DO YOU KNOW—

That Darnascus, in Syria, is one of the oldest inhabited cities in the world. Little is known of its origin but there is abundant evidence of its antiquity. It is mentioned in the Bible as existing in 1913 B. C., and the houses of Judas and Ananias are still pointed out.

LINCOLN VISITORS HERE

From Wednesday's Daily— Mr. and Mrs. Frank H. Johnson of Lincoln arrived in Plattsouth last evening. Mr. Johnson attended the Knights Templar inspection. They also called upon old friends in Plattsouth and returned to their home today.

They report that their son, Frank W. Johnson is now located at Maracaibo, Venezuela, S. A. Frank is a graduate of the University of Nebraska and was sent to South America as a geologist for the Standard Oil company. He has been there a year and is intensely interested in his work.

Joseph Johnson is a sophomore at the University of Nebraska.

All-Time Largest Localized Ad Campaign in History

Standard Oil Company of Nebraska Places Large Space Contract with Journal and Others

What is believed to be the largest localized advertising campaign ever staged in Nebraska was recently launched by the Standard Oil Company of Nebraska. Following the opening advertisement, all others will carry pictures, names and addresses of local Standard dealers in every community where the products are sold. This means that every advertisement gains individual attention and value for the Standard dealer whose picture appears in the current issue of the newspaper. It also serves as a distinct advantage to the entire list of local dealers whose names are listed. The Journal will carry this advertisement, the opening ad appearing in this issue of the Semi-Weekly edition.

Ads will Tell How to Use Less Gasoline So far as is known, this is the first time that an oil company has told motorists how they can use less gasoline. Facts and figures gained during Standard's "World's Greatest Mileage Test," conducted last summer, indicate that at least half the car owners in America are not operating their cars as efficiently as they might . . . and not getting as many miles per dollar as they can and should expect.

Standard believes that the highly informative and valuable information given in the coming advertisements will help motorists to save as they drive. All data will be authoritative and based on actual facts. This move, no doubt, will add many new friends and customers to the already large lists enjoyed by Standard dealers everywhere.

City Council Hears Discussion of Bill Posting

Will Repeal Ordinance if Ad Club Approves Wide Open Distribution With Suitable Regulations.

The city council Monday evening had a very busy time and in which a great many matters from the problem of the coming city estimate and levy was discussed down to that of distribution of handbills and how.

A communication was received from Mrs. R. A. Bates asking permission to cut the curb on the east side of her building at Fourth street to provide an approach for scales at the Richey coal office. The petition was granted.

The report of the Plattsouth library board was received for the year ending May 11, 1937 and showed the library had received from the city \$2,760.72 for the year. The report also showed that the books circulated had amounted to 41,479.

The finance committee presented a resolution asking that the sum of \$134.47 now remaining in the fund of paving district No. 23 be transferred to the general fund and which was so ordered. Councilman Webb stated the residents of the district deserved commendation at having paid out the district and having a small balance left.

The finance committee also recommended the transfer of \$333.74 from the city general fund to that of street improvement districts No. 11 to 16, 19, 24, 29 to 33, to cover small deficits in these districts. This was approved.

Mayor Lushinsky reported a few cases of chicken pox in the city as the only contagious disease.

Chief of the fire department Dr. O. Sandin presented his report of the fires of the past two months.

Chairman Tippens of the streets, alleys and bridges committee, reported that the city road maintainer had the front axle broken Monday afternoon. He also reported that the city force had been washing the paved streets and now were averaging nine blocks a day. Mr. Tippens also recommended the remarking of the parking zones and which was ordered by the council.

Discusses Survey Bill

There was some discussion of the claim of R. D. Fitch, county surveyor, for work performed on Wintersteen hill in surveying for the city of \$50. Councilman Webb called attention to the fact that \$35 had already been paid for this work and which now run the total to \$85 with the additional claim. Councilman Vincent stated that he had seen some of the surveying stakes pulled out and which it was necessary to replace, but he did not think \$50 worth. Councilman Webb stated the city had spent large amount in this line of work on Sixth street and that they should safeguard their interests in the future. Councilman Comstock was of the opinion that if the work had been performed and ordered that the surveyor was entitled to his fee. Councilman Schutz was of the opinion that this work was costing too much money. Councilman Webb urged that the matter be settled definitely and that in future pieces of work that surveying costs be definitely fixed before any work was started. On motion of Councilman Schutz the matter was referred to the claims committee to check and secure an itemized bill before granting the claim.

On the claim of the All-Makes Typewriter Co., for rental or purchase of a typewriter for the city clerk, it was voted to purchase the much needed machine for \$45.

Budget for 1937-38

General Fund \$ 6,000.00 Police Fund 3,500.00 Road Fund 3,600.00 Library Fund 2,850.00 Fire Hydrant Rental 6,000.00 Interest and Sinking Fund 21,970.00 Cemetery Fund 2,500.00 Fire Department Fund 850.00 Fire Equipment 200.00 Park Fund 400.00 Street Lighting Fund 3,400.00 Unemployment Relief 2,000.00 Gasoline Tax 2,400.00 Business Tax Fund 1,500.00 Dog Tax Fund 30.00

TOTAL \$57,200.00

The entire revenue for the City of Plattsouth for the previous fiscal year was \$58,314.08. Estimated expenditures in Funds 1 to 12, inclusive, shall be raised by (1) reapportionment of balances on hand at beginning of fiscal year in the various funds; (2) estimated miscellaneous receipts during the year, raised in such manner as statutes provide, and (3) tax levies on real and personal property, in no case exceeding the mill levy for such fund permitted by law.

Estimated expenditures in Funds 13 to 15, inclusive, shall be raised by (1) reapportionment of balances on hand at beginning of fiscal year, and

(2) estimated miscellaneous receipts during the year raised in such manner as statutes and existing valid city ordinance prescribe.

No further appropriation shall be made at any time during the fiscal year, except (1) in event of emergency, when statutory provisions regarding such expenditure shall be adhered to, or (2) proposal for such expenditure shall first have been sanctioned by the majority vote of legal voters of the city required by existing statutes.

A full, itemized estimate of expenditures for each fund will be printed in the Journal within a few days.

Mayor Lushinsky warned committee chairmen that the appropriations that might be made in the levy was all that they could expend and if their funds were exhausted there would be no transferring.

City Attorney J. H. Davis reported on the hearing before the state liquor commission in regard to the liquor application of Joe Lapidus, the city officials presenting the action of the council in voting for only two stores.

Chairman Comstock of the lighting committee, reported that the two electrolors on South Fifth street had been placed back in service and that the work had been held strictly to the bid price and was a good and acceptable piece of work.

Councilman Vroman of the police committee called the attention of the council to the fact that physicians had a hard time to get to their offices with their cars and that even in emergency cases it was difficult for them to get in or out of the spaces near their offices. On motion of Vroman it was provided that parking spaces near the offices of physicians should be kept open for their cars.

Mayor Lushinsky extended thanks to the WPA committee for their work on the Wintersteen Hill project and also asked that a letter be sent the state WPA office at Lincoln expressing the appreciation of the city for the work.

Councilman Webb reported that the city was to appropriate \$2,000 from the gasoline tax fund for the Lincoln avenue WPA rock surfacing project.

Councilman Brittain of the parks and improvement committee, was given the authority to have the interior of the scale house cleaned and also to have the steps leading to the council chamber repaired.

Discusses Bill Posting

H. G. Soennichsen, Jerry Greenebaum and Harvey Gamer were present and invited by Mayor Lushinsky to give their views to the council and they at once took up the matter of the distribution of handbills over the city and which was now being checked under the provisions of the city ordinances.

New Spanish Power

Indalecio Prieto New key man in the Loyalist government of Spain is Indalecio Prieto who was recently appointed minister of defense in the new cabinet of Dr. Juan Negrin, new premier, and delegated to reorganize the fighting service.

Mr. Soennichsen stated he had been informed that the city police had interfered with the distribution of handbills over the city and that complaint had been made that this was causing injury to the business interests of the city.

Mr. Greenebaum stated that the ordinance was doing financial injury to the local institutions and that he had felt the effects in handling the advertising for his theatre. While the ordinance was on the books he felt that the local people should have some consideration and that their distribution be condoned.

Mr. Gamer pointed out the need for a change in the ordinance as in his business of ice cream making it had worked a great deal of hardship on him and all other business that followed this method of conveying their advertising. He urged that the ordinance be revised or repealed.

The mayor pointed out that the ordinance had been adopted in 1906 and was on the books of the city, that it would be necessary to follow the law that provided a tax of \$25 for the bill posting and distribution and that there could be no discrimination. If wished the city could have the committee make a new ordinance and

submit it to the council at the next meeting.

Councilman Vincent thought that the ordinance should be revised so as to give the local business houses the benefit of the bill distribution if they wished.

Councilman Webb stated that an ordinance could be prepared to give everyone an opportunity at bill distribution and place such restriction around it as to protect the residents from the indiscriminate tossing of bills around their homes or places of business.

On motion of Councilman Webb, it was agreed that if the Ad club would go on record as favoring free lance bill distribution, with such restrictions as to methods, the city council would set up the new ordinance. The matter was referred to the judiciary committee and the city attorney to prepare a new ordinance if the Ad club offers their approved endorsement.

Councilman Vroman called the attention of the city council to the fact that the sidewalks in the business section are being obstructed by stocks of goods, boxes of plants and large signs that interfered with the proper use of the walk and contrary to the city ordinance. City Clerk Olson stated that the ordinance provided that the walks might be used for five hours a day.

The Bills

J. H. McMaken, pulling out grader	\$ 1.50
Platts. Fire Dept., nozzelmen	6.00
Albert Timmas, rock Wintersteen Hill	6.00
