LaFollette Gives Plan for Recovery

Will Sound Out the Nation in Anticipation of Possible Third Party Being Formed.

MADISON, Wis., April 23 (UP)—Gov. Philip F. LaFollette completed procession today of a plan for economic recovery with which he will sound the nation next week to determine whether he should launch a national third party movement.

He completed the fourth and last of a series of radio speeches last night without disclosing the program but set April 28 as the date for a public mass meeting in Madison at which he said he will announce a "clear, unequivocal program."

"I invite the nation," he said, "to help me draft a co-operative recovery program of increased production."

He continued his attacks against the Hoover and Roosevelt administrations and criticized the new deal for "a policy of organized action to produce less."

"The need for increasing production and broadening distribution," he said, "is the great problem of our time. There is no such thing as over-production. It does not seem reasonable to speak of our people as 'ill fed, ill clothed, and ill housed,' and then conclude that the nation is in trouble because of over-production."

He said many of the examples of the need for broadening distribution could be found in the railroad field. "Why don't the railroads modernize themselves?" he said. "Because they are plastered from cellar to garret with mortgages, with bonds representing values that have largely disappeared. A government that saw the problem and had the courage to act, could cut through the red tape in a few months."

"First, require an engineering survey (not a banker's but an engineer's) to determine what is needed to give our country the most efficient transportation system in the world. Next, order that it be done. Then, a judicial proceeding permitting the new capital financing it to step in ahead of the old bonds."

"Thus, we would create millions of new jobs, and when done we would have something real to show for our money. This would not destroy the old bonds—they would have just what they had before. But in place of idle men and idle money we would have working men and working money."

TO FIX WAGE RATE WASHINGTON, April 22 (UP)—The house labor committee today favorably reported a bill to establish within three years a 49c an hour wage for a 40-hour maximum work week and urged its enactment to preclude wage cuts and deflation. Initially the measure would establish a minimum wage of 25c and a 44-hour week, gradually revising these standards to reach the ultimate goal of "40-40."

ATTACKS NEW DEAL POLICIES CLEVELAND, O., April 22 (UP)—Glean Frank, republican program builder, today attacked President Roosevelt's pump priming plans. Dr. Frank was here to address a district Rotary meeting. He made his remarks in an interview.
