CANADA FINDS TOURISTS HAZY

VANCOUVER (U P)—Vancouver hotel clerks are of the opinion that Americans knew very much less about Canada than Canadians know about the United States.

Among classic examples is the story of a young and apparently well-educated American who, on booking a room here remarked to the man behind the desk: "You are English, aren't you?"

"No," replied the clerk. "What makes you think I am?" "You speak English remarkably well for a Canadian," he replied. "I thought all Canadians talked French!"

An American woman, staying at the same hotel, told the clerk that she had the whole afternoon to spare and was thinking of exploring the neighborhood. "As a matter of fact," she added, "I may pop over to see those Dionne quintuplets, but I must be back in time for dinner!" (The home of the quintuplets is more than 2,000 miles from Vancouver.)

"After the show," said a middle-aged American woman returning from the theatre, "everyone stood up while the orchestra played a tune. It sounded like a hymn or something, but I couldn't understand why people should want hymns on a Monday." (She had heard "God Save the King.")

A man returning to Seattle from Victoria (the capital of British Columbia) referred to the parliament buildings as the finest town hall he had ever seen.

ARTIFICIAL LEG 39 INCHES LONG HAS NO EQUAL

NEW ORLEANS (UP)—The longest and largest artificial leg known to J. E. Hangar, Inc., artificial limb makers, has been sent to E. C. Bledsoe of Bastrop, La., 7 foot 6 inch giant.

The leg is 39 1/2 inches long and weighs 9 pounds, nine ounces. The average artificial leg is 26 1/2 inches long.

The shoe, which matches the one worn by Bledsoe, is size 32. The shoe is 15 1/2 inches long, 5 1/2 inches wide and weighs 2 1/2 pounds.

C. W. Apperson, manager of the firm, said in the 76 years the company had been in existence, records show it had never before been called upon to make such a large leg.

Bledsoe is 43 years old, a farmer and woodsman. He weighs 267 pounds. There are few doorways, in this country of big doors and windows, that he can enter without stooping. He has removed the front seat of his automobile and drives from the rear seat.

A tree fell on him in November 1936. Blood poisoning set in and the leg was amputated at about the middle of the calf.

The artificial leg, however, straps to his knee and thigh.

ARE YOU ONLY A 3/4 WIFE?

MEN because they are men can never understand a three-quarter wife—a wife who is all love and kindness for three weeks of the month—but a hell-cat the fourth. And make up your mind men never will understand. There are certain things a woman has to put up with and be a good sport. No matter how your back aches—no matter how loudly your nerves scream—don't take it out on your husband.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood into womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife. Take Lydia E. Pinkham's Vegetable Compound and go "smiling through." Over a million women have written in reporting benefit. Why not give this world-famous medicine a chance to help YOU?
