Mr. Schneider spent several days at Calgary, the capitol of the province of Alberta, being there at the time of the provincial election for members of parliament, witnessing one of the most heated campaigns in years with the social security program as an issue. The result of the election was a great triumph for the advocates of the measure that would provide old age and unemployment insurance, they electing 53 of the 63 members of parliament.

Mr. Schneider visited a short time at Portland with old friends and also at Seaside, one of the ocean resorts which has had a very large business from tourist trade the past year.

The heavy travel by train as well as auto tourists has set a record this year in that section of the northwest and points to the evident increase of the spending power of the people.

Mr. Schneider in returning came through the southwest section of Nebraska and reports that crops there are not so good and with the terrible toll of the Republican valley floods has made the outlook there very poor.
