Body of J. H. Lohmann Found Near Wayne

Swept Down Creek During Cloudburst Near Winside, Nebraska, Last Thursday Night.

WAYNE, Neb., April 21 (UP)—The body of J. H. Lohman, Hastings, prominent official of the Nebraska Sons of Herman order, drowned in a cloudburst near Winside last Thursday night was found ten miles downstream and a mile and a half southwest of Wayne this morning.

The body was found by Chelsea Thompson, a Wayne WPA worker and his son, James.

Thompson went out on a lone search this morning, saying he had a "hunch" he would find the body.

Sheriff Jim Pyle of Wayne county said Thompson was entitled to rewards totaling \$225 for finding the body, which Pyle said he believed had been rolled down stream beyond expectation. The Sons of Herman lodge had offered \$100, Wayne county \$25 and the Masonic lodge of Hastings \$100.

Boy Scout troops and several hundred volunteer searchers, spurred by the rewards had conducted a fruitless search along Logan creek, which engulfed Logan as he walked away from his stalled car during a cloudburst last Thursday night. Logan and Arthur C. Mayer, Grand Island, vice president of the Sons of Herman were driving from Emerson to Norfolk at the time of the accident.

WHAT IS OLEOMARGARINE

"From a chemical standpoint there is as great a difference between butter and oleomargarine as there is between day and night.

"It takes 25 pounds of oleomargarine to give you as much nutritive value as does 1 pound of butter made from cow's milk.

"Butter made from cow's milk contains certain substances called vitamins, the most important being vitamin A, which makes it superior in the human diet. Oleomargarine contains no vitamin A."
