Motorists who know these facts will save money:

Motor oils refined by the usual methods have some oiliness and film strength, but they may form carbon and sludge, which lead to expensive motor repairs.

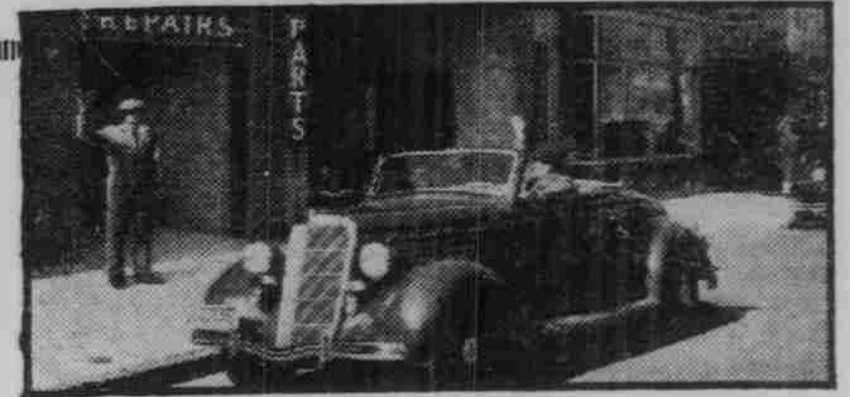

Other oils may form almost no carbon and sludge, but are so over-refined that they are robbed of oiliness and film strength they need to prevent motor wear.

Germ Processed Oil is refined to eliminate carbon and sludge troubles and then the Germ Process adds extra oiliness and 2 to 4 times more film strength than any mineral oil.*

YOU will save money on repairs and have a smoother running motor if you use Conoco Germ Processed Motor Oil!

The Germ Process—adding concentrated oily essence to highly refined oil—gives it the extra oiliness and film strength so necessary for full protection of high-powered, high-speed motors. No other oil is made by the Germ Process.

Germ Processed Oil cuts down costly starting

wear, which other oils fail to do: It is the only oil with the "Hidden Quart" that stays up in your motor and never drains away.

Germ Processed Oil is free from carbon and sludge troubles. It has a lower rate of consumption and gives longer mileage, as proved by the famous Indianapolis Destruction Test.

Say, "O. K.—Drain"—and fill with Conoco Germ Processed Motor Oil.

They took a planned trip and enjoyed it.

"The Conoco Travel Bureau at Denver sent a complete free plan for our trip—marked road maps of every state and

... travel booklets and hotel and camp directories. They also sent excellent information on where to fish."

"We stopped at Conoco stations along our way for many helpful, free services. You can apply at any Conoco station for such a plan for your motor trip."

thirteen children were born, two of whom preceded the mother in death. Mrs. Eaton had been making her home in Denver for a number of years, at which place she passed away on last Thursday. The remains were brought to Union and the funeral was held at the Baptist church here, conducted by the Rev. W. A. Taylor. Burial was in the Scioto cemetery. Early in life, Mrs. Eaton united with the Baptist church and ever remained faithful in the service of her Lord and Master who has now taken her to that home which knows no death.

She was buried at the Scioto cemetery overlooking the Missouri river. It was here where she had lived the greater part of her life and where in the distance the gleaming waters of the Missouri river resembled a silver thread not unlike the thread of life that binds us to eternity, she was laid to rest amidst the familiar scenes of her childhood, there to rest until the angel of the resurrection shall summon her to that bright home above.
