Senator Norris in Nebraska for the Campaign

Will Deliver Speeches Urging the Adoption of the One House Legislature in State.

Senator George W. Norris, veteran Nebraska senator, is in the state to take up the cause of one of his measures, that of a small one-house legislature instead of the present dual house form.

Always commanding a large vote despite bitter opposition of leaders in his party, the veteran Republican Independent senator will plug for his amendment against opposition of numerous politicians who oppose especially his plan's nonpartisan feature.

If Norris is successful, Nebraska in 1936 will elect from 30 to 50 legislators on a nonpartisan ballot. The exact number would be determined by the next legislature.

Long a Dream.

For years Norris has dreamed of improvements in the governmental system of his home state. Discouraged at his failure to achieve governmental reforms in the United States senate, several times he considered dropping out and running for governor to try to build what he considered a model state government. His friends kept him in the senate and in recent years he has seen three of his cherished campaigns win out with the enactment of the constitutional amendment abolishing the "lame duck" session of congress, the passage of the bill intended to end use of the injunction against labor organizations and the beginning of public development of the great Muscle Shoals power project.

After these achievements, he returned to his dream of a small, compact state legislature, responsible directly to the people, and without political party domination. Last winter he spent \$2,400 of his money as the basis of a campaign to get the proposed amendment on the November general election ballot in Nebraska.

Drive Goes Over.

Once when the campaign seemed to be dragging, he offered to leave his duties in the senate to come and help, but it wasn't necessary. The drive went over with nearly half again as many petition signers as were needed. Previously, Norris came here and delivered a public address to open the campaign for petition signers. He passed the final judgment on wording of the amendment, after consultation with many Nebraskans.

RELIEF EXPENSE GROWING

Washington.—Relief Administrator Hopkins estimated that relief loans to destitute farmers would reach 50 million dollars during the present fiscal year. He said rural rehabilitation corporations in twenty-five or thirty states were making the loans at low interest to help farmers purchase needed stock, repair their homes, buy land and the like. Rural rehabilitation leaders warned they have no intention of buying a farm for everyone who wants one. Since the plan of helping needy farmers to land ownership began last April, the relief officials have been showered with appeals for farm purchases. Pope explained farms were bought only for those who couldn't be helped otherwise.

CATTLE BUYING DECREASES

Washington.—The farm administrator's cattle buying program is being brought gradually to a close. Rains throughout the midwestern droth area have so improved grazing land that AAA officials decided it would not be necessary to purchase as many cattle as originally planned. At one time it was thought 10 million head would have to be taken out of the parched area, killed and processed for relief needs or shipped to green pastures in the south. Now, officials believe 7,500,000 will be the maximum.
