selling lower during the winter when the heavy deliveries come.

Look for Good Fruit. Speaking of the heavy fog which rested like a mantle over the country, so dense that it was very dan-

gerous to drive, Frank Bauer said there would be a good crop of fruit this year, as the old sign always held good that a foggy Christmas week always insured a good fruit crop the following summer. Well, we are pleased that there is something good to come from the heavy fogs which have been visiting us.

Isn't It About Right? A traveling man representing a firm who sells goods all over the country, when the matter of auto accidents was under discussion said, it is verily a fact that when driving on the highway one had to drive four cars instead of the one he occupies. He has to watch the car immediately in front of his and the car which comes directly towards him, those which might come in from the side roads and also the car coming behind him and says our commercial traveler, it keeps one busy at that.

New Week End Toll Rates are Announced

State Railway Commission Grants Permission to Lincoln Telephone Co. for New Discounts.

The Nebraska state railway commission recently granted the application of the Lincoln Telephone and Telegraph company for permission to extend the night rate discount to include "person-to-person calls—a type of long distance service that has not previously been on a night discount basis. In addition, the night discount period on all classes of long distance service is extended to include all day Sunday. The railway commission, in approving the application, granted the request of the company that January 5th be set as the effective date.

The new long distance discounts will be applied on a nation-wide basis, the Lincoln company having joined other large companies in making application for the rates.

"The extension of the night discount to person-to-person service will be particularly attractive to our customers," Manager R. M. Misner explained to the editor of The Journal. "It will result in an appreciable saving of money. The discount on a night person-to-person call will be the same in amount as the discount on the night station-to-station call for the same distance. In other words if the day station-to-station rate is \$1.00 and the night station-to-station rate is 60c, the discount would be 40c. This is the amount of discount that will apply on a night person-to-person call as compared with a day person-to-person call for the same distance.

"The extension of the night discount period to include Sunday will also be pleasing," Mr. Misner continued, "since it will make long distance service more useful to our customers at a time when the volume of business is light and calls can be completed with unusual rapidity. The night rate for all classes of service will go into effect on Saturday at the usual hour, 7:00 p. m., and will continue all day Sunday and until 4:30 a. m. Monday."

WGN, Chicago and at a Choral even song at St. Luke's Episcopal church in Evanston at four in the afternoon.

At the close of the service Nebraska friends of Mr. Rosborough met him in the vestry to compliment him on the splendid work of his choir. Percy Silber, formerly of Lincoln, was one of them.

Most everyone heard the broadcast from Lafayette park on the president's program Christmas eve when the choir gave two numbers.

Christmas day was spent in New York, singing carols at noon at the Waldorf Astoria where the choir stopped. On the evening of Dec. 27 a concert at Carnegie hall, before an appreciative audience.

Dec. 28 they gave a concert at Carnegie Institute, Pittsburgh, and in the third Presbyterian church on the evening of the 29th, leaving for home that night.

Percy Silber says "Lincoln should be very proud of an organization of young people in the art of music."

MUST CUT INTEREST RATE Washington.—The interstate commerce commission told the New York Central railroad it could not pay more than 5 percent interest on a 75 million promissory note issue. The commission's order followed by a few days a strong New York Central protest against a suggestion by Oliver E. Sweet, ICC finance director, that the rate might be cut to 4 percent. The railroad had proposed a 6 percent rate.

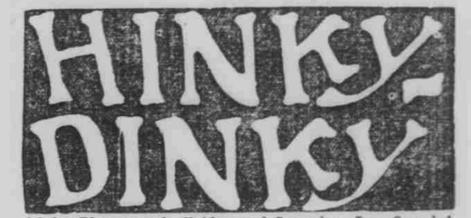

Significance was attached to the commission's action in the wake of recent moves by the Reconstruction corporation to slash interest rates on railroad obligations, and repeated observations by President Roosevelt that interest rates in general were too high. While the RFC has thrown its influence behind a 4 percent rate for certain long term railroad obligations, the ICC order dealt with short term "emergency" financing.

TO GET BIG DIVIDENDS Omaha.—Nebraskans will receive almost 5 million dollars in January dividends on stocks and interest on bonds, Plummer P. Purdum of Burns-Potter & Co. of Omaha said a survey revealed. Almost 1 million of this distribution will come from Omaha corporations, he said.
