**REDUCES CWA PAYROLLS**

About \$100,000 reduction in Nebraska's weekly CWA and CWS payrolls was forecast by Federal Agent Haynes as a result of orders for a drastic scaling down of working hours on the federal relief projects.

Haynes said the payroll for the week ending Jan. 11 was \$380,289 and he estimated it would be \$101,000 less for the work week beginning Friday. Figures are not yet available for the week ending Thursday but he expected an increase over the preceding week and so forecast this week's reduction would be only about \$89,000 under the week ending Thursday.

Telegrams were in the hands of CWA officials in every section of the state ordering them to reduce the maximum working hours on projects within cities of more than 2,500 population to 24 a week and elsewhere to 15 hours a week. All clerical, supervisory and professional workers were ordered limited to 30 hours a week with proportionate salary readjustments.

Haynes said he had been forced to apply the ruling specifically to where the work projects are located because there is no machinery available to tell where men's homes are. Workers on Lincoln's municipal airport project for instance come from Lincoln chiefly but will be limited to 15 hours a week because the project is outside the city in rural territory.

Marshall Jones, chief CWA engineer, and J. D. Melner, statistician, were preparing estimates on what materials will be necessary to complete scheduled CWA work in this state as a result of the orders that no more materials be purchased without approval from Washington.

**ROOSEVELT BALL**

The Roosevelt ball to be held at the Legion building January 30th, affords a splendid opportunity to do good and have a good time on money spent.

The proceeds from this ball are to be used to expand the work already started at Warm Springs, Georgia, with a view to establishing similar institutions in other parts of the country.

President Roosevelt, who has been greatly helped by the Warm Springs treatment is head of the governing board of this institution. Infantile paralysis is considered to be one of the most serious diseases. About 10 per cent of these cases prove fatal and at least 60 per cent are left cripples.

To be conservative, infantile paralysis costs this country each year in impaired earnings and buying power some three hundred million dollars, and does not represent the millions of dollars spent by these afflicted people in their fight for recovery.

About 100 cases were reported in Nebraska last year.

Warm Springs, Georgia, is to be the foundation and if enough money is realized, other cure centers will be started.

Everyone who buys a ticket for this ball can feel that he has a definite part in furthering a campaign against infantile paralysis.

**High Scouting Honor Awarded to Local Boy**

James Robertson, 2nd, Advanced to Eagle Rank—Large Number at Court of Honor.

From Thursday's Daily  
There was a very pleasing attendance at the court of honor of the Nebraska City district, Boy Scouts of America, held here last evening at the American Legion building. In addition to the large local attendance, there were delegations of Scouters and Scouts here from numerous outside towns, Peru furnishing the largest delegation, with Louisville, where a new troop has just been organized under American Legion sponsorship, running them a close second. There was also a good delegation present from Nebraska City, with scattering groups present from other towns over the district.

Lee E. Harbottle, of Lincoln, assistant Scoutmaster of the Cornhusker council, of which this district is a part, was accompanied from Lincoln by Frank Chase, a new field man who has just been added to the Cornhusker's executive personnel to handle the increasing duties that have made the work of the council over an area of some fifty-five counties difficult to maintain. Both of these gentlemen were guests at an informal dinner at the Searl S. Davis home preceding the convening of the advancement board at 7 o'clock to pass on advancement and merit award requests.

The court of honor ceremonies began at 8 o'clock with a brief program in charge of Dr. G. L. Taylor, advancement member of the local troop committee and included several numbers by members of the local Scout troop. Dr. Taylor also officiated over the award portion of the program in the absence of M. R. Shrader, of Nebraska City, chairman of the district advancement board, who was unable to come due to a school conference. Mr. Shrader is superintendent of schools at Nebraska City.

The program opened with signaling of a message of welcome to the parents and friends with Scout John Kishel sending and Scout Billy Evers interpreting the message. John Kenneth Bestor, a new recruit in the Tenderfoot ranks of the local troop, followed with two humorous readings. Next on the program was a violin duet by Scouts Wallace Terryberry and Billy Evers.

The Scout drum and bugle corps was next called into action and under the direction of their leaders, Messrs. Anton Bajdeck and James Farnham, gave a splendid exhibition of the various beats they have mastered as well as the standard army bugle calls.

Mr. Harbottle gave a brief statement of the scope of activities of the Cornhusker council and explained the bi-monthly holding of courts of honor at different towns over the respective districts.

The conferring of awards was next in order and nine Tenderfoot Scouts marched onto the stage to receive the advancement to second class Scouts. Six of this number were from Peru, the remaining three being Warren Reed, Richard Yelick and James Webb, of Plattsmouth. Badges were presented by E. H. Wescott, long active in the promulgation of Scouting in this community.

There were two candidates for advancement to first class Scouts, Billy Evers, of Plattsmouth, and Loren Dutton, of Peru. These badges were presented by G. M. Corum, superintendent of schools of Louisville and a member of the Louisville troop committee.

Ten merit badge candidates were next in line, some of them qualifying for as many as six merit certificates. Among this number were Billy Evers, of Plattsmouth, leathercraft; Billy Rosenerans and Bob Taylor, of Plattsmouth, cycling. The certificates were presented by George Brammer, of Louisville, the father of three Scouts, one of them the honor Scout of the Louisville troop a year ago.

Six Star Scouts were in line for that distinguished advancement, several of them Nebraska City boys. The one local boy in this group was Stephen Davis. These badges were presented by Fred Kuwizky, of Nebraska City, father of one of the boys in the group, and an active Scouter of that town.

The high honor of Scouting awards at this court was conferred upon James Robertson, 2nd, of Plattsmouth—that of the Eagle Scout award. It was pointed out by Mr. Harbottle that this is the one award the council office is unable to pass upon, and approval for conferring it is had only after the credentials of the applicant have been passed upon by national Scout headquarters.

Hilt Wescott was called upon to make this award—the sixth of its

kind to be earned by local boys during all the years Scouting has been maintained here. With the parents present on the stage, he spoke of the long and arduous pathway a boy must have trod in Scouting circles to arrive at this high pinnacle of distinction and faded from the picture as he requested the mother to pin this badge upon the coat lapel of James, in a very touching scene.

Scouter awards were also presented to three adults who have qualified as assistant scoutmasters by attending a complete course of instruction, including the hike and cooking tests participated in the final day. Among this number was Aulton Roland, a former Plattsmouth Scout, who has now passed the age limits for Scouts into the realm of adult Scouters and has been named as an assistant Scoutmaster of the local troop.

Just before the meeting was adjourned, Elmer Webb, chairman of the Legion troop committee here, outlined the present set-up that provides for an active committee from sponsoring organizations, together with a report of progress on the Scout cabin at Camp Wheeler and the financial problems that must be met to keep Scouting alive in Plattsmouth. It is interesting to note that whereas this community's annual prorated amount for maintaining the old Nemaha area office at Nebraska City was close to \$200, by now combining with the larger Cornhusker council, all the benefits heretofore enjoyed will be available at a cost of but \$80 per year, and that last year's unpaid dues have been canceled, leaving only the fiscal year 1934 to reckon with.

Enrollment in the local Legion sponsored troop is now 40, or eight in excess of the maximum strength, and additional applications being received, making imperative the forming of a second and perhaps a third troop in the near future. The big problem in that line is securing of leaders who are willing to devote time to the work and sponsorship by local organizations whose members will actively participate in the Scout program.

The per capita cost to the national organization and Cornhusker council is figured on a town's population and remains the same whether one or a half dozen troops be maintained, so the opportunities in this field are unlimited.

Scoutmaster Raymond Larson and Assistant Scoutmaster Russell Reeder were called up from among the audience to take a bow for their long and faithful service in turning out each Monday night to work with the local troop.

**Peru Gets Next Court**  
Following adjournment, the district business meeting was held, presided over by Mr. Harbottle, and it was voted unanimously to accept the invitation of Peru to entertain the next court of honor on March 21st.

**Why Liquid Laxatives are Back in Favor**

The public is fast returning to the use of liquid laxatives. People have learned that the properly prepared liquid laxative will bring a perfect movement without any discomfort at the time, or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. A child is easily given the right dose. And mild liquid laxatives do not irritate the kidneys.

Doctors are generally agreed that senna is the best laxative for everybody. Senna is a natural laxative. It does not drain the system like the cathartics that leave you so thirsty. Dr. Caldwell's Syrup Pepsin is a liquid laxative which relies on senna for its laxative action. It has the average person's bowels as regular as clockwork in a few weeks' time.

You can always get Dr. Caldwell's Syrup Pepsin at any drugstore, ready for use. Member N. R. A.
