City Council Purchases New Fire Truck

Adopt the Report of Firemen's Committee as to the Type of Truck Desired.

From Tuesday's Ditty.—The city council last evening voted unanimously to accept the findings of its fire and water committee and that of the fire department as to the purchase of a new fire truck and booster pump and tanks. The committee received the bids on March 21 and have since very carefully investigated the matter and checked over the bids to secure what in their opinion was the best truck for use of the fire department.

Chairman John E. Schutz of the fire and water committee presented the findings of the committees to the council and gave warm words of commendation to the hard work of the firemen's committee. Mayor Lushinsky also praised the excellent work that the firemen had given in the careful checking of the bids and to secure for the city the very best possible for their money.

The report of the joint committee recommended the purchase of a 1938 model 466 D. X. J. motor, 163 inch wheelbase, 7.50x20 tires, dual rear wheels, Diamond T. chassis, from the Cass County Motor Co., 500 gallon two stage centrifugal Hale pump, 250 gallon storage tank with all basic equipment, ladders, extinguishers, hose, pipe poles, built by the Buffalo Fire Appliance Co., Buffalo, New York. The price of the chassis and all equipment delivered at Plattsmouth to be \$4,679.45.

The report on the purchase of the truck was unanimously adopted and on motion of Councilman Schutz the mayor and clerk were authorized to sign the contract for the purchase of the truck and which was to be delivered in this city ninety days after the signing of the contract. In the preparation of the contract the mayor asked that the city attorney and the firemen's committee be included in drawing up of the agreement.

A number of communications were received by the council, one from Carl Christwiser asking permission to make sewer connection which was approved with work to be done under the streets, alleys and bridges committee and bond of \$100 supplied. William Sweeney was granted permission to transfer his beer license from 116 So. 6th street to 142 South 6th, also Fred H. Sharpnack was given permission to move his liquor store from 104 North 5th street to 110 North 6th street, on motion of Councilman Fred H. Vincent.

Councilman Vincent stated that Mr. Sharpnack wanted to move Thursday night and suggested that police supervision be secured as the moving would be after the usual closing hours.

Police Judge C. L. Graves reported for the week of March 17 that there had been two arrests and no collections, for the week of March 24th, one arrest and \$13.25 in fines and costs.

Councilman Webb reported that parties living in tax property of the city had sought to secure permission to cut trees. On motion the police were ordered to notify the parties not to cut any trees.

Councilman Tippens of the streets, alleys and bridges committee, reported that the maintainer had been out to smooth up the dirt roads but no gutter work. Also that the floor in the city tool house had been completed.

Beer Licenses Received. The season of the year having arrived for the renewal of the beer licenses, there were a large number on hand for City Clerk Albert Olson to read. All of the licenses were for on and off sale and application was made by the following: Phillip Hoffman, 447 Main street; Edward Donat, 462 Main street; R. W. Wasley, 546 Main street; Byron C. applications were referred to the committee for investigation and for advertising the hearing date which will be Monday, April 11th.

Chairman Comstock of the lighting committee recommended that a light be placed at 14th and Marble streets and that the clerk be authorized to notify the light company. This was seconded by Councilman Rebal and carried.

Will Press Settlement. Councilman Comstock inquired if settlement had been made for the installing of the electrolier at 7th and Pearl streets, amounting to \$53.61. City Clerk Olson stated he had notified the parties but no reply made. Mayor Lushinsky stated that steps would be taken at once to contact the insurance company, the man doing the installing of the electrolier as well as the company furnishing the same should have had their money.

Chairman Webb of the WPA committee reported that the blueprints for the Lincoln avenue rock surfacing had been received and also that the prints for the proposed sewer east of the city was being made ready. It was recommended that a five foot sewer extend straight from the sewer outlet to the Missouri river. Mayor Lushinsky reported that the Lincoln avenue blueprints had been turned over to the state WPA committee.

Clement Wester of the firemen's committee made an expression of appreciation of the firemen for the fine treatment they had received from the mayor and council and the successful completion of the purchase plans for the fire truck.

Councilman Vroman suggested that the entrance to the hose house on the first floor of the city hall would have to be revamped to allow the new fire truck to be taken in and out of the building. This matter, Mayor Lushinsky stated, would be looked after and arrangements made to care for the fire equipment.

Elmwood News

Mr. and Mrs. Kenneth McBride and sons Jimmie and Rower spent Sunday at Nebraska City, as guests of the latter's parents, Mr. and Mrs. Clyde Sheridan.

Mr. and Mrs. Harmon Beck spent the day last Sunday at the home of Mr. and Mrs. Will Strobel, the guest of James Christensen. The day was spent renewing old times as they were all neighbors a few years ago.

A Month of Surprises. The month of March seems to be a month of surprises for James Christensen. On March 3rd he was 84 years old, and besides numerous letters, cards and other gifts, he received a birthday cake from the Wendylinn Baking company. His name had been sent in by Mrs. Howard Capwell, as he was the oldest person to have a birthday on that date.

Then last Sunday evening, Mr. and Mrs. Chester Irons and Mr. and Mrs. Herbert Oehlerking came in to spend the evening. The time was spent very pleasantly singing both new and old time songs. As Mr. Christensen is very fond of music, it was a great pleasure to him to hear the songs he liked most, and especially was the evening well spent, as Mr. Christensen has been a shut-in since last October, when he fell and broke his hip.

It was very thoughtful of Mr. and Mrs. Irons and Mrs. Oehlerking.

LOYALISTS WANT VOUNTEERS
BARCELONA, March 30 (UP)—Popular front organizations and the labor unions appealed today for an "additional 200,000 workers who are not afraid to die for their country," as the nationalists threatened to sever Barcelona's electric power supply.

The appeal was accompanied by a warning from Defense Minister Prieto that if Catalonia industry is paralyzed by the cutting off of the power supply every man who becomes idle must be put at once on military duty.

The threat to industry was emphasized by the new series of bombing raids over a large area of the Catalonian coast.
