

Garden Clubs Over City in a Fine Rivalry

Coming Summer Promises Real Interest as Rival Ward Groups Prepare Campaigns.

The Plattsmouth Garden club, just recently launched, promises to be one of the most successful community projects that has been launched in many months, judging from the interest in all parts of the city.

The club is organizing into ward groups and which are getting down to the business of preparing for spring in real earnest, leaders in each block all over the city is planned and this has been completed in the second ward. These are to personally contact every property owner or tenant in the city and strive to have a one hundred per cent representation when planting time comes.

The club is not only boasting the establishment of beautiful and attractive flower gardens over the city but as well the creation of vegetable gardens that will be an asset to the owners and eliminate many waste places that now are allowed to go unused or become weed patches.

The fourth ward is now preparing to launch their drive. Roy Olson being at the head of the program and it is expected that every section of the ward will be contacted when the formal campaign is on.

The movement is one that every citizen should be interested in as a matter of civic improvement and assuring the city to be more than usually attractive to the eye in the fine flower and vegetable gardens.

HAVE A FINE ENTERTAINMENT

From Thursday's Daily
The Young Men's Bible class of the First Methodist church, enjoyed one of their always delightful social gatherings last evening at the class room where a large number of the members had gathered.

The group enjoyed some of the favorite songs with their teacher, E. H. Wescott, at the piano to assist in the accompaniment.

The chief feature of the evening was the visit of a noted Indian magician who performed many feats of magic that baffled the members of the class and gave plenty of entertainment for the group.

At the close of the evening refreshments of doughnuts and coffee were served by the committee composed of Judge A. H. Duxbury and Superintendent L. S. Devos.

STAR EXPLAINS BLACK EYE

Hollywood.—The mystery of the black eye that Margaret Sullivan new film star, was taking with her on a flying trip to New York was no mystery at all, her friends at the studio said. Miss Sullivan, after a week in Arizona, returned Wednesday with the black eye and a scratch on her cheek.

She said it was the result of her ambition to learn to cast for trout. A cowboy on the dude ranch near Phoenix, Ariz., where she was visiting, was instructing her. The bait flew back and hit her in the eye, while the fishhook scratched her cheek. The black eye aroused curiosity as the airplane paused at Lincoln, Neb., and the actress refused to discuss it.

PUSH FOR VOTE ON TREATY

Washington.—Rooseveltian pressure began bearing down on the senate with the result that an agreement is expected to be reached Friday to vote not later than Feb. 9 or 10 on the controversial St. Lawrence waterway treaty. Both sides of the long ratification battle agreed the decision would be close.

Treaty proponents, led by Chairman Pittman of the foreign relations committee, and the opposition, captained by Senator Wagner tried to reach a vote agreement Thursday, but could not reach a common ground and the effort was put off until Friday.

INCOME TAX BILL DELAYED

Washington.—To make certain that the person whose income is between \$10,000 and \$20,000 does not have to pay more than his share of the nation's expenses, the treasury asked for more time to study the new tax bill.

The request probably will delay completion of the bill by the ways and means committee. The treasury will submit a report within the next few days. It is understood the department feels that under the new rates—normal and surtax—incomes between \$10,000 and \$20,000 will bear more of the burden in proportion to higher incomes.

Lincoln, Neb., Feb. 2.—Federal District Judge T. C. Referring to the accident which resulted in crippling the expedition, Ellsworth said "the blow fell suddenly." "In an hour or two," he said, "we would have been in the air and the disaster would have been averted, but in fifteen minutes five miles of barrier ice crumpled and we were unable to take off. It was the bitterest moment in my life, coming so near to success and having it snatched from us at the last minute."

The accident Ellsworth referred to crippled the airplane when a crack in the ice let the undercarriage down and damaged the wings.

HUEY DIDN'T STRIKE SCRIBE, PASTOR SAYS

Washington, Feb. 2.—Huey P. Long presented a letter to the senate Friday from a Louisiana minister, denying he had struck a Washington newspaperman Thursday. The minister, Gerald K. Smith of Shreveport, wrote he was with Long when the senator was charged with hitting the newspaperman. He said nothing of the kind occurred.

Smith also said while he was making a business call on Long at the senator's hotel a few nights ago his picture was taken and published the following day with a caption describing him as Senator Long's bodyguard. He said he was not known as a Long partisan and that most of the members of his church were members of the "anti-Long" group.

It required the prosecution but two days to present its evidence and only thirteen witnesses took the stand.

Death of Former Senator Recalls Old Time Game

Plattsmouth-Rock Bluffs Baseball Game in Which G. M. Hitchcock Served as Umpire.

From Tuesday's Daily
The death of former Senator Gilbert M. Hitchcock early today in Washington, recalled to a number of the residents of this section a chapter of the early day activities of the Omaha publisher, a baseball game in which he had taken the role of umpire in a baseball game here.

The game was staged between the Plattsmouth and Rock Bluffs teams and was held on May 14, 1887, in this city and the umpiring of Mr. Hitchcock was evidently satisfactory as he was able to return to Omaha safely.

A score card of this game which resulted 25 to 11 in favor of Plattsmouth is a treasured relic in the possession of T. H. Pollock of this city, a participant in the game.

The Plattsmouth team comprised James Patterson, catcher; Tom Patterson, pitcher; Maurice O'Rourke, first base; Harry Reese, second base; Charles Kinser, third base; Sam Patterson, shortstop; Charles Fry, center field; T. H. Pollock, left field and James K. Pollock in the right garden.

The Rock Bluffs team was composed of George Smith, center field; Mark White, shortstop; A. S. Graves, pitcher; O. Haygood, right field; Ed Marler, second base; C. L. Graves, pitcher; J. D. Lewis, catch and first base; C. Kinnaman, third base and catch.

Judge Graves recalls well the selection of Senator Hitchcock for the umpire job, both Rock Bluffs and Plattsmouth being suspicious of the selection by either team of an arbiter, decided to call in the services of an Omaha party and hit on Mr. Hitchcock as the man for the job.

IMPROVING PAVING

A force of men engaged in one of the CWA projects is busy in repairing the paving in the business section of the city, having been occupied for some time in eliminating bumps and ridges in the paving of the credential section.

Today the workmen started in re-movng portions of the brick paving along Main street and which will repair sunken or uneven sections of the paving.

This is much needed work and the aid of CWA funds has made it possible for the city to have it completed, as otherwise the city would have been unable to undertake it at this time.

Omaha.—Melvin Martin, 24, graduated last month from the University of Nebraska and who while there, heard charges that the soviet union was paying his way thru school, will leave here April 2 to assume a teaching position in a Russian university.

Melvin's career at Lincoln was marked by charges of Robert Armstrong, state legion commander, that the soviet was providing him with funds, and former State Sheriff Endres once threatened an investigation of communist activities at the universities, supposedly led by Martin. Wednesday, Melvin pointed to a long white butcher's apron he was wearing in his father's butcher shop here, and embarked; "This is how the soviet union pays my way."

Martin expects to spend two years at Rotsch-On-Don, in southern Russia, and then return to this country. He is an admirer of Stalin and a partisan of the soviet regime. His father, Ben Martin, is also friendly despite the fact that his once tidy fortune was wiped out by the revolution.

Fremont, Neb.—Between fifty and sixty Fremont residents were thrown out of work Sunday night when the plant of the Jerpe Commission company, wholesale poultry house, was damaged by fire. THE PRICE MONEY FOR MATERIALS

When the nations of the world broke over a spell, To murder each other with shot and shell Then employed with rancour a poisonous gas, Exempting none, not so much as a lass.

They found a terrible price had been paid, In men and money when all had been said, But war clouds hang over the Eastern sky While the people are restless and very shy.

Wealth with some was like the breeze, It poured in their coffers with perfect ease, And when you wonder how it all came about It was like catching eels or river trout.

Concessions were given to the factory man, For supplies for the soldier who enlists if he can, To make fodder for the cannon to burn in the field, And as the battle rages he acts as a shield.

We have trampled under foot many blessings from on high, Our taxes have increased, though we seem to try To blot out the past and on the present rely, But our stage of action don't retard the blow, Nor save us from thinking it is not so.

The soothing syrup we are getting is bitter indeed, It has put some to sleep regardless of creed, But when the war clouds break and clear away, We hope to enter into a more perfect day.

Then the plum tree will ripen its juicy prune And harvest time will come very soon, The fruitage will be peace and plenty each day, And nothing can hinder it's coming to stay.
