City Finds Good Demand for Refunding Bonds

Greenway-Raynor of Omaha Purchase \$28,000 Bonds at Three Per Cent and \$61 Premium.

The city council at their session Monday May 23 took up the matter of the refunding of some \$28,000 of city bonds and found that the demand for the bonds was very brisk, there being representatives from many of the large bond and trust companies on hand for the bidding. In years past the bidders had been less optimistic, but last night from the start of the bond auction, all were anxious to secure the bonds for their companies.

The bonds which were for four and three quarter cents interest bearing, were sold to Greenway-Raynor Co., of Omaha at the rate of three per cent interest and a cash premium of \$61, the bidders to have the bonds printed and history prepared.

The finance committee of the council presented an estimate of revenue for the city which was adopted and which under the new budget system is divided into several sections for each fund. This estimate places the limit on what may be levied for, but the levy can be for a less amount than the estimate. The various estimates for the funds showed the following: General, \$6,000; Police, \$3,500; Streets and Road, \$4,000; Library, \$3,000; Fire hydrant rental, \$5,820; Interest and sinking fund, \$22,875; Cemetery, \$3,000; Fire department, \$1,400; Fire equipment, balance fire truck, \$2,500; Perks, \$400; Street lights, \$3,400; Unemployment relief, \$2,700; Gas tax, \$2,900; Business tax, \$1,200; Dog tax fund, \$30. The total of the estimated revenue of the city, \$62,725.

A communication was received from the Plattsmouth fire department notifying that August Kief had been selected as a member of the department, his name being confirmed by the council.

Communication was received from a group of the residents near 12th and Rock streets, asking for the installation of an electric street light. This was referred to the lighting committee for future investigation.

Mayor Lushinsky, chairman of the board of health, reported twenty-five cases of measles in the city.

Police Judge C. L. Graves reported that for the week of May 19th that there had been one arrest, the party to work out fine on streets.

The ordinance covering closing hours for liquor stores and beer taverns was ready for the second time and automatically laid over until the next meeting on June 13 when it will face final passage.

Councilman Tipples reported that most of the work ordered by the

council had been completed on the streets save a tile job. He also reported that the cleanup campaign had been very successful despite rainy conditions.

Chairman Comstock of the lighting committee reported that at this time there was a light located in the alley near the Bauer garage. The light would serve a larger number if placed on the west side of Seventh street and which was so ordered.

The lighting committee also recommended the granting of a street light at 9th and Tiner streets in the north part of the city where there is a territory inadequately served for light. This recommendation was adopted with Councilmen Puls and Webb voting no and Tipples, Tiekotter, Comstock, Rebal, Vincent, Schutz, Vroman and Gabelman voting aye. Mayor Lushinsky stated that the light fund was limited and the installing of lights could not be carried out in every case as the funds would not permit. He urged that councilmen discourage the requests for additional lights.

There was some discussion of the establishment of the nature trail park southeast of the city along the Missouri river and was referred to the city attorney to look up and see what could be done to aid the project.

The following claims were ordered paid by the council:

REVERSES RELIEF RULING

LINCOLN, May 27 (UP)—The Attorney General reversed himself today in ruling that it is immaterial whether or not the 12 months' county residence period required of relief applicants is continuous or separated by periods in which they received relief.

The attorney general's office previously held that the one year residence period during which the applicant must not have received relief shall be consecutive. Assistant Attorney General Edwin C. Vail wrote to County Attorney John Gewacke of Geneva "your interpretation is the more workable."

DENIES STRIKE CALL

OMAHA, May 27 (UP)—Emphatic denial of reports that a truck strike has been called for June 1 was made by representatives of truck lines and the truckers announced here today.

It was pointed out that the wage negotiations which have been in progress for a week had been postponed until Tuesday at the request of union leaders who wished to go to Minneapolis to attend the funeral of William Brown, slain president of the Minneapolis truckers union.

Federal Areas for Wildfowl Now Total 252

Bird Refuges Comprise 8,303,380 Acres Over Country—No Bird Census Possible.

WASHINGTON (UP)—The new deal has proclaimed its friendship for birds by increasing acreage set aside for bird refuges by more than 200 per cent, the department of agriculture announced.

The department's bureau of biological survey now has under its supervision 252 refuges comprising 8,303,380 acres. One June 30, 1933, there were 102 refuges comprising 2,455,422 acres.

No bird census has been possible, but observation at the principal refuges convinced survey officials that the bird population has increased by at least 25 per cent during the past five years.

Birds Reduce Insects

The birds, a valuable ally in farmers' battle against plant insects which annually cost many times as much in crop damage as the refuges cost to purchase. Bird refuges have been established in 40 states in the past five years.

Since Jan. 1 this year the department has purchased approximately 95,000 acres for establishment of six refuges in five states along the important flyways between Canada and the Gulf.

The largest of these was the Arkansas refuge, comprising 47,215 acres along the Arkansas-Texas border. Here ducks winter in great numbers and pelicans, herons and curlews are to be found.

The Lacassine refuge consists of 31,125 acres in Cameron Parish, western Louisiana, near the Gulf. It embraces a marshy tract that serves as a wintering ground for waterfowl, other migratory birds and wildlife.

Area in Lake Superior

The Huron refuge consists of two small islands in Lake Superior three miles north of the Marquette county, Mich., shore line. The area is a haven for gulls and shore birds, as well as for migratory waterfowl, which use it as a resting spot.

Two new refuges in Montana are within the breeding range of many species of waterfowl. The Black Coulee refuge consists of 1,140 acres in Blaine county and the Hewitt Lake refuge of 1,200 acres in Phillips county.

An addition of 10,544 acres was made to the Lower Souris Migratory Waterfowl refuge in North Dakota, said to be a popular summer home for many species of ducks and geese.

On the eastern coast of North Carolina, the Pea Island refuge consisting of 5,846 acres was added to the long barrier reef lying east of the coast and separating Pamlico Sound from the Atlantic ocean as a winter refuge for waterfowl and migratory birds.

PARTY DEPARTS TO STUDY TEXAS ROCK DRAWINGS

LUBOCK, Tex. (UP)—A party headed by Dr. W. C. Holden, dean and director of the archeological research of Texas Technological college, has left here to examine pictograph drawings on stone escarpments in western Ector county, Tex.

A recently discovered shelter rock near Blue mountain, on the southern edge of Llano Estacado, shows signs of ancient occupation to a depth of about 3 feet. Excavations may determine the relation of its occupants to those of Murrah Cave, located near the mouth of the Pecos river, which was explored by a Tech party last year.

RIGHT SONG IN WRONG PLACE

NIAGARA FALLS, Can., May 27 (UP)—"Now we'll all be singing No. 7 in our song books," the master of ceremonies told delegates to the Welland county Women's Christian Temperance Union convention.

The delegates rustled the pages of their books, then gasped. The song—No. 7—was "There's a Tavern in the Town."

"It was all a mistake," the master of ceremonies insisted.

FUNDS ARE RAISED FOR ADDITIONAL EQUIPMENT

As a result of fund-raising activities carried on last week on behalf of the Legion Junior Drum Corps, an amount of money sufficient to take care of the additional uniforms and musical instruments needed by the enlarged corps has been raised.

The first of these, a canvas of the business section by Treasurer Henry G. Soennichsen and H. L. Gayer of the committee, was productive of about \$150.

The two activities Saturday also brought in neat sums. Tag day was sponsored by the Junior Legion Auxiliary members, under the supervision of Mrs. Otto Keck, their adult counsellor, was very successful, a total of \$88.00 being realized. The girls started early in the morning and were on the street until late at night soliciting donations. The Drum Corps boys themselves entered into the spirit of the affair and made solicitations throughout the residential section of Plattsmouth. The spirit of the community was fine and their contributions were given freely.

The bake sale contributed by ladies of the community also did very well. With belated contributions still coming in, the amount realized has now reached \$40.75 and a few more yet to hear from. Mrs. Elmer Webb, Legion Auxiliary president had charge of this activity.

Uniforms have been ordered to outfit the additional boys in the corps this year, and musical instruments will also be provided from the money contributed for this worthy purpose.

It is hoped to have the uniforms here in time to be worn at their appearance at the Hamburg peony show Saturday.

FRANCE HUNTS TREASURE SHIP

PARIS (UP)—The French government is going treasure-hunting in the mud of the Seine in the hope of recovering a diamond necklace of Marie Antoinette's and the rest of a fabulous fortune in jewels and art works which legend says sank with the ship *Telemaque* in 1790.

Bids were submitted to the government on May 10 for the dredging of that part of the river around Quilleboeuf, near La Halle, where the *Telemaque* sank. The contract specifies raise, scarp, and pile away the wreck. The salvager, if successful, will have the right to all pieces of wreckage and machinery. The government reserves for itself "all precious objects, gold, silver, platinum, moneys, jewels and precious stones . . . and all things of historical or artistic value."

Fishermen and waterfront artists who haunt the quays at Quilleboeuf, where the Seine meets the Atlantic, are shaking their heads pessimistically. The story of the *Telemaque* and its legendary treasures has been told to them and their fathers for 150 years—how the *Telemaque*, laden with treasures, was caught in the teeth of a hurricane as it reached the narrow Quilleboeuf passage. Its gallant captain, a Britisher named Cumberland tried to force the passage but was caught in a tidal wave which swallowed the *Telemaque*, its passengers and its cargo, within 50 feet of the Quilleboeuf lighthouse.

Three attempts have already been made to raise the legendary treasure ship. The last was nearly fifty years ago, in 1842; the others were in 1837 and 1841. Only mud and rubbish were found.

SEEK COMMITTEE AMENDMENT

WASHINGTON, May 26 (UP)—Two new compromise amendments today intensified the senate struggle over a provision of the \$3,247,025,000 recovery bill redistributing public works administration loans and power projects.

The restriction, added to the bill by the senate appropriations committee would prohibit such loans to power projects which would compete with privately owned or operated utility plants.

Senator Francis T. Maloney, D. Conn., introduced an amendment designed to permit PWA to continue its present policy of grants and loans for power plants under certain conditions.

Senator Carl A. Hotch, D., N. Y., is drafting an amendment to permit continuance of the present policy unless private utilities agree to reduce rates to those that the municipality could establish on basis of estimated investment.

Eighth Graders Tell of History of Plattsmouth

Promotional Exercises Based on This Interesting Historical Detail—83 Students Promoted.

From Thursday's Daily—The high school auditorium was filled last evening by a very interested audience to witness the promotional exercises of the eighth grade of the city schools, some eighty-three young people being promoted into the high school.

The program was built around the story of Plattsmouth and many phases of the history and development as well as the industries of the city and public institutions were given very ably by the young people and showed study and interest in the preparation of the theme.

The musical section of the program showed the exceptional talent that the members of the class possess and which they have developed splendidly and give bright promise for a strong musical section in the high school.

The program given was as follows: Miss Helene Perry, director of original orations; Miss Lois Brandhorst, director of girls' music; Lee Meyers, director of boys' music.

APPRECIATION

For five years the writer has served in the capacity of chairman of the flower show committee of the annual spring flower shows, sponsored by the Garden club of Plattsmouth, Nebraska, and he wishes to express his sincere appreciation of the fine spirit of those who have exhibited flowers in each of the five spring flower shows. The writer desires to express his appreciation of the co-operation which has always existed between the Plattsmouth Garden club and the flower show committee.

The writer also wishes to express his sincere appreciation to each and every member of the flower show committee and to the persons who have served on the committee in the five successive years for their co-operation and for their sincere effort to present a worthy show to the people of Plattsmouth and vicinity, as well as the country surrounding. And the writer wishes to express his sincere thanks to each and every member of the flower show committee. It has never been my pleasure to work with a more sincere, faithful group of people than those who have from year to year, and each year been members of the flower show committee.

The writer has given his time, his energy, and the best efforts of the community on five successive years, and he desires now to say to all, that he shall retire permanently from carrying the burden of the responsibility of attempting to produce something artistic and cultural for the betterment of the entire city.

I therefore, desire to express my sincere thanks to one and all.
