"The Rock" to Be Presented. As the closing play of its season, the Religious Drama club of the Congregational church at Weeping Water has selected Mary P. Hamlin's three-act drama, "The Rock."

Because of the importance of the production and in order to give as many people of the county as possible the opportunity of seeing it, the play will be given on two successive nights, April 28 and 29 at 8 o'clock. As usual with the offerings of this club, the play will be presented in the church auditorium in an atmosphere of worship, and no admission will be charged.

There will, however, be a silver offering received each evening in order to cover the expense of the play's elaborate out-of-door oriental settings and costumes.

"The Rock" has been given hundreds of successful performances in the churches of this country. It will be offered at Weeping Water in a modernized and heightened version which promises to bring the strongest dramatic values of the play into relief and to emphasize its already proven religious worth.

Taking a long leap back through the centuries, "The Rock" brings into sharp focus the character development and personality of that most colorful of the early disciples of Jesus, Simon Peter. It makes real and compelling the story of his call and of his hard-won victory over his intensely human weaknesses.

Though the person of Jesus is not represented upon the stage, the influence of his ministry, of his sufferings, and his triumph pervade the entire action, making of the production virtually a passion play of deep spiritual power.

800 Millions to be Allotted to Housing

Rural Rehabilitation Also Is Slated to Come Out of the Five Billion Relief Fund.

Washington.—Plans for the use of upward of 800 millions in low cost housing and for putting persons in rural areas on a self sustaining basis were disclosed to have been worked out by public works and relief administration officials. To what extent these projects are carried out, however, depends upon the allocation that President Roosevelt makes of the 5 billion work fund.

The contemplated division of the fund would be about 400 millions for low cost housing under public works and between 400 and 500 millions for helping persons on farms back on their feet.

The PWA was revealed to have applications from seventy-seven cities for low cost housing projects. On half of these preliminary ground work has been done and officials believed within a month the projects could be put in shape for sending the money forward.

They estimated some 200 millions might be used in these. Two or three months would be needed to put projects in shape for final approval. All however, could be put under way by November when the president has said he expected the work fund to reach its peak of activity, officials estimated.

Figures available on the number of farm families on relief listed 1,029,000 families receiving help from the government. Of these \$43,200 were classed as capable of being helped back to their own economic feet. There were 185,800 families classed as not likely ever to be self-sustaining.

The relief administration figures it costs from \$300 to \$700 to rehabilitate one of three families, depending upon location and the type of help best adapted to the family. At an average of \$500 a family, it was estimated \$421,600,000 might be used in this manner.

One reason why officials expect plans to be approved by the president is that to a large degree these projects are regarded as capable of returning the money to the treasury. On the housing projects, in which 135 millions is now being spent in thirty-nine slum clearance developments, officials expect a large share of the money to come back in the form of rents, paying for themselves within forty-five years.
