Raising Sunkan Pavements.

The impossible can be done if only you have some one who will tackle the job. The man who begins with a will and grin to do something that cannot be done, generally does it. The walks at the corner near the drug store had sunk, making it uneven, which at first looked like to make proper repairs it would be necessary to tear up the walk and pave it over again. But a crew of highway workers was secured, who drilled holes in the walk and then by a device crammed mud in the holes, thus elevating the low places to the desired height.

ACTOR ADVISES YOUNG DOCTORS

LONDON (UP)—A long list of "do's" and "don'ts" to guide them to success and popularity among patients have been offered students of the Westminster Hospital Medical School by Sir Seymour Hicks, famous actor-manager, speaking as a "patient of 65 years' standing."

"I have enjoyed a great many very pleasant illnesses in my time," he said. "In fact, at times, I have almost been a professional patient. That is my only excuse for having the temerity to come here and give you a few scraps of advice to remember when you leave the hospital and embark on general practice."

Here are Sir Seymour's Do's and Don'ts for young doctors:

Don't keep your patients waiting. Don't let your wife talk about medicine and surgery in private life. Don't give us small talk in the consulting-room. Don't try and impress on us that you're attending Lord and Lady Lipstick.

Don't allow scandal to be talked in your presence. Don't back horses. Don't go to the moneylenders. Don't talk medical shop in mixed company.

Do always dress for the part. Do cultivate an easy, smiling manner.

Do employ a smiling parlormaid to open the door. Do be definite, even if you're wrong.

A general practitioner's patients, said Sir Seymour, are divided into four kinds. "Fifty per cent of them are natural people—he very kind to them," he advised. "Thirty per cent are shy—treat them with tolerance. Ten per cent are snobs—give them a swift kick in the pants. And ten per cent are idiots. Get down on your knees and thank heaven for that last ten per cent—for they'll never find you out."

good improvement, with assurance that in time he will be restored to his former health. This week he has been so he could sit up for a time and walk across the room, which lends encouragement considering the very serious condition in which he has been for so long.

He has had careful nursing by his daughter and the best of medical attention.

Brotherhood Next Monday.

The Brotherhood of the Methodist church of Weeping Water is to have their regular monthly meeting next Monday evening at the parlors of the church, with their regular program and good eats and as well good fellowship. These meetings have proven very popular. If you are a member of the Brotherhood, be sure and be there and if you are not, hand your name to a member and become an earnest worker for the good of Weeping Water and the church to which you are a member and in fact to all churches to the cause of Christ and the Father. The meeting next Monday will be addressed by J. Howard Davis, Plattsmouth attorney and superintendent of the Methodist Sunday school there.

YOU CAN THROW CARDS IN HIS FACE ONCE TOO OFTEN

WHEN you have those awful cramps, when your nerves are all on edge—don't take it out on the man you love.

Your husband can't possibly know how you feel for the simple reason that he is a man.

A three-quarter wife may be no wife at all if she nags her husband seven days out of every month.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and go "Smiling Through."

Blanks for taking the unemployment census have been received at the Murray postoffice and the task of securing the filling out of the blanks have been delegated to the postmaster, which is adding much to his duties, but will in this manner do away with the expense of securing the data which the government is thus trying to secure.

The bridge was not badly damaged, but not so the auto. Both lads were rudely awakened, but no further damage done.

Who Left the Dead Calf?

Someone desiring to get rid of a dead calf, left the same along the railroad in a stream flowing through the farm occupied by Frank Dill. As it was left there as night, no one knows who the guilty party is, but nevertheless the drainage of the stream which comes from the dead animal is likely to contaminate the water which is the source of supply for the cattle in the pasture of Mr. Dill. To be neighborly one should do to the other as he would like to have that same neighbor do to him. Let us all be fair in our dealings.

Will Make Change in Phone.

The materials for the new equipment of the Murray telephone exchange, which is to be made over into an automatic exchange or what is commonly known as the dial system, is expected to arrive in about a week, when work will begin on the transformation. It is expected to be completed by the first of the year.

This new system seems the very last word in telephone equipment and especially of small exchanges as it affords a very silent secret selective calling of the party wished and in cases of crowded traffic, each line cares for itself and reports busy when such is the case. Your dialing instantly calls the number you desire and keeps calling for a reasonable time when it ceases. When you have obtained the party you talk in perfect privacy, as there is no listening-in, as is now the case.
