The Minute You Change To **ISO-VIS "D"**

If you've drained your crankcase yourself—or watched the process—you've noted the tar-like disagreeable mass which comes out. That's Sludge.

Sludge causes piston rings to stick and your engine starts pumping oil. That is senseless, needless waste of money.

The remedy is simple. Iso-Vis "D", Standard's anti-sludge motor oil, won't sludge under the hardest driving you'll do this summer!
