A neighbor was called in and Mr. Hardnock's body was found near the porch. It is not known for sure if Mr. Hardnock died from a sudden heart attack or if he fell from the porch and a blow on his head was fatal. There was a cut on the temple caused from falling.

The body was taken to Lincoln. Mr. Hardnock was a member of the Brethren church. He attended school at the Hedge Corner district.

### Making Effort to Restore Lawn

A real effort is being put forth to re-beautify the school lawn by several organizations.

The total number of account numbers issued in Nebraska at the end of March was 255,827.

Social Security account numbers assigned throughout the United States, Hawaii, and Alaska totalled 38,237,877 at the close of business on March 31st.

Mr. Smith urged all persons who are temporarily or permanently employed in commerce and industry and who have not secured account numbers to obtain them at once by calling at or writing board offices in Lincoln, Omaha or North Platte. Persons who are over 65 and who are working in commercial or industrial trades must also have account numbers for use in connection with the state unemployment compensation law.

### GOVERNOR AIDS FARMERS

LINCOLN, April 21 (UP)—Governor Cochran today asked the state railway commission to appoint administration of the new truck regulatory act to permit farmers to haul poison bran bait for the neighbors by trailer truck.

The Pierce county board of commissioners and County Agent R. A. Johnston of Pierce called the governor's attention to the fact that farmers without a truckers certificate are not allowed to haul goods for the other farmers except in valid exchange of work.

In a letter the commissioner said farmers could just as well haul mixed bait home for their neighbors.

Cochran said he believed failure of the commissioners to provide for poison bran was simply an oversight. George Truman, secretary of the commission indicated that the body would arrange to exempt farmers to permit such hauling.

Protective Testing—A technician with a specially designed machine is shown giving washable wallpaper a thousand rubs with soap solution to check on its washability and brilliance before it is released from the mill. Consumers Information cites this as a typical example of tests given advertised products before they are put on the market, and adds that many manufacturers spend as much on checking quality as they do on developing new processes.

Birthdays Fall on Alabama—Governor Bibb Graves, of Alabama, thanks taxpayers for huge birthday cake, presented on State Gasoline Tax Anniversary by Vice-President A. C. Montgomery of Alabama Motorists Association. Three-mile parade, with hundreds of marchers and motor vehicles, conveyed cake to capitol, where governor was told the taxpayers wanted a constitutional amendment to prohibit diversion of gasoline tax funds to general purposes. Governor Graves assured them he was "for what they wanted."

It's Derby Day at Historic Churchill Down—And thousands of sportsmen are gathered for the running of the 64th Kentucky Derby on May 7th. Here's a view of the new Club House. Built last year, the structure was insulated with four-inch thick mineral wool, the popular home insulating material which wards off winter cold and summer heat with equal efficiency. In 1887, when Baden Baden won the 3rd Derby, mineral wool was already in use for home insulation. In the insert is Stagehand, current favorite in the 1938 Derby.

Cuts Direct from Stone—Cornelia Van A. Chapin, distinguished American sculptor now exhibiting her work in New York, is shown cutting a bas-relief from limestone in the classic tradition. Most sculptors design models, leaving the actual stone work to artisans.
