## Look before you leap ... count the cost of lubrication neglect

QUESTION the repair man—talk to the used car dealer—visit the man who buys old cars for junk. All agree that lubrication neglect kills more cars than accidents and motor failure.

Shimmying wheels, annoying rattles, noisy gears, broken spring shackles, jerky starts, a weaving, vibrating body that makes driving at moderate

speeds dangerous and unpleasant—this is the price of lubrication neglect. Eighteen points on one popular priced car call for lubrication every five hundred miles. Free wheeling devices and syncromesh gears re-

quire special lubricants. Drive in to the nearest Red Crown Station and put lubrication up to us. Get every lubrication point properly protected with the Polarine Grease or Gear Oil. Come back each thousand miles at least for lubrication

With COLD WEATHER just ahead, pull in at the **Red Crown Station and** for winter service-protected by winter grade Greases and Gear Oils-Oil of the correct winter

grade for your motor.
