## Recognition Spurs Soviet to Pay Debt

### Decision by President on American Trade Policy Said to Be the Only Necessary Step.

Washington, Jan. 28.—The harmonizing influence of recognition has aided negotiations toward the settlement of the 16-year-old Russian debt question until a definite understanding may be reached soon, some observers foreseeing it within a month.

Involved are the 300 to 400 million dollars in Russian debts due this country and Soviet counter claims because of American participation in the Siberian expedition. Then, too, there are private claims which citizens of this country have put forward. The parleys have progressed until it was said in authoritative circles Sunday that a decision by President Roosevelt on American trade policy might be about all that is necessary before an announcement.

Debt settlement, credits to Russia, foreign trade policy, and closely related subjects are so interlaced at present that President Roosevelt must pull the proper string before the skein can be untangled.

President Roosevelt has under consideration two reports which have a bearing on future trade policies. One from the foreign trade policy committee, made up of experts from the various government branches, contains findings on general policy and tariffs.

### Lifts Gold Embargo.

The other, from George N. Peek, former agricultural adjustment administrator, is understood to propose the establishment of a foreign trade export corporation, which would have power to authorize or recommend foreign credit extension.

The treasury, by lifting the embargo on Russian gold, barred since 1920 because of the question of legal ownership, has made it possible for Russia to use a portion of its 50 million dollar annual production for purchases in this country.

The treasury also has lifted the ban on Russian pulpwood and matches, previously barred on charges of convict labor production and dumping.

### SHORT HOURS TO SOLVE ALL

Indianapolis.—In shorter working hours and better wages lies the salvation of all the people of America, declared Miss Frances Perkins, secretary of labor, in addressing the convention of the United Mine Workers of America.

The cabinet member explained that the income of the farmers and the wages of industrial workers represent the great bulk of the buying power of the nation. During the depression she said, this buying power was reduced approximately 12 billions. This can only be recovered, Miss Perkins said, thru better wages and shorter working hours so that the wages will be spread among a greater number of people.

One of the most heated sessions of the convention developed when an attempt was made to change the United Mine Workers' constitution so as to permit its members to join the communist party.

### SAYS CONGRESSMEN LOBBY

Washington.—Senator Byrnes assailed as "hypocritical" any legislation which would bar department officials and members of party national committees from lobbying for the appropriation of government funds, and yet would not apply to members of congress. He approved the president's desire to restrict the activities of persons supposedly able to influence governmental action because of their connections, but asserted "there is more danger in the political influence exerted by a live congressman than in the influence attempted to be exerted by a politically dead congressman."

During the day a senate judiciary subcommittee considered the advisability of drafting a general "anti-lobbying" bill, to cover the purposes of a number of specific measures which have been introduced recently.

### HANING JURY IS DISCHARGED

Kansas City, Kas.—Falling to reach a verdict after three days of deliberation, the jury in the case of Zerna Haning, Lincoln, Neb., accused of arson, was discharged by Judge Fischer late in the day. County Attorney White announced Haning would be retried at the March term of court. He was charged with having attempted to burn a house he owned here for \$2,000 insurance.

## Lost 20 Lbs. of Fat In Just 4 Weeks

Mrs. Mae West, of St. Louis, Mo., writes: "In only 28 years old and weighed 170 lbs. until taking one box of your Kruschka Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschka Salts in a glass of hot water every morning before breakfast—an 85 cent bottle lasts 4 weeks—you can get Kruschka at P. G. Fricke & Co., or any drug store in America. If not joyfully satisfied after the first bottle—money back.

### COLORADO CWA DISMISSED

Washington.—Harry L. Hopkins, civil works administrator, discharged the Colorado civil works administrator, Herbert Fairall, and the entire Colorado civil works commission. He appointed C. D. Shaver to be civil works administrator in Colorado. Shaver will operate without an assistant commission. The Colorado civil works heads were discharged for approving a project for auditing the books of the city of Denver. One of the members of the commission Ralph Mayo, Hopkins said, was employed by the city to supervise the project and is receiving a free from the city.

### KINGFISH BACK TO DUTIES

New Orleans.—Departing quietly by train, Senator Huey Long was en route to Washington to resume his senatorial work while his aides carried on his political battle against the old regulars of Mayor Walmsley, who last Tuesday defeated Long's candidate in the city mayoralty primary. Long had nothing to say about a conference here Saturday in the senator's hotel suite in which he and Ulic J. Burke, old-time leader of the first ward, participated. Burke, who was criticized by Long in his mayoralty campaign speeches, described the interview as "strictly personal."

### AID TO VETERANS' BENEFITS

Washington.—An "adequate trial" for the new regulations adding 21 million dollars to veterans' benefits rather than the passage of new legislation was advocated by Administrator Hines of veterans' affairs. Testifying on the American Legion's program and other amendments proposing to liberalize the economy provisions of the independent offices bill, Hines told a senate appropriations subcommittee that \$86,926 veterans and dependents had been taken from the compensation rolls between June 30 and Oct. 31, 1933, but that liberalizing regulations issued since were "sound and should be continued."

## Schuyler Man Slain, Verdict of X-Ray Probe

### Reveals Pistol Bullet Passed Through Heart of Bachelor Believed Burned to Death.

Schuyler, Jan. 30.—County Attorney L. F. Otradosky Tuesday night said he was convinced William Henesh, 40-year-old Schuyler bachelor was murdered and not burned to death in his automobile as was first supposed.

X-ray photographs taken late Tuesday revealed a pistol bullet passed through the heart and lodged near the spine, Otradosky said. A coroner's jury convened Tuesday afternoon, but after viewing the body and the charred automobile, adjourned subject to call.

The county attorney said he planned to make a renewed and extensive investigation before calling the jury back in session. He conferred Tuesday with John Henesh of Fremont, brother of the victim, who urged Otradosky to check on possible foul play.

Henesh was found dead in his burning coupe on the highway seven miles north of here Sunday night by two farmers living nearby. They said they were attracted to the car by the fire, and upon finding Henesh dead notified authorities.

In the car Otradosky found the barrel of a small bore shotgun, but all inflammable parts of the interior of the car were consumed. Friends of Henesh told authorities the Schuyler light plant fireman often carried large sums of currency with him.

He had taken Miss Catherine Vondra of Schuyler, rural school teacher, nine miles north of here, to her boarding house and was en route back home. She told authorities he was in the best of spirits when he started the return trip. Miss Vondra was a neighbor of Henesh and he had been in the habit of taking her to the country on Sunday nights.

Otradosky said the bullet which killed Henesh was from a .38 or .45 caliber revolver.

### BREMER FAMILY IS HOPEFUL

St. Paul.—A new attitude of optimism pervaded the Bremer family as they remained alert for word from the kidnapers of Edward G. Bremer. Walter Magee, friend of Bremer, who received the first ransom note within a few hours of the missing banker's seizure, also hinted fresh developments in were imminent possibility. "I am optimistic," said Magee, "that we will hear something within the next few days. The appeals of Adolph Bremer (father of the missing man) and assurance that the ransom is ready for payment to the gang as soon as authentic word is received ought to bring some results soon."

### PLANE FALLS INTO OCEAN

Kitty Hawk, N. C.—George H. Tomkin, Norfolk, Va., pilot, and Leewellyn Harris, an injured passenger, were rescued from the surf near here after their plane had nose dived into the ocean. The lookout at Paul Gammel's hill station saw the plane in distress and notified Captain Snow, who started with a coast guard crew for the scene. They arrived just as the plane struck the water and Surfman Beacham plunged in to rescue Harris. Captain Snow and others of the crew rescued Tomkin and later the plane.

### TRIED TO TUNNEL INTO BANK

Holbrook, Ariz.—Dillworth Sumpter, socialist candidate last fall for Arizona's congressional seat, was given a suspended sentence of a year and a day in state prison, by Superior Judge Sawyer, for attempting Sunday to enter the First National Bank of Winslow. Sumpter, who said he sought money to care for his invalid mother, pleaded guilty to burglary in the first degree, and was released from custody. He was captured by a patrolman early Sunday, who said he was attempting to tunnel into the bank.

### ARMY AIR PLAN IS DRAFTED

Washington.—A new five year expansion program for the army air corps providing for increased flying personnel, airplanes and equipment involving an expenditure of 118 millions is being drafted by Chairman McSwain of the house military committee.

McSwain said it would call for an increase up to 3,000 in planes fit for wartime service, an increase in officer personnel from 1,250 to 2,450 and an increase of about 4,500 in enlisted personnel.

### WYATT EARP IS RETURNING

Wellington, N. Z.—With her iron work rusted and her copper sheathing scarred by ice floes, the steamer Wyatt Earp arrived from Little America with the Lincoln Ellsworth south polar expedition. Referring to the accident which resulted in crippling the expedition, Ellsworth said "the blow fell suddenly." "In an hour or two," he said, "we would have been in the air and the disaster would have been averted, but in fifteen minutes five miles of barrier ice crumpled and we were unable to take off. It was the bitterest moment in my life, coming so near to success and having it snatched from us at the last minute."

The accident Ellsworth referred to crippled the airplane when a crack in the ice let the undercarriage down and damaged the wings.

### DOLLFUSS FEARS INVASION

Vienna.—Chancellor Dollfuss voiced a ringing eleven hour appeal to Austrian peasants to rally around him and beat back an imminent "general offensive" of nazis. Speaking to 200 leaders of the lower Austrian peasants' league, the chancellor warned them that trouble was brewing on the nazi front "on or about Jan. 30" and appealed to them to risk life and limb in the defense of the homeland. He demanded also that they help crush "the menace of Marxism." The peasants responded with a vigorous resolution of loyalty to Dollfuss. Dollfuss declared that Hitlerites were preparing a mammoth offensive. The fascist Heimwehr lined up with Dollfuss against the nazis.

### HITCHCOCK IS HOLDING OWN

Washington.—Gilbert M. Hitchcock's physician reported the condition of the former senator was "unchanged." Earlier in the day the physician had said the Nebraska was seriously ill, but "holding his own."

### FIREMEN OVERCOME

Peoria.—Twenty men were overcome by smoke and extreme cold fighting a fire which swept thru two floors of the partially constructed brewery of the Premier-Pabst corporation.
