A Willing Heater.

The time when the fire place was in vogue and there was some work getting the back log in and the oxen had to be invoked to haul the log to the house and it was then hooked in the wide door, and one got warm twice, once in getting the wood and again when it was burned. The modern way is different, for there are plants which look after the comfort of the home automatically, and there is one in Nehawka, which when the temperature gets down to 56 degrees lights itself from an electric spark and away goes the process of warming the home.

There is a family in Nehawka who felt the twinges of cold and did not think of the automatic heater, so put on an extra cover for the evening, last week, and the mercury slipped rapidly downward after they had retired and when they had gotten soundly asleep the point was reached when the furnace automatically lighted and away went the spark and the heating plant was in operation. After a short time the temperature rose and the extra cover was kicked off and also the lighter cover which had been used, and they began to get warmed and they had to turn on the electric fan and in that way they got through the night and after they had arisen, it being terribly warm the Mrs. closed down the windows and drew the blinds to keep out the heat when the husband chanced to pass near the register of the heating plant and thinking he felt waves of warm air coming from them extended his hand and touched the radiator and he drew it back

quickly, as it was hot. Going immediately to the basement he found the furnace functioning properly. He was both pleased and otherwise, pleased because the plant was trustworthy and disgusted that his night's rest had been lost. We are not mentioning names.

They Advertise the Fair

We have this much to say for Weeping Water. They have a system of co-operation that brings results. They co-operate and work together. Like the time the Israelites came back from bondage in Chaldee, they all have a mind to work. The Cass County Fair is a county institution and is a Fair of all the people. A number of brave spirits surrounding Weeping Water have been the most active in making the fair a success. Not that they have done it all but they have been the venturesome ones who have gotten out and hustled for the success of the enterprise.

The Lewiston Community Center, made possible by a few hard, progressive workers and have maintained it as such. They purchased from the Methodist church the building and real estate on which it is now located and have kept it for community purposes, always having it ready for a funeral when wanted. There was organized a band who accompanied the booster boys and assisted in making the booster trip a success. With the president of the Fair association, Fred Carsten, Mark

Woods, secretary and many other officers, and with Troy L. Davis as their announcer, and distributors of advertising matter. They acquainted the entire county of the very best fair that has ever been held in Cass county, and there has been many good fairs held. This one is to be on September 13, 14, 15 and 16. Be sure and be there and bring your best pig along as well as anything else you have that the people of the county should see and enjoy. Remember the date!
