All Want Better Times
 Universal prosperity comes only with universal employment—with the giving of everyone something to do.
LOWER TAXES
 can only be had when public money is expended wisely. Spend public money only when absolutely needed. Use the same care in the spending of public funds as we do our own. Then—and then only—can taxes be reduced—and surely that's what we all want to see done.

Most Unusual Accident
 While Rev. Jackson was enroute to Lincoln Sunday he met up with quite an unusual experience. As he was driving about a mile and a half east of Eagle a young man, Erasmus Vick-

ers of Palmyra was riding horseback and as he passed between a truck and the Jackson car, the horse became a bit frightened and crowded over against the fender of Jackson's car, causing the man's leg to be broken in a couple of places, the result being a most severe and painful accident. The horse was cut slightly on the side and lost some blood.
 Mr. Jackson took the young man to the Eagle doctor, and finding him gone, drove on to the Palmyra doctor. He was not thrown from the horse and it is hard to understand how he escaped it or being more severely injured. At last reports he was getting along as well as could be expected.

JOHNSON-JENSEN

A very pretty wedding occurred on Saturday evening, March 26, 1932, at the beautiful country home of Mr. and Mrs. Joe Johnson, when their daughter, Doris, was united in marriage to Rasmus Jensen.

The wedding party took their places under a large wedding bell hung in a beautiful pink and white arch that had been erected in one corner of the living room, decorated with large baskets of beautiful spring flowers. The Rev. Theo. Hartman, of Louisville, took his place under the bower, followed by little Aileen Johnson, who carried the ring in the heart of a pink rose. When she had taken her place, the groom and best man, Hans Jensen, brother of the groom, took their places, followed by the bride and her maid, Miss Matilda Aleckson.

The bride was a picture of loveliness in her gown of pale blue crepe with trimmings of cream colored lace, and carrying a shiver bouquet of white roses. The bridesmaid was also very beautiful, attired in a gown of light green and carried a bouquet of pink roses and sweet peas. The little flower girl was fairy-like in a sheer pink costume of organdy.

The solemn and impressive ring ceremony was performed by Reverend Hartman in the presence of seventy invited guests.

After the ceremony and congratulations had been given and received, the guests retired to the dining room where the table, which was effectively decorated with a huge pink and white wedding cake, sweet peas, and pink tapers. Refreshments were served by the Misses Margaret Ranney, Elizabeth Benson, Mildred and Ruth Aleckson and Leona Wade.

Just before leaving the bride threw her bouquet and Miss Ruth Ranney was fortunate in catching it.
 Mr. and Mrs. Jensen went directly to their home south of Weeping Water, where the groom has been farming and where they will be at home to their many friends.

SAFETY TROPHY BEING CAST FOR CEMENT PLANT

From Thursday's Daily

According to word received by A. K. Frolich, superintendent of the Louisville, Nebraska, plant of the Ash Grove Lime & Portland Cement company, from the Portland Cement Association, the order for the safety trophy awarded to the company has been placed with a large cast stone manufacturer in Chicago.

This handsome trophy is of cut cast granite and white Portland cement. It is hand-honed to a glass-like finish and bears two life-size images, in bold relief, representing Safety following Wisdom. It is eight feet high and weighs over 6,000 pounds, requiring the entire use of a railroad flat car for transportation.

It was designed at the Art Institute of Chicago and was awarded to the Ash Grove Lime & Portland Cement company for operating a full calendar year in 1931 without a single lost time accident to any employe. The last lost time accident at this company's plant occurred on August 16, 1930.

Makes Change in Rural Telephone Paym'ts

Lincoln Telephone & Telegraph Co., to Make Payments on Rentals on Monthly Basis.

Making telephone service more convenient for the subscriber is one of the chief aims of the Lincoln Telephone and Telegraph company was the statement made by C. H. Jensen, manager of the company here in Plattsmouth.

"At the suggestion of hundreds of our rural subscribers throughout the company's territory who have pointed out that it would be more convenient for them to pay for their telephone rental and toll service once a month rather than once every three months, the company has changed its collection method from a quarterly to a monthly basis," Mr. Jensen said.

According to Mr. Jensen, the practice of quarterly billing had its origin here in Plattsmouth many years ago in a desire on the part of the telephone company to meet the convenience of the rural subscribers at that time. It was started a day before good roads and when trips to town were infrequent. Today that condition does not exist, and instead of being a convenience, the system of quarterly billing has in many instances proved a burden.

"Beginning Friday, April 1st, payment for rural telephone service may be made on monthly basis. This plan, however, is optional with the subscriber," said Manager Jensen, for if the rural subscriber prefers to continue paying for his telephone service on a quarterly basis, he may do so.

Manager Jensen also pointed out that under this new plan if the subscriber pays for his telephone service on or before the tenth of each month, he will be given a twenty-five cent discount from his bill for prompt payment.

FAIRVIEW CLUB MEETS

The Fairview Workers club were most pleasantly entertained on Tuesday afternoon at the home of Mrs. Ray Mayfield, a large number of the ladies being in attendance. The club had as the topic for the meeting that of "The Garden That Feeds the Family," a most interesting discussion of this subject being participated in by the members. The ladies had present as guests of the afternoon, Mrs. A. D. Scott of Omaha and Mrs. Cyrus Livingston.

The next regular meeting of the club will be held on May 2nd at the home of Mrs. Fred Kaffenberger, but the club will have a special sing on April 19th at the home of Mrs. Albert Murray.

At the close of the enjoyable service Tuesday Mrs. Mayfield served a luncheon that all enjoyed to the utmost.

Drastic Action to End Slavery Faces Liberia
 Secretary Stimson Plans Ultimatum to President King on Delayed Abolition.

Washington.—The State Department is now ready to insist upon the final abolition of slavery in the Republic of Liberia, unofficial American protectorate, it was learned here Saturday.
 Instead of continuing to merely protest existing conditions, Mr. Henry L. Stimson, Secretary of State, has reached a determination that either slavery must be ended in the tiny African Republic or its President, Mr. Charles King, shall lose his office.
 Prospects of success in stamping out slavery are enhanced by a report that the Firestone Rubber Company is now willing to permit Liberia to complete a \$5,000,000 loan hitherto authorized but only 50 per cent floated. The extended loan would enable the Liberian Government to hire European inspectors and sanitary experts to clean up the twin scourges of slavery and yellow fever.
 Mr. Stimson decided on a firmer stand against continuance of the slavery traffic, following reports from the American legation in Monrovia that conditions are growing steadily worse, instead of showing

the improvement promised by the Liberian Government when the slavery situation was exposed.
 At that time, more than a year ago, President Charles King was forced to resign by a note from Mr. Stimson. His successor, President Barclay, himself the son of another former President, who signed the international report disclosing the existence of slavery, assumed office with a pledge to abolish the practice.
 The State Department, however, withheld official recognition of President Barclay, putting him on a good behavior basis. Since he now appears to have made no progress after more than a year of opportunity, Mr. Stimson is ready to try someone else.
 Withdrawal of the Firestone objection to the new loan is considered of almost more importance than a new President, since it makes possible the hiring of European experts without whom it is considered unlikely conditions would ever be improved.
