

### Local Employment Service Places Many

For the Year Ending February 1, 1,034 Cass County Residents Secured Jobs.

Of the 1,034 Cass county residents who secured jobs through the Platts-mouth office of the Nebraska State Employment Service in the year end-

ing February 1, 331 were placed in private industry, according to Edith Solomon in charge of the local office.

Private jobs were most numerous in June when 97 persons were placed. October and April were second high private months being equal with 42 jobs each.

Public placements, chiefly on the river with a scattering of highway work, accounted for 633 jobs. A total of 72 clearance placements were made of Cass county applicants to jobs at other points in the state.

The relatively large number of

private placements made is in line with the policy of the Nebraska State Employment Service in emphasizing placements in private industry.

With the approach of spring the number of farm placements is expected to show a marked seasonal increase.
