Be Sure They Properly Cleanse the Blood
YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained.

Missouri River Shows Raise at This Point

June Raise of the River Brings the Stream Up Some Two Feet—Lowlands Overflowed.

The Missouri river which two weeks ago showed a decided rise, this morning was again up to the high water stage and overflowed into the lowlands southeast of this city, covering part of the low lands on the Geise farm and also filling the old first channel east of the Burlington station.

This is the annual late June rise of the river and the waters pouring from the mountains at the headwaters of the stream in Montana and Wyoming are finding their way down the stream to the outlet into the Mississippi.

It is reported that the river is showing a higher rise to the north and more of the high water may be looked for in this section of the river in a short time. The heavy rains that have swollen the smaller streams that empty into the Fissouri are also adding their part to the high water.

HERE FROM THE SOUTH

Mr. and Mrs. Herbert Rokahr, of Phoenix, Arizona, are visiting in the city as guests at the home of Mr. and Mrs. John Hiber, parents of Mrs. Rokahr, as well as Lincoln with the relatives of Mr. Rokahr. LEWISTON SOCIAL CIRCLE

The Lewiston Social Circle club had a very pleasant meeting with Mrs. Arthur Reed, Mrs. Arthur Hanson, and Miss Margaret Moore as the hostesses, at the home of Mrs. Hansen and Mrs. Moore.

The occasion was guest day of the club and there were present some forty of the guests and members to take part in the fine program that had been arranged for the event as well as the social hour that followed.

Mrs. J. Howard Snodgrass was heard in a very charming piano number to open the program of the afternoon.

A quartette composed of Mrs. J. Howard Snodgrass, Mrs. Lee Faris, Mrs. Herman Comer and Mrs. Harry Gobelman, gave a very beautiful selection, "Call Me Back Pal of Mine."

The welcome to the guests of the club was given by Mrs. Ben Albin in a very charming manner as she extended the hospitality of the group to their friends.

"Our Club," written by Mrs. Tony Klimm, was read by Mrs. Louis Burbee, Mrs. Klimm being unable to be in attendance and all enjoyed very much this sketch of the club and its members.

Two duet numbers were given by Mary Catherine and Martina Mae Sporer that was much enjoyed by the members of the club.

Mrs. Vance Harris gave as her portion of the program a fine reading, "Pa's Lament," a cleverly presented humorous selection.

The afternoon closed with visiting and the serving of refreshments by the hostesses.

The next meeting of the club will be at the home of Mrs. Vance Harris on July 9th.

Farmers are optimistic following the spring rains and foresee prospects of a bumper crop.

From Friday's Daily Early this morning Richard Collins, 55, apparently a member of the Omaha Transient camp, was found along the right-of-way of the Burlington north of the local station, where the injured man had apparently been struck by a passing train and knocked down.

Mr. and Mrs. James Warga and daughter, Marylyn, were at Council Bluffs, Friday for a visit with John Warga, Sr., who is at the hospital there. Mr. Warga, who is now in his eighty-fifth year, has failed quite rapidly in the past several weeks and his condition seems to be gradually growing worse as his advanced age does not permit his rally as hoped for. Mr. Warga has made his home in this community for a long period of years, being an employe of the Burlington for a number of years and later purchasing and operating the large farm six miles southeast of this city which is now operated by his sons.

"KINGFISHER" IS KILLED

The Kingfisher bird that has raised much trouble with the local fish ponds and slayed untold numbers of the ornamental gold and silver fishes, is no more. The undoing of the sought kingfisher came at the hands, or rather paws, of the favorite cat of the John J. Cloldt household. The cat was out looking for some of the birds to feast upon and luckily picked on the kingfisher and terminated his career in quick time. While the cat has caught many other birds its one good deed can earn a forgiveness for the past. The Cloldt fishpond has suffered the loss in the last few weeks of some twenty of the fish.
