Brex and Chevies
Winners in Soft Ball Twin Bill
Shop Team Has Easy Win by Score of 15 to 1, While Chevrolet Take Donats 14 to 11.
From Saturday's Daily
The kittenball fans had a double bill of entertainment last night at the Athletic park when the BREX team won from the Wintersteen Hill Canaries by the score of 15 to 1 and the Chevrolet team trounced the Donats by the score of 14 to 11.
In the opener the two shop teams had a fast and snappy game despite the large score and the contest was played in good time to complete it before darkness fell.
The BREX showed a fast fielding organization and gave Dick March a fine support at all stages of the game. Dick also hurling a nice brand of ball. The BREX hit Gaylord hard and also many errors on the part of the Canaries added to their opponents rolling up the one sided tally.
The bad news:

The Nightcap.
The second game of the evening was played under the lights and opened with the "Chevies" scoring five runs in the opening stanza while the Donat team was held to one score. The opening inning was a bad one for the beverage boys as many errors and wild throws made it possible for the automobile boosters to trot around the bases.
Louie Knoflick was the mound artist for the Donats and was wild in the opening but was able to settle down for a hard fought finish. Floyd Becker was the hurling ace of the Chevies.
In the latter part of the game the beverage team started in to hit and made a whirlwind finish that brought them within a small margin of the victory but were unable to make the necessary runs.

FOUR NAMED AS ATTACKERS
Marysville, Kas.—Hurried away from a crowd of 300, four Blue Rapids, Kas., men, including Police Judge Russell, accused of attacking three girls, were brought here by officers as a precaution against possible mob violence. The crowd gathered and voiced threats at the Blue Rapids jail after arrest of the four.
The other three men arrested were George Hulbert, L. W. Newson and Albert Evislager, officers were informed. They said that William Taylor and William Wagon were held on suspicion of complicity in the crime and that two other men were sought.

THE ZEPHYR
For weeks all the country has been deeply stirred about the Zephyr of which they have so much heard, and when it proceeded to make a show, and pass through our city and to Chicago go
The town and all the country outside, proceeded to load up and take a ride.
To Plattsmouth they came and sat at the wheel, to get a glimpse of so much unburnished steel.
The Legion was called out to patrol the track.
For fear some wanderer should get in the slack,
And be carried away with the Zephyr
And tossed in the bushes and among the heather.
On the hillside steep we gathered for home,
The wonder of the world it was supposed to be,
When around the curve it hove into sight,
Sparkling all over, it shone so bright.
A 'plane came sauntering leisurely along,
As the Zephyr disappeared through the excited throng,
And rounded the curve and crossed the bridge,
Leaving us pondering on the side of the ridge.
Yes, we pondered and started for home,
With a twinkle in our eyes as it left us to roam,
Over hills and dales as we sought shelter and rest,
With a question mark lingering within the breast.
The Zephyr has gone and left a breeze,
Bending the branches of the stately trees,
We hope they will be secure from this inevitable blast,
And return to normal safe at last.

HAD ICE CREAM TREAT
The ten Boy Scouts who have been spending the past few days at Camp Wheeler, under supervision of V. T. Arn, who is slowly recuperating from an operation on his hand, had a pleasant treat provided for them last night when Mr. and Mrs. Will Evers arrived at camp with an ice cream freezer filled to the brim with luscious home made ice cream—just the kind that would delight any boy, and doubly welcome after a couple of days at camp, far removed from the conveniences of the home ice box this hot weather.
The boys have been having a great time, and will return home this afternoon well tanned and tired. A natural swimming hole in Rock creek across the road west from the camp is being utilized pending completion of the swimming hole just below the cabin, work on which was started under CWA shortly before that was discontinued by federal order April 1st. The creek is carrying a very small amount of water—no more than will run through a two inch pipe and the entire flow is being shunted thru the artificial swimming hole to prevent the water there from becoming stagnant prior to completion of the project.

LEGION WINS FROM MYNARD
The American Legion kittenball team Thursday night were the winners from the Mynard Cornhuskers by the score of 14 to 10. The game opened with both teams hitting and several errors to mar the game, both scoring four runs, while in the second the Mynard team secured a five to four lead that was soon wiped out by the veterans. Bill Krisky did the hurling for the veterans while Jack Vallery performed that task for the Cornhuskers. The box score of the game was as follows:

SHOWER FOR MRS. FITCH
Friday afternoon Mrs. Theodore Ptak was hostess at a very charming miscellaneous shower at the Ptak home on West Pearl street for Mrs. Robert Fitch, Jr.
The home was arranged in decorations of the summer flowers and made a very attractive setting for the pleasant afternoon.
The time was spent in bridge in which Mrs. Herbert Schutz was the winner of first prize and Mrs. W. V. Ryan of the second honors.
In honor of the recent marriage of Mrs. Fitch, she was presented with a number of very attractive gifts from the friends that will serve long as remembrances of the associates.
At an appropriate hour dainty refreshments were served by the hostess that added greatly to the enjoyment of all of the jolly party.

IF THE GOVERNMENT REALLY WANTS TO DO SOMETHING FOR THE FARMERS, THEY MIGHT MAKE SOME ARRANGEMENTS WHEREBY IT IS AS EASY TO GET OUT OF DEBT AS IT IS TO GET OUT OF THE PENITENTIARY.

ROOSEVELT HAS THE FINAL SAY ON ADJOURNING DAY
June 9 Tentative Date for Congress to Quit, But Nothing Certain; Much to Be Done.
Washington.—How thin the house slices the legislative loaf will be the governing factor which will determine the date on which senators and representatives start buying railroad tickets for the trip home. Leaders had their eyes fixed on June 9 as a likely adjournment date, but they were awaiting word from the white house about some of the controversial matters still pending before making definite plans. Four bills—tariff, stock market regulation, silver, and additional public works appropriations—were marked for certain passage, but their approval by June 9 would be easy.
The question mark after the tentative adjournment date was chiefly attributable to uncertainty over the Wagner labor bill reported by a senate committee, and the administration housing bill, which is still before the senate's banking committee. There have been indications the administration would like both passed before adjournment, but President Roosevelt has not committed himself on delaying adjournment to get them thru.
There were possible blocks in some of the other pending legislative proposals, particularly the bill to extend the temporary bank deposit insurance plan, onto which the house attached an amendment to add depositors in closed banks. This issue involved potentialities which might tie the houses up in a deadlock, because the extension of the temporary insurance plan is considered vital by the administration.
The industrial loan bills passed by the house and senate were somewhat different, little difficulty was expected in reaching an agreement on a measure providing about half a billion dollars for that purpose.
Among the major pieces of legislation expected to be dropped or defeated were the agricultural adjustment act amendments, the Copeland food, drug and cosmetics bill, the bonus bill and oil control legislation.
Disposal of the tariff bill within a few days was assured by an agreement in the senate to limit debate beginning Wednesday. Leaders planned to take up the silver bill after the tariff.
The conference report on the stock market control bill on which an agreement was reached, will be submitted to the senate about the middle of next week and probably will reach the white house by Saturday.

TRANSFER CONTRACTED ACRES.
Under the wheat contract, farmers are permitted to pasture their contracted acres. This is not allowed however, under the corn contracts. The only solution to the pasture problem for those who have sweet clover ground laid aside as contracted acres under their corn-hog contract, is to trade the acreage for some other ground, such as oats. Washington and the local allotment committee has permitted the transfer of contracted acreage. If you will come into the corn and hog office you can transfer your second year sweet clover ground to oats or other ground and in this way use the clover you had previously contracted.
The county quotas of hogs and corn are here and all speed is being made to get the contracts ready for Washington. Contracts with early payment riders will be completed first. In these contracts the signers have completed their contracts and given the committee permission to forward the contracts to Washington. If you wish to see your appraisal and allotment before the contracts go to Washington, call at the corn and hog office between June 4th and 9th.

"CAN THE ROOSTER"
At this time of year, the expression "can the rooster" might be interpreted either as slang or good English. There is very little profit in late hatched chicks, so the roosters in the flock have served their purpose this year.
Shutting up the roosters in a clean, comfortable coop and giving them plenty of good feed and water for a week or ten days will tend to soften up their flesh and possibly add a little fat. Then convert into canned chicken and they afford an emergency supply of good meat for home use. Extension Circular 945, Poultry Canning, gives explicit directions and steps for processing poultry.
Texas officers are noted for tracking down criminals, but they can't get them as fast as Texas governors can pardon them.

District 4-H Judging Day.
June 11th is the date of the first judging day for this district. Cass county club members will attend judging practice at the College of Agriculture. There will be work in animal husbandry, dairy, crops, poultry, baked goods, canned foods, clothing and girls room.
Judging practice at local club meetings prior to district judging day will help members to become more familiar with terms, which in turn will enable them to more readily grasp the instruction as it is given in Lincoln.
Local leaders and club members interested in judging should take advantage of this practice day in Lincoln.

Plant Small Grain Failures to Atlas Sorgo
Small grain failures can be replaced to Atlas Sorgo, a crop that is highly resistant to dry weather and chinch bugs, makes twice the tonnage of fodder per acre as corn and can be planted with a lister at the rate of 12 to 15 pounds per acre until June 10th to 15th. It is a cross between Blackhall Kafir and Sourless cane.
Regular corn planter plates are not satisfactory for planting Atlas seed. Blank plates drilled with a number of three-eighth inch holes are generally used by farmers. The holes should be framed out on the lower side to prevent clogging.
Well matured silage is about as satisfactory cattle feed as corn silage. Shepherds regard it as better silage than corn. Horse men say Atlas is good winter feed when fed as dry fodder. Atlas does not make safe pasture since it sometimes contains the same poison as cane.

Over 600 4-H'ers.
Enrollment of boys and girls in 4-H club work for the summer has passed the 600 mark, with five more days left for organizing clubs.
A total of 639 members have been enrolled in eighteen different projects. Following is a list of the projects which are being carried and the number of boys and girls enrolled for each:
Cooking, 113; Girls Room, 39; Canning, 15; Clothing, 12; Keep Well, 29; Hot Lunch, 19; Garden, 40; Farm Account, 59; Sheep, 13; Potatoes, 11; Horse and Mule, 12; Agricultural Engineering, 22; Rope, 11; Baby Beef, 36; Swine, 49; Poultry, 12; Dairy, 31; Corn, 10.
