

**Rid Yourself of Kidney Poisons**

DO you suffer burning, scanty or too frequent urination, backache, headache, dizziness, loss of energy, leg pains, swellings and puffiness under the eyes? Are you tired, nervous—feel all unstrung and don't know what is wrong?

Then give some thought to your kidneys. Be sure they function properly for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system.

Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.

**Farmers Study Pasture Plans for This Year**

Lawrence Quante of Brock Is the First to Enter State Improvement Contest.

Nebraska farmers have started seriously figuring out their 1936 pasture program. Interest in grasses and grazing land management has increased tremendously with the announcement of the 1936 pasture contest and the forthcoming soil conservation act which lays stress on returning land to grass.

Interest in the pasture contest increased rapidly this week, with scores of farmers filling their entries. Lawrence L. Quante of Brock, in Nebraska county, was the first farmer to enter the competition wherein \$1,500 goes to winners. This farmer operates a small acreage in southeastern Nebraska. In improving his pasture management, he plans on putting out some sweet clover and sudan this year for pasture. A small acreage of rye will also be put out for pasture and harvested for grain. Some of the farm acreage will be devoted to permanent pasture in 1936.

Large and small operators alike are expected to follow Quante's example and enter the contest immediately. They will lay out their pasture program for the coming year and signify their intentions of planting temporary and permanent pastures as well as their grazing practices.

Last year 450 farmers from all parts of Nebraska entered this event. County agricultural agents have details of the contest and entry blanks, as well as pasture circulars which include 27 important pasture questions and the answers.

**MISS HORNING ELECTED**

Miss Marie Horning, Home Economics teacher in the local high school, was elected president of the Community Building club, by the ballots of nearly a hundred persons present at the election. Miss Horning, who had been a member of the club since it was organized, had, in some manner, overlooked paying her current dues and as a result was disqualified from serving. Judges of the election were Mayor George Lushinsky, Cy Kalina and Mrs. Frank Rebal.

As a result of this week's miss, double salary, or \$50, will be paid next week's president-elect.

**APPOINTED LOCAL CHAIRMAN**

Mrs. E. H. Wascott of this city has been appointed to the position of local chairman of the campaign of the Nebraska Society for Crippled Children. She has on hand the seals that are to be sold to aid in raising funds for this most worthy cause. The funds raised are to be expended in the care, cure and education of the crippled children in Nebraska. Mrs. Howard F. Capwell, of Elmwood, is the county chairman of the organization.

Father Patrick Harte. Burial was in the Catholic cemetery. An account of the life of this good woman will appear elsewhere in this issue of the Journal.

**IN SERIOUS CONDITION**

The old time friends of J. D. Shrader in this community, will regret to learn that he is in very serious condition at a hospital at Chelsea, Mass., where he has made his home in recent years. He has not been in the best of health for some years and has gradually grown worse until the present attack. Mrs. E. M. Gerlock, a daughter of Mr. Shrader, has been here for a visit at the home of her aunt, Mrs. Georgia Creamer, south of this city.

**Farmers will Plant About the Same Acreage**

About 15,000,000 Acres, According to March Survey, With 15 Percent More in Corn.

Nebraska farmers plan to harvest an average number of acres this year, barring changes effected by the new federal soil conservation act or unusual weather, says A. E. Anderson, state and federal crop statistician.

The annual March survey of planting intentions showed farmers expect to harvest 14,663,000 acres this year, or 1.4 percent less than the 1928-32 average.

Farmers plan to harvest 15 percent more corn than in 1935, which was an abnormal year, but their 8,993,000 acre schedule remains nearly a million acres under the five-year average harvest of 9,803,000 acres.

Continuance of increased spring wheat acreage is indicated. A total of 450,000 acres is expected to be harvested, and while the figure is 6 percent less than last year, it is far above the 178,000 acre average for 1928-32.

An anticipated harvest of 2,463,000 acres of oats, also about 6 percent less than last year, is 35,000 acres more than the average.

The tame hay harvest is expected to take in 1,710,000 acres, the same as in 1935, but above the 1,594,000 acre average.

A rebound from last year's abnormally high acreage of grain sorghum which was induced by the AAA was indicated. Only 188,000 acres of this crop are slated for harvest, or 55 percent of the 1935 harvest. The 1928-32 average, however, was only 18,000 acres.

Potatoes are scheduled to be harvested from 123,000 acres, which is 2 percent less than last year and compares with the average of 117,000 acres.

The estimate for barley is 713,000 acres, or approximately the same as both the 1935 crop and the 1928-32 average.

Little change is anticipated in planting of beans and flax.

**PRODUCTION IS FARM HOPE**

Alliance, Neb.—H. C. Filley, Nebraska agricultural college professor, told farmers attending the annual Potato Growers Improvement association meeting here Thursday the salvation of farming and the longest step toward solution of economic problems in agriculture and other industries, lies in production, not limitation of production.

"Wealth has but one source," Filley asserted before 100 farmers attending the second day of the organization's sessions, "that is production. In order to profit from production this country must increase its world trade by correction of some of the faults of the tariff structure."

H. O. Werner, also of the agricultural college, spoke on the relation of crop rotations, soil moisture and weather on dry land farming as determined by six years of experimentation at Box Butte county experiment farm.

**INSURANCE FIRMS ELECT**

Norfolk, Neb.—Walter G. Buettow, Norfolk, was elected president of the State Association of Mutual Insurance companies, which concluded its 2-day convention here Wednesday afternoon. He has been vice president the past year.

J. H. Curtis, Elgin, was elected vice president. O. S. Gilmore, York, was re-elected secretary and treasurer. Theo J. Lemke, Madison, is retiring president. O. D. Thombla, Lincoln, was chosen a member of the executive committee and H. J. Requette, Lincoln, was made chairman of the legislative committee. Other members of the committee are to be appointed by the executive committee. The association voted endorsement of Gov. Cochran's safety campaign and pledged support to the statewide drive to decrease highway accidents.

**CANDIDATE VISITS CITY**

From Saturday's Dairy: Colonel Robert G. Douglas, one of the many candidates for the republican congressional nomination in the First Nebraska district, was in the city today. Col. Douglas is starting in on his campaign, just recently resigning from the state soldiers aid fund commission. He is well known over the state and particularly in the veteran circles as he is a veteran of both the Spanish and World war. He will speak in Plattsmouth on next Wednesday night and give a statement of his position.

**FUNERAL OF ROSWALL C. BAIRD**

The funeral service of Roswall C. Baird was held on Friday afternoon at the Horton funeral home at 7th and Vine streets. A large group of the relatives and old friends were in attendance to take part in the services, paying their last tributes to the memory of Mr. Baird.

The services were conducted by Elder Walter Steinkamp, of the local Holiness church, of which the family of the deceased had been members.

The body was taken to Nebraska City for interment in Wuka cemetery at that place.
