SHIP

New York.—The freighter San Angelo reported Monday night that her crew was fighting "a serious fire" in one of her cargo holds, and asked all shipping to stand by to render aid. The message gave her position as about 200 miles northwest of Balboa in the Pacific ocean.

The message from San Angelo's master was picked up by the naval station at Colon, and intercepted by the Radio Corporation of America's marine station at Tuckerton, N. J. The Colon message said:

"Distress signals here from the steamer San Angelo. Serious fire broke out in No. 3 hold. Please stand by to aid in case assistance is necessary."

The ship sailed from Philadelphia March 6 and from Norfolk, Va., March 11, for San Francisco and other Pacific points. Vessels of her size usually carry about forty officers and men.

HOOPER SETS ASIDE DAY

Washington.—Seeking a wider opportunity for the physical and mental development of American children, President Hoover issued an official proclamation setting aside May 1, 1932, as child health day. The proclamation issued from the white house invited "all agencies and organizations interested in child welfare to unite upon that day in the observance of such exercises as will awaken the people of the nation to the fundamental necessity of unremitting effort for the protection and development of the health of the nation's children."

Democrats are Urged to Name Roosevelt

Senator Barkley of Kentucky, Speaks as McAdoo Says California for Garner.

Washington, March 22.—The democrats were urged to nominate Governor Roosevelt of New York for the presidency tonight by Senator Barkley of Kentucky in a statement in which he said he was not a candidate for the honor.

Barkley made his position known in replying to an inquiry from Dr. James H. Richmond, Kentucky superintendent of public instruction, who had asked the Kentucky senator whether he wished his state's delegation to the democratic convention instructed to vote for him.

The Kentucky democrat said that in his opinion it "is no time for compliments to so called favorite sons," adding that the democratic party had its greatest opportunity since Wilson's election to "lead this nation out of incompetence and disaster." "In my opinion," he said, "such a leadership is offered in Governor Franklin D. Roosevelt."

Barkley's statement was an outstanding development of a day which saw William G. McAdoo, former secretary of the treasury, predict after talking to Speaker Garner of the house that the latter had an excellent chance to be his party's standard bearer.

McAdoo told the Texan at a brief conference that he would win California's delegation of 44 in the May primary over delegate states pledged to Roosevelt and Alfred E. Smith. Later in a press conference he said:

"I think hungry stomachs are a much more serious matter now than dry throats and therefore I feel the next campaign will be settled on economic issues and the present state of the social order."—World-Herald.

Progressive is Hailed by La Follette as 'Savior'

Declares Followers to Vote for Nebraskan in Protest Against Hoover Inactivity.

Oshkosh, Wis., March 22.—Before an audience of 2,000 persons, who cheered a progressive's endorsement of Senator George W. Norris of Nebraska for President, Senator Robert M. La Follette jr. Monday night contrasted President Hoover's reconstruction program with his own plans for unemployment relief.

Senator La Follette defended the \$375,000,000 bill seeking direct federal aid to the states and lesser governmental units of which he was co-author and which was defeated last month in the senate. He declared President Hoover failed to meet the emergency situation squarely while "unkering with the banking system and loaning the credit of the government to railroads, banks and insurance companies."

The senator declared the progressive have decided to vote in the republican convention for that "sterling, progressive warrior, Senator Norris," in protest against the inactivity of the present administration in behalf of "millions of citizens who are suffering incredible hardship." Senator La Follette is a candidate for delegate to the convention.

"Although the reactionary democrats and republicans, under the leadership of the president, succeeded in defeating the Costigan-La Follette bill in February, I cannot believe congress will adjourn without meeting its obligations to victims of the economic crisis," La Follette said.—Omaha Bee-News.

Ice Gorge at Yankton Becoming Menacing

Farmers Flee Lowland Homes as Flood Threatens—River Continues to Rise.

Yankton, S. D., March 21.—Danger of a major flood became more acute here late Monday afternoon as the ice gorge three miles below Yankton backed more water up over the bottom lands.

The river rise was continuing at 7:30 p. m. and the government gauge then read 14.7 feet which is 2.7 feet above the 12-foot flood stage. More families were evacuating their homes Monday night as the water continued to raise, with no immediate prospect of the gorge breaking.

The flood, which had done little damage on the Nebraska side of the river, was beginning to force Nebraska farmers to flee from their homes. The entire bottom on both sides of the river here is flooded, making the

stream nearly five miles wide at a point two miles below Yankton.

Ice continued to float downstream Monday night and was packed solidly all the way from the gorge to the Yankton bridge. There was no current in the river, the entire stream having been dammed by the pack.

The water continued to flow across the bottom to the Jim river, and the danger of the stream cutting a new channel for three miles across country was becoming more acute.

No action has yet been taken to break the pack.

HITCHCOCK VOICES VIEWS

Memphis.—Former Senator Hitchcock of Nebraska, described Franklin D. Roosevelt as "the best antidote to any possible blunder the democratic party might perpetrate" in discussing the presidential outlook here.

"While Speaker Garner is a practical statesman and a useful house member," the former senator told Memphis newspapermen, "he is not as available as Roosevelt."

He said he regarded Governor Murray of Oklahoma "more of a character than potential presidential timber."
