CONFINED TO HOME

E. H. Wescott, who has not been in the best of health for some weeks, Monday afternoon was forced to leave his work at the clothing store and return to his home where he has

since been confined to his bed. Mr. Wescott has suffered from an attack of the flu that has made his condition very annoying and kept him on the retired list to some extent.

Depleted U. S. Army Ranks to be Restored

President Roosevelt Signs 401 Million Dollar Appropriation; Force to Reach Full Strength.

Washington, April 9.—President Roosevelt, as his first official act upon returning Tuesday, signed the new 401 million dollar army appropriations bill restoring depleted military ranks to full peace-time strength.

In a statement he took pains to explain, however, the increase in enlisted strength from 118,750 to 165,000 men involves no increase in units.

His statement pointed out economy enthusiasms during the last 10 years have whittled the enlisted personnel of army troops or batteries from 120 to 70 men. The new increase merely returns this strength to its normal level of 120 men. The president said:

Calls for Increase.

"The bill authorizes increase of average enlisted strength from 118,750 to 165,000 enlisted men. In a very real sense this increase does not represent an extension of the army involving new units.

"It is more correct to say the increase is in effect a restoration to company, troop, battery and other units of privates who previously were arbitrarily transferred and the units thus decreased in order to organize various new corps and units such as the air corps.

"There are two strengths of the fundamental units in the army—peace strength and war strength. War strength, fixed by practical requirements of combat, averages 250 enlisted men per company, troop or battery.

120 Enlisted Men.

"Peace strength, fixed by necessity for efficient training and for reasonable readiness, should average 120 enlisted men.

"In recent years, however, this peace strength average has been whittled away until it now barely averages 70 enlisted men.

This law restores to these basic units their peace time strength. "In the great majority of army posts barracks originally were constructed for peace time strength, so that quarters are already available."

Pastor's Difficulties are to be Investigated

Southeast Presbytery of Church Appoints Committee to Report in Two Weeks.

Wymore, Neb.—The southeast presbytery of the Nebraska Presbyterian church, meeting here, Tuesday appointed a committee of seven to investigate the difficulties involving Rev. Theo Shepard, pastor of the Presbyterian church at Humboldt. The committee will report to the presbytery at its meeting in Hickman in about two weeks.

Rev. Mr. Shepard was accused by a Humboldt woman of lurking near her home. He denied the charge and was given a month's leave of absence by the board of elders of his church. The board Tuesday petitioned the presbytery to conduct the investigation. Committeemen are Dr. Robert C. Shupe of Fairbury, Dr. Paul Calhoun of Lincoln, Dr. H. G. McCluskey of Plattsmouth, Dr. Ross McGowan of Beatrice, Lawrence Bolt of Lincoln, C. E. Sandall of York and Paul Gillmore of Auburn.

The presbytery elected representatives to the Presbyterian general assembly at Cincinnati May 23. They are Rev. George E. Chapman of Hebron, Rev. John E. Sillinger of Steele City, Walter Barmore of Adams, and James Welch of Nebraska City.

Sheldon Price was ordained a minister by the presbytery Tuesday night. Twenty-five ministers and twenty-three elders attended the meetings.
