No LESS than the engineer, you have a stake in any truly basic advance in automotive design.

For that reason, you will not lightly pass over the most important news-story of the new-car season: the story of Buick's new DYNAFLASH ENGINE and TORQUE-FREE SPRINGING.

What happens in this engine happens nowhere else in the world.

Each fuel charge is converted into a tiny fist-size hurricane - and the spark that sets it off releases more performance Matching this marvelous power, is an equally incomparable ride.

Old-type leaf springs are replaced with jarless coils of easy-flexing steel.

No matter how the wheels may dip and curtsy, you ride serene in everlasting comfort unmatched anywhere before!

No other car in the world has these two features. Yet they are only leaders of a host of others you can't afford to miss!

See your Buick dealer this week, for what he has to offer is truly the engineering marvel of the new car season!
