When James Bright went to Omaha with a load of hogs, he had to have the services of the sheriff of Douglas county to get through the line of picketers, but just the same, he delivered the hogs.

Clayton Sanborn, who was sick for a week, is reported as being much better and was able to be up and about the house, although he is not as yet able to get down to work, but is improving every day.

The mile west from Greenwood to the Lancaster county line has been graveled and the traffic, which is good and heavy is beating the road into good shape and will soon be in fine condition and by the time winter comes should afford a good passageway between Greenwood and the county line.

C. D. Fulmer and Fred W. Backmeier were visiting in the southern part of Missouri last week, they going to the Ozark country. Osceola was the town they sojourned in, being in the very heart of the Ozarks. They were greatly surprised to find such good crops and with land selling for less than \$20 an acre. They say they had a very good time and also think the country very good.

Find Injured Man on Highway

Monday morning a car stopped at the elevator, the driver reporting to E. A. Landon that a car and a man was along the road in a ditch east of town on highway No. 8. E. Landon and John Stradley went up the road and found the man. He gave his name as Tomlinson, and his home as St. Joseph, Mo.

They brought him to the office of Dr. Talcott, who administered to him. The man related that at 3 p. m. Sunday night he was in St. Joseph, driving his car, when two men halted him and got into the car, instructing him to proceed straight ahead. He said that after a short distance he knew

nothing more until he was aroused about 7 a. m., east of Greenwood. Mr. Tomlinson averred he lost \$40 and a ring out of this strange deal. He is an employee of the National Accident Insurance company and Dr. Talcott communicated with them. They sent him money to return home on, thus ending the episode so far as Greenwood is concerned.

Greenwood Schools Open

The Greenwood schools got off to an early start last Monday, August 29th, with a substantial increase in high school enrollment, but a decrease in the number of grade students. The 54 pupils enrolled this year in the high school as compared with 37 last year, shows an increase of about 45 per cent. 19 of the 54 are Freshmen. On the other hand, last year's grade enrollment of 90 has dwindled to 80 for this year. Of these, 30 are in the Grammar room, 28 in the Intermediate and 22 in the Primary. Eight of the 22 are beginners.

The Greenwood schools are offering this year for the first time a group of courses by extension. This is arranged in co-operation with the University of Nebraska and is really supervised correspondence work. The students are registered with the Extension department of the University, which sends the lessons and grades them. The faculty supervises the study and records the grades earned. Credit is granted the same as for any of the regular courses taught in leading accredited high schools.

Much interest and enthusiasm has been evidenced in this new program and about 16 courses have been taken with Typewriting the most popular, followed in order by Bookkeeping, Shorthand, Art, Chemistry and others. The cost is very small compared to the advantage of adding two complete fields to the local school's curriculum. Many others will be available if the need arises.

There has been a considerable turn-over in the teaching staff. Lee Knolle, of York, who is a graduate of York college, will teach the sixth, seventh and eighth grades. He has had training in voice, violin and physical education. Miss Lois A. Balduff, of Fremont, who received her degree from the University of Nebraska, is to teach Mathematics, History and Physical Science. Miss Frieda Weitzel, who has taken her work at Peru and at the University of Nebraska, will teach English, Latin and Music. Superintendent H. E. Warren, of the University of Nebraska, in addition to his executive duties, will teach Social Science and have charge of the extension courses. Miss Bess LeValley, in charge of the primary grades, and Miss Lenora Larson, in charge of the intermediate grades, are the only teachers of last year to remain over.—Gazette.

CUTS COAL RATE

Plattsmouth, Nebraska City and Falls City were three Nebraska cities to receive the benefits of cuts in transportation rates on slack coal allowed by the interstate commerce commission on Friday.

The rate reductions were made on the application of the railroads serving Indiana, Illinois and western Kentucky coal mines to permit a lower rate in serving several of the industrial cities of the middle and northwestern states.

The reductions, effective until March 31, 1933, range from thirty to fifty-three cents per ton. The rates are designed to enable the railroads to meet the competition of natural gas pipelines in Missouri, Kansas, Nebraska, Iowa, South Dakota and Minnesota.

In making the concessions to the carriers under which they may charge lower rates to points mentioned in the order than to points near the mines, the commission held that the three Nebraska cities should be included in the lower rates.

VETERANS BLAME PRESIDENT

Sacramento.—The Veterans of Foreign Wars unanimously adopted a resolution condemning the president of the United States for using the army "to rout and maim a pitiful and inoffensive crowd of ragged and unarmed bonusers."

The resolution was introduced by Joseph C. Thompson, a past state commander of New York. It recited that the United States presented to the world a movement against the use of gas and then ordered gas used

against women, children, veterans and men, unarmed and defenseless, weakened by hunger and unemployment. Other resolutions adopted called for repeal of the eighteenth amendment and immediate modification to the Volstead act.

To the Parents

—OF THE—

Hundreds of Cass County Boys and Girls Who Have "Gone Back"

School days are here again. To do the best work, a pupil must have good materials to work with. A cheap note book paper that "furs" the pen won't inspire any History student to do his best—nor will a leaky pen or poor lead pencil inspire them to greater advancement.

The small difference in cost between our well known quality line of school supplies and "competition" grades is so slight that it really doesn't pay to buy the other kind, for the better work accomplished will be worth far more than the few pennies that might be saved.

Our school supply line is most complete and includes everything from chalk to costly and accurate drawing instruments.

History Paper, Typewriter Paper, Tablets, Ink, Pens, Pencils, Rulers, Erasers, Crayons, and dozens of other necessities may be purchased here at a price that is low in comparison with what like quality is sold for the country over.

Our Fountain Pen line is especially complete and on all pens costing more than \$2 we will gladly put your name in gold letters, guarding against loss or theft.

We still have one of those Underwood Portable Typewriters advertised a few weeks ago at a special low cash price of \$45, and it will go to the first person claiming it at this price now. An opportunity that will not be repeated, so come early if you want it.
