

### City Council is Informed on Rock Bound Macadam

#### Green River Ordinance Is Placed Out for its First Reading at Meeting Last Night.

From Tuesday's Daily—  
The city council last night advanced the matter of the "Green River" ordinance covering peddlers and other traveling house to house salesmen, the ordinance unchanged being placed on its first reading.

The council also heard a discussion of concrete bound macadam as a road surfacing, a number having suggested that this might be used in road work here where paving is needed in many sections.

The reading of the routine reports of the city officers took a large part of the opening of the session.

City Treasurer Brown reported that the city treasury now had a balance of \$18,638.60, while City Clerk Olson reported that he had collected in the month of August \$49.25. Chief of Police Joe Libershal reported that for the past month there had been five arrests made and fines and costs of \$21 had been collected.

Police Judge Graves reported that his court for the week of September 2 had two arrests and fines worked out, the week of September 9th no arrests and back fines and costs of \$15.75 paid in.

The council received a letter of appreciation from the T. E. Olson family for floral remembrances.

Mayor Lushinsky reported that the health of the city was excellent as far as contagious diseases were concerned, none having been reported by the physicians.

**No Truck Parking**  
The Chamber of Commerce presented a communication to the council in regard to the congested parking condition and offered two suggestions as to the parking. One was that parallel parking be eliminated on the west side of Sixth street. Trucks be prohibited from parking on Sixth street from Vine to Pearl and also on Main street from Fourth to Sixth streets. On the motion of Councilman Schutz the parking of trucks on the two blocks on Sixth street and on Main street from Fourth to Sixth was forbidden during the four days of the Korn Carnival.

**Hold Up Claim.**  
The finance committee of the council reported the following bills which were ordered paid with the exception of that of the Plattsmouth Water corporation for \$483.96, which was held up on the motion of Councilman Vroman. The fifth ward councilman claimed that the residents of South Park were unable several days to secure water for domestic use and demanded that the bill be held up until some settlement was made. The matter was referred to the claims and fire and water committees to take up with the management of the water corporation.

The following claims were ordered paid:  
George Taylor, street work -- \$ 47.40  
John Kubicka, same -- 27.65  
D. L. Ramel, tractor work -- 47.00  
O. Gopen, street work with team -- 70.50  
A. N. Eaton, Prdet. Co., culverts -- 21.84  
E. J. Richey, supplies -- 21.30

Chairman Vincent of the license committee reported favorably on the application of A. J. Trilety for an "on" and "off" beer license for his building at Third and Main streets. The license was approved by the members of the council.

Councilman Hall of the claims committee reported that he expected to secure a settlement on the South Sixth street sewer between the members of the district, the city and J. H. McMaken, who has fixed the sewer and desired remuneration for his services.

Chairman Vroman of the police committee reported that all had been arranged for policing during the King Korn Carnival.

There was some discussion of the weed problem along the alleys and on motion the chief of the fire department and the chief of police were authorized to check over these places and see that the weeds were cut.

A. E. Edgerton, county supervisor of recreation under the WPA, was present and discussed the use of the building on Main street used for recreational headquarters. Mr. Edgerton is wishing to establish offices on the second floor of the building and asked the assistance of the city in securing lights there. He promised that the building would be kept in the best of shape.

After a few matters of road orders the session adjourned.

**Report Out Ordinance**  
The judiciary committee of the council recommended that the Green River ordinance be reported out for first reading, reworded only to substitute the name Plattsmouth for Green River, Wyoming, also that the ordinance be allowed to follow the usual channels of reading at three meetings. The committee believed that the ordinance was enforceable and lawful, but on the other hand, to pass it and not enforce it would do no good. If passed, the committee pointed out it must be enforced without fear or favor. The ordinance was then read and laid over until the next regular meeting.

**Discuss New Paving**  
Mayor Lushinsky called upon a group of paving men present to discuss the matter of concrete bond macadam, Messers McKnight, Blackman and Nickerson, who sketched briefly the manner of paving that is being used in the Tecumseh job and which the members of the council and any interested citizens were invited to inspect so as to judge for themselves. The party had several specimens of the paving and which showed well in comparison with other forms of concrete paving. Mr. Nickerson thought that the plan of having regular paving districts created was much better than trying to handle it in small units. In the event of WPA aid on the work he suggested a management contract in which the city furnished material, the WPA labor and the contractor machinery needed and supervision.

The visitors proposed that the Plattsmouth people who might be interested, pay a visit to the work near Tecumseh and they would be glad to assist in transportation and give full explanation of the paving. On the suggestion of Councilman Webb all interested are urged to get in touch with Mayor Lushinsky or the councilmen and arrange to view the paving.

Chairman Vincent of the license committee reported favorably on the application of A. J. Trilety for an "on" and "off" beer license for his building at Third and Main streets. The license was approved by the members of the council.

Councilman Hall of the claims committee reported that he expected to secure a settlement on the South Sixth street sewer between the members of the district, the city and J. H. McMaken, who has fixed the sewer and desired remuneration for his services.

Chairman Vroman of the police committee reported that all had been arranged for policing during the King Korn Carnival.

There was some discussion of the weed problem along the alleys and on motion the chief of the fire department and the chief of police were authorized to check over these places and see that the weeds were cut.

A. E. Edgerton, county supervisor of recreation under the WPA, was present and discussed the use of the building on Main street used for recreational headquarters. Mr. Edgerton is wishing to establish offices on the second floor of the building and asked the assistance of the city in securing lights there. He promised that the building would be kept in the best of shape.

After a few matters of road orders the session adjourned.

There have not been and are not now any cases of Anterior Poliomyelitis in the city of Plattsmouth or surrounding territory.

The Board of Health met at the office of Dr. L. S. Pucelik, City Physician, to discuss the situation, especially in regard to the King Korn Carnival.

The general concensus of opinion was that with no cases reported here and cooler weather prevailing, no drastic action should be taken at this time to curb activities.

### Farmers Go to Des Moines for Demonstration

Showing of Hybrid Corn Attended by Hundreds on Iowa Farm Near Capitol City.

From Monday's Daily—  
This morning at an early hour there was a very large delegation of the leading farmers of Cass county departing for the vicinity of Des Moines where they will attend a demonstration of seed corn.

The corn that is being demonstrated is that of a new hybrid variety that has been found to be most successful and it is claimed has a very high production average, giving a much larger yield per acre.

Farmers from this part of the west have watched with interest the development of the corn and the Cass county group will look over the demonstration and check the possibilities of this variety of corn in this locality.

#### RETURNS FROM TRIP

S. S. Gooding returned home Tuesday evening from a very pleasant outing that gave him the opportunity of visiting relatives he had not seen for some time.

He accompanied his niece, Mildred Gooding, to Cameron, Missouri, where they visited with three other nieces of Mr. Gooding and their families. Later Mr. Gooding visited a nephew, Ruben Gooding, at Decatur, Missouri and also at St. Joseph with friends. He found that the corn in Missouri was excellent and little small grain.

Mr. Gooding also visited at Broken Bow and reports the corn in that part of Nebraska as being very poor.

#### MOVING TO OMAHA

Mrs. Frank Schacknets, Sr., and family are leaving the latter part of the week for Omaha where they are to locate and expect to make their future home. The eldest son, Frank, Jr., has been located at Omaha for the past two years and the other members of the family will now join him.

**I'M IN EARNEST—MORE MILEAGE FOR YOU IS MY LIVING**

I'm in business all for myself. I can't afford to lose customers. The finest way to hold them, is by having an oil that isn't always making you add another quart, and keeps the engine quiet. That's why I specially want to tell you about my Conoco Germ Processed oil and the improvement you get. Now your everyday oil naturally just flows around. It can't stay up through the engine all by itself. But Germ Processed oil absolutely does. It forms the nearest thing to a permanent layer of oil—a real plating of oil, which doesn't keep getting all used up. And it can't ever fail to keep real good lubrication on every last part of your engine, all the while you use Conoco Germ Processed oil. No other oil can Oil-Plate your engine. Which gives my station quite an edge with folks wanting to be economical but safe on their oil.
