## HELP KIDNEYS

To Get Rid of Acid and Poisonous Waste

Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered, and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.

Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.

You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all mixed up.

In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doan's Pills. A multitude of grateful people recommend Doan's. Ask your neighbor!

INDIANAPOLIS, Ind., June 17 (UP)—Fred Hawley of Laurens, Ia., chairman of the Iowa farm tenancy committee delivered the principle address at the foundation of civilization is contentment, and security in the home is one of the greatest factors in contentment.

Forty agriculture leaders from Ia., Missouri, Illinois and Ohio were attending the conference.

"There are approximately 2,865,000 farm tenants in the nation" Trent said "but, that fact is not half so alarming as the knowledge that nearly one-third of these tenants rarely remain on the same farm more than one year. Our job is to begin formulation of some plan to reduce this evil."
