CERTIFICATE OF COUNTY CLERK

State of Nebraska, Cass County, ss:

I, Geo. R. Sayles, County Clerk of Cass county, Nebraska, do hereby certify that the sample Non-Political ballot published above is a true and correct copy of the official ballot to be used at the Primary Election to be held in Cass county, Nebraska, on Tuesday, August 14th, 1934.

Witness my hand and official Seal at Plattsmouth, Cass county, Nebraska, this 6th day of August, 1934.

GEO. R. SAYLES,

(Seal) County Clerk, Cass County, Nebr.

Nehawka

Vote for J. V. BRANDT for re-publican Register of Deeds.—Poi. Ad. Herman C. Ross from north of Union, was a business visitor in Nehawka on last Monday morning.

There is a great demand for corn and forage such as hay of all kinds and all farmers are doing well when they care for all they have in this line.

Mr. and Mrs. Earl Troop and Miss Lois Troop were over to Omaha on Monday of this week where they were looking after some shopping for a time.

A. J. Ross has suffered the loss of a number of cattle which it was thought was the result of being poisoned from eating green feeds which were improperly cured.

Mr. and Mrs. Orville Philpot were over to Omaha on last Saturday, they driving and where they were both visiting with friends and looking after some business matters as well.

The Murray singers, who are sure a good crowd of young people who know how to sing, were down to the Otterbein church last Sunday and assisted in the revival services by their singing.

Will J. Patterson who has just returned from Diller where he was visiting for a time at the home of Ephram Aaks, reported that while the crops look very bad here they are not nearly so bad as there.

Paul Schewe of Murdock and democratic candidate for nomination for state representative was a visitor in Nehawka on last Saturday and was looking after some business matters as well as for his candidacy for nomination.

Miss Martha Keatch who has been making her home in the west is at this time here and visiting with her mother, Mrs. Lewella Keatch and sister, Miss Mary Keatch. Miss Luella Keatch is engaged in teaching in the west.

Don Philpot was a visitor in Omaha on last Monday where he had some business matters to look after, but found little time to make his trip as he was kept very steadily at work on his truck delivering goods for the Nehawka Farmers Oil company.

John Hanson and family were in Omaha last Sunday where they went to visit John's mother, Mrs. George E. Hanson at the hospital. She is reported while still being very poorly to be slightly improved. Mr. and Mrs. Geo. E. Hanson, daughter who resides in California, Edith is here to see the mother and assisting in her care.

Charles Countryman of Custer county, where he is engaged in extensive cattle raising and feeding, was a visitor in Nehawka for a short time a few days ago and after having disposed of a shipment of cattle to the South Omaha market ran down for a visit with his many friends here. He says crops are much better there than here.

Little Jack O. Yeiser of Omaha, who has been making his home with the grandparents during the school vacation has been rather sick for the past few days and under the care of Dr. Walters has been showing some good improvement. The affection has been of the ears, eyes and throat and of a very serious nature, but it is thought that Dr. Walters has it well in hand.

Sunday a man came to the Nehawka elevator, altho he called up over the phone and purchased two truck loads of corn for the elevator, and drove over on Monday. When it was weighed and the man was ready to pay for same Mr. Rough, manager of the elevator offered him a cent more a bushel than he had paid but the farmer would not take it. The price of corn went to 69 cents on last Monday as against eleven cents during the winter of '33 and '34. With the continuance of the present weather there is prospects for the grain selling as high as a dollar a bushel.

Let Water Contract. On last Saturday evening the Ne-

hawka city council awarded the contract for the construction of a water system, there being some four general bidders for the contract and which was awarded to Charles Reebuck and company, of Omaha the bid being the lowest, \$19,320.00. Work will start as soon as there shall be an O. K. from the government, as they are providing a portion of the funds with which the enterprise is to be carried out.

This will provide work for a number of people. At the time of the voting of the proposition it was understood that as much of the work as possible would be done by laborers and not by machines, and it is counted that this proposition entering into the election had some influence in its being carried. Whether this provision will be carried out is being speculated upon by the workers who are at this time unemployed.

Nehawka Faculty Complete. With the engagement of Victor Redigen as the agricultural instructor for the Nehawka schools, the faculty for the present year is complete, as follows: E. C. Stimbert, superintendent; Ruth M. Jones, principal; Miss Clarice Hards, home economics; Victor Redigen, agriculture; Dorothy Jensen, music and English; Miss Ruth Hall, grades 6, 7, 8; Miss Venyl Stones, grades 3, 4, 5; Miss Vivian Hooper, grades 1 and 2.

Has Big Job Now. Arno Wessel, who has been with the Northwestern Bell Telephone company for a number of years and has been located at Des Moines, was called to Omaha last week for some special work. He was a visitor at the home of his parents, Mr. and Mrs. Henry Wessel and was accompanied by the family, thus allowing all to enjoy a very nice visit. Mr. Wessel departed for their home at Des Moines on last Sunday evening. Arno is in charge of a report to be made embracing business for the past ten or twelve years which is demanded by the government for their codes and which will require at least two years for the company to compile and then more than that for the government to assimilate.

Sunday Warmest Day. Last Sunday seemed to be very oppressive and for many people it was, for some of the thermometers showed a temperature of 117 degrees above zero and all know warm enough for anyone. It is claimed also Union had the same temperature and with Nebraska City in the neighborhood.

Visits Son at Hospital. Verner Lundberg who has been in the Veterans' hospital at Lincoln, is getting along nicely at this time, although he was not operated upon until early this week. On last Sunday, Mr. Olaf Lundberg and wife were over to see the son and found him very cheerful. The trouble which has afflicted Mr. Lundberg is in the nose, eyes and ear, and it is expected that following the operation he will get along very nicely.

Home from Chicago. Mrs. Lois Troop of Plattsmouth with her eighty-six years, still is active, who has been at the world's fair at Chicago, returned home last week. Mrs. Troop is aunt of Mr. and Mrs. W. O. Troop. Aunt Lois enjoyed the fair very much and walked the entire length of the fair grounds, seeing all there was to see and reports it a wonderful exhibition. While there she was guest of her great niece, Mrs. Richard McIntire, formerly Miss Dorothy Joy.

Services at Methodist Church. Bible school every Sunday morning at 10 o'clock. Preaching every Sunday morning at 11. A cordial invitation extended to all. E. S. PANGBORN, Pastor.

EIGHT MILE GROVE LUTHERAN CHURCH
9:30 a. m. Sunday school.
10:30 a. m. English services. The annual congregational meeting will be held in connection with the services. Members please make effort to attend.

ANNOUNCEMENT
I hereby announce my candidacy for sheriff of Cass county, subject to nomination at the primaries, Aug. 14th on the Republican ticket. I served a two year term, a portion of the unfulfilled term of the late Bert Reed. I am referring all to my record as an officer, and am thanking all for the support and co-operation they can give at the primary, August 14, 1934.
EDW. W. THIMGAN,

STANDARD OIL WILL NOT BE UNDERSOLD on VALUE!

One thing you can be certain about when you drive up to a Standard Service Station or Standard Dealer: You are getting the best gasoline or motor oil that money can buy! Just compare Standard's prices with others in town.

Do you buy "regular"? Then you can get Standard Red Crown Superfuel for the same price. There's no extra charge for the tetraethyl lead in it—or for that extra Live Power per gallon.

And so with all of Standard's gasolines and motor oils. Standard Red Crown Superfuel, Red Crown Ethyl, Reliance Gasoline, Iso-Vis "D", Polarine, Reliance Motor Oil—in every one you get the finest value possible.

STANDARD OIL WILL NOT BE UNDERSOLD ON VALUE!

Ask Federal Aid on Water Conservation

J. E. Lawrence and Dan Stephens
Send Telegrams to President
Roosevelt.

Believing President Roosevelt may make available special funds for drouth swept states, two members of Nebraska's federal PWA advisory board urged prompt development of all water conservation projects in the Cornhusker state.

In telegrams to President Roosevelt they pointed to the need for water conservation to "prevent a repetition of the tragic experience of this summer," and urged that work be started soon on the projects to provide employment for farmers whose crops withered under the scorching sun.

Dan V. Stephens of Fremont, chairman of the advisory board, in his telegram said \$60,000,000 will be needed to complete the projects and make drouths of this character of secondary importance in Nebraska. Both he and James E. Lawrence, Lincoln, member of the PWA advisory board sent telegrams to Roosevelt.

Stephens' telegram said in part: "In your passage across the country to Washington you will see the effect of this the greatest of all drouths. You will see how essential above everything else is the conservation of water that now runs off at flood season. Building battleships, roads, postoffices and other public structures while needful are dwarfed into insignificance in comparison to the need of water as the eddy whirls of drifting soil and sand pass over burned out fields of grain over areas of hundreds of thousands of miles in extent. It is a national

calamity of the first magnitude." Lawrence's telegram follows: "Press dispatches indicate the Nebraska drouth situation is being placed before you. It is the most serious in state's history. If special relief funds are to be made available, as member of Nebraska PWA board, I join my colleague, Dan V. Stephens of Fremont, in urging allotments be made for remaining water storage projects as yet unapproved by PWA at Washington. This program includes the North Loup, Middle Loup, Tri-County, Benkelman-Haigler-Arickaree, Blue Creek and Frenchman applications. Not only will they provide a great deal of work for farmers, but they will prevent the repetition of the tragic experiences of this summer."

CAR-TRUCK SMASHUP

From Wednesday's Daily
Last night a smashup of a car and truck occurred on the "O" street road between Union and Weeping Water and which did a great deal of damage to the car of Charles B. Damm, of Fairfield, Iowa. The Damm family were returning home from Denver where they had attended the funeral of a relative. When the car was coming east on O street it was struck by a truck of the Shogo Lithia Co., of Lincoln. The Damm car was able to be driven on here and after some repairs was driven on to Fairfield by the owner. None of the occupants of the car or truck were injured.

RAILROAD MEN IN PARLEY

Chicago.—Officials of thirty railroads convened behind closed doors in a parley of the American Railway association aimed to find solution for absorption of increased operating and other expenses, estimated by one railroad official at 300 millions annually. That increases would be recommended for freight rates on certain classes of merchandise which railroads were in no danger of losing to highway and water competitors were expected. The conferees planned to have their proposed solution ready for the interstate commerce commission within a few days.

LABOR AGREEMENT REACHED

Cincinnati.—Agreement between officials of the Railway Express agency and the Brotherhood of Railway Clerks for disposition of all grievances of express company employees was reached here. Details of the agreement, immediately effective and involving approximately 35,000 express company workers, were not revealed, but Lewis R. Gwynn, of New York, vice president of the agency said: "In my opinion this agreement constitutes a step in the direction of industrial peace."

FAMILY PLACED ON TRIAL

Wilkesboro, N. C.—Before a court packed with their mountain neighbors, a farm family of five went on trial for their lives in Wilkes county superior court, charged with murder of a 20 year old girl, Leoda Childress. Three separate indictments were returned against the five, one charging murder and conspiracy to murder, and the others accessory before the fact and accessory after the fact.

The five defendants are: Warwick W. Tilley, 60 year old patriarch of the family; his wife, 58; their sons, Luther, 32, and Clyde, 18, and Luther's 30 year old wife Minerva. The state charges them with killing the young girl to keep her from revealing an earlier murder.

After a long investigation on his own part, Solicitor Jones announced

he had evidence connecting Luther Tilley and Winfield Stanley, a companion, with the death of Andrew Eldridge seven years before, and connected the two crimes.

McNARY IS NOT A CANDIDATE

Salem, Ore.—To personal friends who have talked to him at his country home near Salem, Senator McNary has indicated definitely he is not a candidate for the republican nomination for the presidency in 1936. For many months the name of McNary, leader of the minority party in the senate, has been mentioned frequently, both in the east and west, in comment on a standard bearer for the republicans two years hence. He is, so he has told his friends, perfectly content to go on representing Oregon in congress as effectively as possible as the leader of the minority party in the senate.
