FEEL FINE

Mothers read this:

A CONSTIPATED child is so easily straightened out, it's a pity more mothers don't know the remedy.
A liquid laxative is the answer, mothers. The answer to all your worries over constipation. A liquid can be measured. The dose can be exactly suited to any age or need. Just reduce the dose each time, until the bowels are moving of their own accord and need no help.
This treatment will succeed with any child and with any adult. Doctors use liquid laxatives. Hospitals use the liquid form. If it is best for their use, it is best for home use. And today, there are fully a million families that will have no other kind in the house.
The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It is a doctor's prescription, now so widely known that you can get it all ready for use at any drugstore.

New Pension Bill Cuts Down the Number

State Commissioner Says That It Means Five to Ten Thousand Will Be Dropped.

E. F. Perry, state old age pension commissioner, said Friday that the more rigid qualifications of the Cochran bills now before the special session will cut out from 5,000 to 10,000 who would have been able to qualify under the law that these bills are intended to replace. The present law would enable between 25,000 and 30,000 persons to qualify, but the new proposals will reduce the number eligible to 20,000 or less.

Under the O'Brien pension law, passed at the last regular session, any needy persons over 65 years of age was eligible to receive a pension amounting to \$30 a month. Governor Cochran's measures establish a list of rules, limiting greatly eligibility of the applicant. One of the most important and one which will cut several thousand from the list, is a rule eliminating persons who have children able to support them, Perry said.

The amount of money to be expended on old age pensions will be sliced almost in half by the variable feature of the governor's bills. The O'Brien act provided for pensions of \$30, which would have cost the state some \$4,000,000 or more a year.

Figures gathered by the attorney general's office in drafting the new measure, call for only \$2,500,000 to be raised by the state for old age pensions. Funds for other phases of the social security program, such as blind pensions, relief for crippled and dependent children, and maternal aid, will raise the total to more than \$4 million dollars.

A more flexible program, calling for pensions ranging from \$5 to \$30 depending on needs of the applicants, will allow the pension committee to stay within the funds available, Perry said. Each applicant will be subjected to detailed examination and investigation to determine the exact amount due him.

Perry said he was satisfied with the governor's bills. He said the governor and his aides had spent considerable time and study on preparing the measures and that he believed they were the best available.
