## County Levy for Coming Year Made Monday

Board of Equalization Sets County Levy at Four Mills—Total State and County 6.10.

The county board of equalization met Monday afternoon at the court house and made the levy for the various funds for the ensuing year, covering the expenses of operating the county.

The levy made was as follows:

Fund	Mills
General	1.70
Poor Relief	.43
Bridge	.69
Mother's Pension	.15
Soldier's Relief	.03
<b>TOTAL</b>	<b>4.00</b>

The state levy for the year was certified to the board as 2.10 mills, a reduction over the last year and which makes the total of state and county levies as 6.10 mills.

## Packers Develop Facilities to Care for Drouth Cattle

Increase in Output to Aid Preparation of Winter Supply by Packing Industry.

Additional facilities being developed will make it possible for meat packers to process 50,000 head of drouth cattle and calves, and 17,000 head of sheep daily by the middle of September or shortly thereafter, the meat packing industry assured the government today at a conference at headquarters of the Agricultural Adjustment Administration.

The packers at present are processing approximately 40,000 head of drouth cattle and calves a day.

The Bureau of Animal Industry has placed between 400 and 500 additional meat inspectors in packing plants throughout the country during the last three weeks to handle the government slaughter of drouth cattle for relief purposes, which has passed the million mark. It will place additional inspectors where they are needed as rapidly as the packers are ready to extend or begin new operations.

The estimate of the processing volume which the packers expect to attain in September is based on an estimated total of 6,000,000 head of cattle and calves and 2,000,000 head of sheep to be slaughtered between this time and the end of the calendar year.

Several of the packing companies are putting plants that have been idle for a time into operation, and some are putting on additional shifts to handle the government cattle. In other instances plants originally designed to handle other livestock, or to process other foods, are being converted for slaughtering and processing beef and mutton.

### CHILD SUFFERS INJURY

From Tuesday's Daily  
Last evening at the Athletic park the small son of Mr. and Mrs. Carl Kreager of near Mynard, suffered injury when struck by a car. The child was playing along the embankment and suddenly ran out into the roadway directly in front of the car of Carl Hall. Mr. Hall was going at a very slow rate of speed and the car did not injure the lad beyond a slight gash on the forehead that he sustained when he fell. The injured boy was taken by Mr. Hall to the office of Dr. Anderson where the injury was dressed and he returned to his home feeling little effect of the injury. That he was not more seriously injured is due to the careful driving of Mr. Hall, keeping the speed of his car down.

The place where the accident occurred is dangerous as the roadway is very narrow, with cars parked along it and children have the habit of dashing out from behind parked cars and directly in the path of moving cars in the roadway.

### KILLED BY SHOTGUN BLAST

Chicago.—Killed with a shotgun blast thru the back of the head, the body of a well-dressed man about 30 years old was found in a west side alley. Police turned to Detroit, Mich., in their effort to identify the body, because the only clue to be found was a Detroit telephone number, written on a piece of paper in one of the victim's pockets. Detectives said the number had been reported

to them as listed in the name of Mrs. Lou Perry. Police wired Detroit authorities to locate the woman and the dead man's fingerprints were sent to Detroit. The body was found about dawn by a neighbor who had heard an automobile speed away from the alley a few minutes previously. Police found sixty-five cents in the pockets.
