PRAISE MYNARD PLAY

The Elmwood Leader-Echo of this week has the following comment to make of the recent visit there of the Mynard community players:

"On Thursday evening of last week the people of this community were given a real treat. That evening the play entitled 'Mirage,' which was written by Raymond Cook of Plattsmouth and also directed by him and put on by the Mynard players was given at the Community building to a capacity house. People were not disappointed for it was one of the very best plays that has ever been given in this community. As the play proceeded, the audience became more and more enthusiastic and applause was frequent, however, they were awaiting the appearance of the author, Raymond Cook. Mr. Cook was introduced by B. I. Clements and he was given a hearty reception, after which he favored the audience with two vocal selections. Mr. Cook and the players as well as the orchestra are to be congratulated on the excellent way in which they put on this production. We can truthfully say that any town and community can have this play put on by these players and feel glad that they had the opportunity to see and hear them."

PRESENT FINE PROGRAM

From Saturday's Daily:
 The auditorium of the public library last evening was the scene of a most charming recital of the pupils of Miss Peggy Johnson, of Omaha, teacher of the art of dancing and grace.

The class of little pupils made a very sweet and colorful picture as they gave their solo numbers and their splendid work showed the care and training that has been given them by their teacher, Miss Johnson. The stage was prettily arranged and special lighting effects added to the beauty of the scene.

The class has been under training for the winter season by Miss Johnson and who can feel well gratified in the showing of the young people.

Three of the Omaha students, Maxine Nystrom, Elmer Backstrom and Carolyn Bucacek, were here with the teacher and gave numbers on the program while the local young people offered in the dances were Marlyn Kieck, Dorothea Mae Duxbury, Margaret and Willis Sylvester, William Potter, Mary Lou Walling, Ruth Woest, Margaret Devoc, Helen Barkus, Carol Lou Bernhardt.

A large number of the parents and relatives were present to enjoy the event and the excellent work of the little artists.

21 Million is Allotted for the Missouri River

Oklahoma City.—A statement that there was "no basis of fact" in accusations that Wilson and Company had broken an agreement which ended a packers' strike a year ago was made by W. W. Martin, Oklahoma City manager for the company.

Gomer Smith, attorney for the Amalgamated Meat Cutters and Butcher Workmen of North America had demanded an "immediate answer" to a letter which set forth that the company was seeking to form a strike among the workers and that refusal by the company to take a definite stand on the matter would leave to organized labor "only the open road of opposition and conflict."

The allotment included a 21 million dollar grant work on the Missouri river between Sioux City and Kansas City. Work on this project, which will employ 8,000 men, will begin within a month, according to Capt. J. M. Young, War department division engineer at Omaha, who will have charge of most of the expenditure.

The money is part of the president's 4,880 million dollar work relief fund.

Grant Sufficient.
 Captain Young said work on the river will consist in continuing re-vegetation and dike work already begun. The grant, he said, will be sufficient to complete a six-foot channel to Omaha and make a good start toward pushing it to Sioux City.

Advertising for bids will begin in two or three days, unless new regulations of the labor department prohibit such immediate action, Captain Young said.

"The fact that our plans were all ready and the money was all that was needed to start the work must have been responsible for the large grant," Rufus E. Lee, chamber of commerce waterways committee chairman, of Omaha, said.

Completed by 1937.
 Lee predicted the channel would be completed to Omaha by 1937, but Captain Young said an accurate estimate would not be made because advancement of the work depends on the elements.

Besides money for river work, Nebraska will receive \$7,427,130 for highway projects. Of this amount, \$3,870,739 will be for work on highways, roads and streets, and the balance, \$3,556,441, for elimination of highway railroad crossings.

Iowa will receive a highway grant of \$10,692,243, of which \$4,991,664 is for highway work, and \$5,690,679 for elimination of highway-railroad crossings.
