

Hot Weather Has Compensations

Yeh, man!

Hot weather undoubtedly has its drawbacks but one finds the season easier to accept if one is on the working end of a big piece of watermelon such as this!

City Council Hears Protest on Ordinance

(Continued from Page 1)

The Fuller company hired local men and made a rule to have men of high standing in their work. The brush company aided local trade by their selling methods where in cases parties could not afford the high prices, they would seek, a lower priced brush at a local store.

Beer Closing Hours

Chairman Vincent of the license committee reported that his committee met with the judiciary committee on Saturday and that a recommendation had been prepared governing the closing hours for beer taverns and places where beer might be sold.

The recommendation as read, signed by all three members of the license committee and one of the judiciary committee members provided that beer taverns would open for business at 6 a. m. on all days except Sunday, Memorial day and Christmas when the sales would not be allowed until twelve o'clock noon. That all beer places close their bars and the sale of beer at midnight on all nights except Wednesday and Saturday when they would close at 1 a. m. Mr. Vincent moved and Mr. Brittain seconded the adoption of the recommendation which had it carried would have been followed by the necessary amendatory ordinance.

The roll call on the vote to adopt the report was as follows:
Aye—Comstock, Schutz, Vincent, Brittain.

No—Webb, Hall, Tippens, Rebal.
Not Voting—Puls, Vroman.

Not having received a majority vote of the council the recommendation was declared lost by Mayor Lushinsky.

Mayor Lushinsky expressed himself that he favored closing hours as trouble had come in most places after twelve o'clock.

Councilman Webb stated that the great evil of minors securing drinks was as great before midnight as after. No minors should be served in these places and ordinances to that effect should be enforced at all hours. If minors are found in the beer places then the licenses should be revoked where sales made. The city collects a high tax and he believed that the licensees should have a full chance to secure their share of business in competition with others. He favored a state wide uniform regulatory closing hour law on all beer places.

Councilman Tippens, who had voted against the closing hours, also favored a state law for the closing hours and as long as other towns were open the drinkers could easily go there in cars if places closed at home.

Councilman Comstock stated that it might be possible that minors were served in places before midnight. He also favored a state law and felt that in the illegal sales that the state law should be enforced by county officers as well as the city.

Councilman Hall stated that personally he was a dry man and had good friends on both sides of the question which he wished to retain. He was in favor of a state law, but if all had voted as he had the problem would not be here.

Councilman Vroman thought that many of the places themselves favored closing hours. Other groups he had talked to favored closing dancing at midnight in places.

City Attorney Davis stated that as the ordinance stood it was difficult to secure a conviction on sales to minors as it provided that the person must be known to be a minor by the licensee. At the time the ordinance had first been presented he had urged that the responsibility be placed on the licensee but this had been defeated.

Councilman Webb inquired if the state law did not place the responsibility equally on the party buying as well as that making the sale.

Mayor Lushinsky stated that the

police would be instructed to check on possible sales to minors in beer places and where the minors are served that the parties making the sale be brought up for action on their licenses. The mayor stated that he had no objection to legitimate drinking by anyone, but favored the closing hours, the council having decided otherwise the matter would be handled as it stands.

Committee Reports

Chairman Webb of the tax and property committee reported that lot 10 in block 4, of the city bought by the city was arranged for sale and the committee was authorized to close the deal.

Chairman Tippens of the streets, alleys and bridges committee reported that the bridge in the west part of the city had been repaired. That the committee believed that an additional tile placed on Wintersteen hill would be better than to try and

repair the present culvert. He also reported that a sanitary sewer on South 6th street had been placed in proper shape. Mayor Lushinsky stated that the matter would be taken up with the members of the sewer district.

Chairman Schutz of the fire and water committee reported that he had no report on the matter of water complaints. Mayor Lushinsky reported that he had taken the matter up with the Packing company and they would notify the water company when in prospect of large water consumption so that mains might be flushed and auxiliary tanks filled.

Councilman Vroman reported that he had seen several of the physicians of the city in regard to placing chains for parking places, but the most of them seemed to prefer the placing of signs.

Chairman Puls of the finance committee presented a resolution trans-

ferring \$100 from the general to the gasoline tax fund.

The council heard a short discussion of compensation insurance, a representative of St. Paul Mercury Indemnity Co., being present. He told the council that all companies had the same rates and regulations fixed by boards for the handling of insurance and it was largely a matter of the agency through which it was wished to handle the matter. He conferred later with the councilmen informally.

Councilman Webb made a report of the progress of the work on the Sixth street sewers and what changes were necessary to make the job one that would prove efficient. On motion the additional work contracted for was unanimously approved.

The following bills were allowed by the council:

Travel the nation over and you will find no better beer than Storz, made right here in Nebraska. Most Nebraskans take neighborly pride in buying Storz, instead of eastern beers.

Storz is a big factor in Nebraska prosperity. Hundreds of jobs all over the state depend on the brewing and distribution of Storz Beer. Those pay checks do not go east—they are spent in Nebraska with Nebraska merchants.

Storz makes it a point to buy all possible supplies from Nebraskans. Storz buys grain from Nebraska farmers, paying premium prices to get top quality. Storz buys insurance from Nebraska companies, printing from Nebraska printers, beer cases and cartons from Nebraska manufacturers. Everywhere Storz is adding to Nebraska prosperity.

Storz is one of Nebraska's largest tax-payers, paying over \$800,000 to city, county, state and federal governments in 1936. Storz Brewing Co. is owned by Nebraskans living in Nebraska. Even its dividends are spent in Nebraska.

Top all that with the fact that Storz makes superb beer—four times World's Champion—and you have every good reason to ask for Storz when you order beer. Help build Nebraska instead of the east.
