

Chaplin Denies Trip Honeymoon

Charlie Chaplin

Paulette Goddard

Reporters who suspected that the sudden vacation cruise taken by Charlie Chaplin and his leading lady, Paulette Goddard, was really a honeymoon were put off with Chaplin's evasive reply that Miss Goddard "is going to be the greatest comedienne in the world" when the couple were questioned at Los Angeles just prior to departure.

PALACE GUARDED IN CHILE

Santiago, Chile.—A special guard of police, armed with machine guns, was placed about the Moneda presidential palace after alarming rumors of a possible revolutionary movement were circulated.

Groups of civilians attempting to enter the offices of the general headquarters of the army were dispersed, as were groups forming around Moneda palace. Arms were not used but four arrests were made.

GIRL MOTORIST IS KILLED

North Platte.—Doris Harvey, 15, Sutherland, was killed near Ogallala when her car swerved into a deep roadside ditch. Three other persons riding with Miss Harvey were uninjured. They were Vera Nicholson and Stanley Nelson of Sutherland, and Pat Farmer of Wallace. County Attorney G. J. McGinley announced he is making an investigation, but it was unlikely an inquest will be held.

BIG STILL IN CAVE

North Platte.—A raid by federal, state and county officials on the John Cramer farm, seven miles west of Stapleton, netted a 100 gallon still, 50 gallons of mash, some whisky and additional distilling apparatus and containers. State Inspector Landgraf said the still was located in an electrically lighted cave near the farm home, and that it was, "a very neat, well run plant."

FIRE ROUTS GUESTS

Omaha, Fire in the Acme hotel in South Omaha late Wednesday routed a score of guests and resulted in damage, mostly by smoke and water, estimated at \$35,000. Nobody was injured. Firemen had the blaze under control in 20 minutes. The fire was attributed to spontaneous combustion among old mattresses.

IDENTIFY DROWNED MAN

Omaha.—A body found in the Missouri river near Omaha was identified as that of John Schmidt, 55, farmer living a mile northwest of Bennington. He had been ill and left Bennington Tuesday for medical treatment in Omaha, relatives said. Identification was made by Herman Schmidt, a brother.

WAR ON BOTFLIES

McCook.—A war on botflies, which do considerable damage to horses and mules each year, has been started in Red Willow county. Often the animals are so irritated by the fly bites they are unable to perform normal work.

FIGHT CATTLE ITCH

Bassett.—Cattlemen of this vicinity have formed an association to dip herds exposed to an itch believed to have been carried here by cattle from Wyoming. Ed Blake was elected president of the organization.

G. O. P. 'EXPLOITED' NEGRO

Chicago.—Secretary of the Interior Ickes charged the republican party had repaid the "tremendous" election services rendered it by American Negroes by permitting their economic exploitation between campaigns.

"From the time of the Civil war until 1932 the republican party deliberately and in cold blood exploited the Negro," the cabinet member said in an address prepared for delivery at the 20th anniversary meeting of the Chicago Urban League.

"During political campaigns the republicans were the solicitous friends of the race," he continued, "but between campaigns it was a different matter; then the economic exploiter could have his will of the Negro." These "economic exploiters," he said, "generally speaking, have been members of the republican party."

FIRST ACT ONE OF CONTRIBUTION

Max Bowman, elected last night as the first president of the new Community Building club, made his first official act as such officer one of contribution, when, on being paid the \$25 salary for the current week, he contributed \$5 to the fund to pay off indebtedness on the community building and an additional \$1 for the purchase of equipment for the Junior Drum Corps. It is not required that the president make any personal contributions, but Mr. Bowman declared he wanted to do so, and the money was gratefully received and will be used for the purposes designated.

EJECT WOMAN FROM HOUSE

Washington.—Miss Susan Lawrence Davis, a woman of about 65 from Athens, Ala., was forcibly ejected by capitol police from a hearing of the house patents committee on revision of the copyright law. She was hustled to a guard room in the new house office building and later released.

Representative Carmichael (d. Ala.), who said the woman was a friend and claimed to be related to Jefferson Davis, president of the confederacy, said she sought to testify about infringement of a copyright on a history of the Ku Klux Klan she had written.

DAIRY HERD MAKES RECORD

Minatare.—A herd of nine registered Holstein-Friesian dairy cows, owned by Leo Schumacher, dairyman near here, has made a fine record the past year, according to tests just completed. Queen Ash Marathon Anely was the high producer with 543.2 pounds of butterfat and 13,159 pounds of milk. Three other cows produced more than 400 pounds of butterfat each and gave an average of 11,166 pounds of milk. The test was supervised by the Nebraska college of agriculture.

Acute Shortage of Grain Feeds Seen for State

Early Corn Potob, Barley, Oats and Millet are Suggested by Prof. Gramlich, of Lincoln.

"Nebraska livestock feeders are going to face a serious feed grain problem next summer until a new crop of corn can be harvested," says Prof. H. J. Gramlich of the agricultural college. An unusually large percentage of corn is of low quality now. This is shown by the fact that out of 3,145 cars graded in Chicago during December only fourteen cars graded No. 2. Nearly two-thirds went in the No. 5 class.

"State and federal statistics indicate that we have 50 per cent more lambs on feed than a year ago and twice as many cattle. Hog numbers are down. However, the number of spring pigs will be materially above the crop of 1935, and these will be consuming considerable grain long before new corn is available unless a considerable quantity of early crops can be produced.

"The situation is doubly acute because we have had two light corn years. Only 112 million bushels were gathered while normally we would have harvested an annual crop of 225 million bushels, or a total of 450 million. In a big feeding state like Nebraska, it would be impossible to go on indefinitely with 25 per cent of the usual amount of corn.

"There are several alternatives which might help the livestock man solve his summer problem. They include planting of a patch of ninety day corn early in order to have some new corn at earliest possible date, sowing barley, which normally is harvested soon after July 4 and can be available for feeding by middle of month. Barley when ground makes very good corn substitutes. Fed with cracked corn, results should be satisfactory as where a straight corn ration is used.

"Sow considerable oats acreage. Should they mature into a crop of good quality, the grain could be used to advantage in starting lambs and cattle on feed, likewise as part of ration for sows and growing pigs. Oats were also splendid feed for horses.

"In southwestern Nebraska, where proso or hog millet does well, a considerable acreage of this could be planted. Put in early, it should be available by midsummer as it is a short season crop. Ground hog millet has been used at the Akron, Colo., substitution for fattening hogs and has proven fully equal to corn. It has been used considerably as part of fattening cattle ration and when fed ground has proven satisfactory, especially where mixed with other grains or ground alfalfa.

"Permit fall sown rye to mature for harvest as grain crop for summer feeding purposes. At the college, we not infrequently pasture rye during early spring months and then permit the crop to mature. We have usually harvested 12 to 18 bushels of grain per acre in this manner. Should the spring be a wet one and the rye not be needed for pasture, it would probably make a materially larger yield than otherwise."

DIVIDENDS TO FARMERS

Cedar Bluffs.—The Cedar Bluffs Farmers Co-Operative association recently distributed an 8 per cent dividend and a 1 1/2 per cent pro rata dividend. J. F. Lubker is president.

Pierce.—Officials of the Pierce Farmers Co-Operative creamery reported at the recent annual meeting 1935 was the most successful year in the history of the creamery. Gross sales totaled \$89,529 and gross profits \$15,720. The usual 8 per cent dividend was paid stockholders and patrons for 1935.

SCREW WAS REMOVED

Grand Island.—A three inch screw swallowed nearly two years ago by Loradel Holt, 3 year old daughter of Mr. and Mrs. Arthur Holt of Scotia, was removed Wednesday by a Grand Island surgeon. The screw was found just beyond the outlet of the stomach. Rapid recovery of the child is expected.

CAMPERS MAKE ISLAND

Valentine.—CCC workers have constructed an island in Hackberry lake near here to protect young wild fowl from animals. While the lake was covered with ice, motor trucks loaded with dirt were driven to the center of the lake and the dirt dumped thru holes cut in the ice, to form the island.

Alvo News

John Elliott received a car load of tractors last week.

Nita Mullen is confined to her bed with a case of mumps.

Donna V. Vickers has been absent from school because of mumps.

Mr. and Mrs. Glenn Dimmitt and son spent Sunday at the William Mickle home.

John Banning, the Alvo lumberman, has been having some more coal unloaded this week.

Ben Appleman has been quite ill again, but his condition seems much improved at this time.

James Friend is staying at the Emmett Friend home while Mrs. Friend is in the hospital.

Mrs. M. C. Keefer, of Glenwood, Iowa, spent several days visiting at the S. C. Boyles home last week.

Petty Lancaster helped at the Sterling Costman home until Wednesday of last week, during school vacation.

Mrs. Earl Bennett's group of the Ladies Aid Society are preparing to serve lunch at the John Elliott sale Saturday.

Mrs. Vera Lancaster is caring for the small daughter of Mr. and Mrs. Albert Swanson while Mrs. Swanson is in Omaha.

Glenn Lewis has started to move some of his things to the farm northeast of Alvo, where he expects to live this year.

Mr. and Mrs. Harold Nickel and children and Mrs. Ellis Mickle and Lloyd spent Saturday at the S. C. Hardnock home.

Carl Rosenow is again on the sick list and is being relieved of his barbering duties by a young man from Elmwood, Mr. West.

Albert Swanson drove to Omaha Sunday where he expected to spend a few days with his wife, who is staying with her mother at the hospital.

Mr. and Mrs. I. C. Hardnock, Jesse Hardnock and Forrest, Mr. and Mrs. Glenn Dimmitt and Mark Nickel helped butcher at the Ellis Mickle home Tuesday.

It is reported that a former business man of Alvo, John Woods, has sold his grocery store at Elmwood, where he has been in business for a couple of years.

Virgil Woods, a son of Mr. and Mrs. John Woods, left recently for Fremont, where he and Stanley Woods are operating a fine new Sinclair filling station.

A crew of men assisted the snow plow Friday and opened the road east of Alvo. This road has been closed for several weeks, probably for a longer period of time than any other in this vicinity.

The Alvo firemen answered a fire call Friday at the John Elliott garage behind the hardware store. The fire, however, was soon extinguished, and little damage was reported.

A number from here went to Lincoln Saturday evening to hear the address by Governor Landon, of Kansas, who is a potential candidate for the presidency on the republican ticket this fall.

Church services were held at the local church again Sunday. No services were held the two Sundays previous because of bad weather and the coal shortage that the people of this vicinity feared they might have to experience.

Friends of Mrs. Emmett Friend will be glad to learn that her condition is not as serious as it was first thought to be. She is at the Bryan Memorial hospital in Lincoln and at last reports it was thought no operation would be necessary.

Friends were indeed very sorry to learn that Mrs. Swanson's mother was not so well on Wednesday. It was necessary to move Mrs. Walstrom from the Lord Lister hospital to the Nicholas-Senn hospital during the week and moving her probably caused her to become weakened.

The third and fourth grade children enjoyed a little valentine party on Thursday afternoon. Because of school being closed for several days, this was the first opportunity the children had had to give their school friends valentines. The fifth and sixth grades didn't have their valentine box until Friday afternoon.

Entertains Club
Members of the Alvo Woman's Reading club had the privilege of enjoying the delightful hospitality of Mrs. Minnie Peterson Thursday afternoon, February 27.

Mrs. Harry Appleman was in charge of the afternoon's program. The events of the afternoon were climaxed with the serving of dainty refreshments by the hostess.

Continue to Open Roads
Crews of men continue to aid with snow shovels in opening roads in this vicinity. Most of the roads have now been cleared sufficiently to permit of

traffic on them. As a result, school was re-opened last Wednesday and the teachers and students resumed their work and studies once more.

It is hoped that the school work can now continue uninterrupted to the end of the term. However, people can truly be thankful that no tragedies resulted because of the snow-bound condition and extreme cold of the past several weeks.

With the sun shining so brightly and the weather so warm as it is at the time this is written, it is hard to believe that only a couple of weeks ago everything was so different.

Mothers' and Daughters' Council
The net meeting of the Mothers' and Daughters' council will be held at the home of Mrs. W. C. Timblin, Friday afternoon, March 6.

Mrs. Ellis Mickle will give the lesson on "Books."

Come prepared to answer roll call with an "Irish joke."

UNEMPLOYED INCREASE

New York.—The national industrial conference board, a research organization sponsored by industrial corporations, stated that there had been an unemployment increase of 8 percent in January over December and a decline of 6 percent from January, 1935.

CATTLE SHOW IN MARCH

Columbus.—The Nebraska State Aberdeen-Angus Breeders association will hold its annual show and livestock sale here on March 25.

Need printing? Just call No. 6, and you'll find us on the job.

MINNIE STROBEL RESIGNS

Minnie J. Strobel of Lincoln, supervisor of the nursing service of the NERA Wednesday announced her immediate resignation to accept the directorship of the nursing service in New Mexico. State Relief Administrator Witte said he regretted to lose the services of Miss Strobel whom he said was one of the "most effective" members of his staff.

She has been in charge of the state nursing service since October, 1934. Witte added that he had hoped Miss Strobel would remain until Nebraska's health work under the social security program was established. In New Mexico Miss Strobel will direct nursing activities under that state's social security program.

Omaha has more than reached its WPA quota of 10,500 persons according to Witte who said he wanted to correct a statement credited to him and saying that Omaha relief officials were having difficulty in filing the quota. A transient camp will be established at Ponca during the first part of March under a WPA allotment of about \$28,000, he said. The new camp is expected to relieve congestion at the Omaha Service Center where the quota has been exceeded by 200 men. The Ponca camp will house 125 transients.

The WPA now operates four transient centers, including Chadron, Bellevue, Carter Lake and Plattsmouth.

Plattsmouth offers opportunities unexcelled anywhere so small factories. Natural gas, low cost electricity, nominal living wages,

Journal Want-Ads cost little and accomplish much.

"Cream of Crop" Among Duke University Beauties

Marguerite Dewey

Anne Wagner

Elizabeth Faires

Charlotte Siehler

Lois Aitken

Honors accorded annually to the eight most popular reigning beauties on the campus at Duke University, Durham, N. C., this year went to Elizabeth Faires, Drexel Hill, Pa.; Charlotte Siehler, Baltimore, Md.; Anne Wagner, Jamaica, N. Y.; Marguerite Dewey, Goldsboro, N. C.; Lois Aitken,

South Orange, N. J.; above, and Marguerite Neal, Thomasville, Ga.; Dorothy Peck, Huntington, Pa., and Elizabeth Earle, Hermansville, Mich. Miss Wagner polled the largest number of votes and was designated Duke beauty queen. Pictures of all eight will be featured in the yearbook.
