### A Real Farm Paper

C ....

Is read by farmers and stockmen. It is a class publication "t carries live stock advertising. And the volume of this advertising indicates its circulation and standing among farmers.

This test is unfailing. The average farmer is conservative. He is not a speculator and he is not easily stampeded. When he spends his money to advertise his pure-bred cattle, horses, sheep, or swine, he demands results. He selects a farm paper that is read by farmers.

There are many fake farm papers. They may fool advertisers, but they do not fool the farmers. They have plenty of fake advertising, but no live stock advertising placed by real farmers.

## **By This Test**

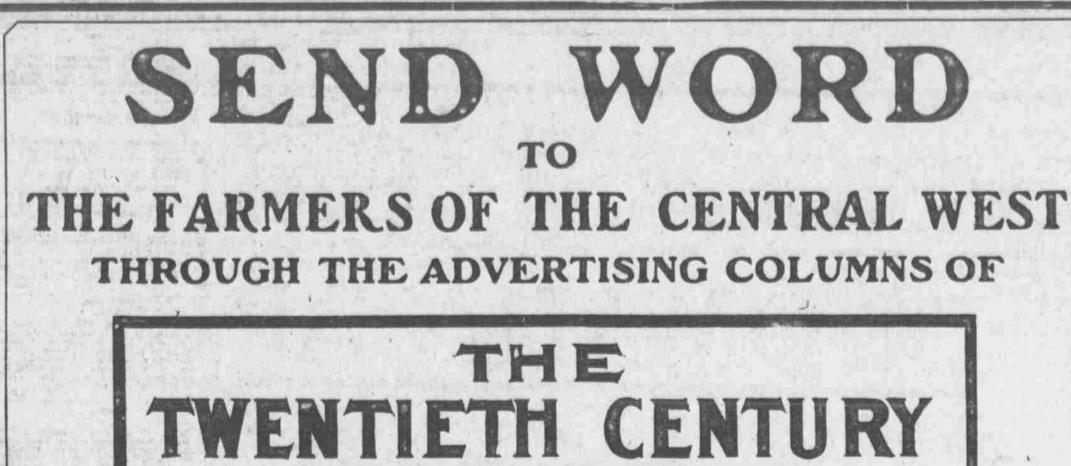

THE TWENTIETH CENTURY FARMER makes good. Nearly two hundred farmers and stockmen are advertising in each issue. Their business shows an increase of more than 50% over last year.

In the months of October, November. December, January Fobruary and March the live stock advertising in this paper ran up to nearly 500 inches. in each issue. It filled nearly eight pages of space. Most of this farmers advertising stays in the paper the year 'round.

This means something. It means a great circulation among the best class of farmers and stockmen in the west. . It means that THE TWEN-TIETH CENTURY FARMER is a real farm paper, read by real farmers.

## 65,000 Paid Subscribers

The subscription list of THE TWEN-TIETH CENTURY FARMER is a paid list, and 65,000 farmers are paying one dollar a year each for the paper. There is no free list except to advertisers. Thirty subscription solicitors are now at work in Nebraska, Iowa, Missouri and Kansas. They work at all the big fairs and live stock shows in the central west, during the fall. At other seasons they work through the country, in small towns and at stock yard points. Each new name added to the list means a dollar paid for one year, or 50 cents for six months. We do not get subscribers through guessing contests, or fake-schemes. The list is growing at such a rate that we can safely guarantee from 70,000 to 75,000 by January 1st, 1908, but there will be no advance in rates. Write for sample copy and advertising rates.

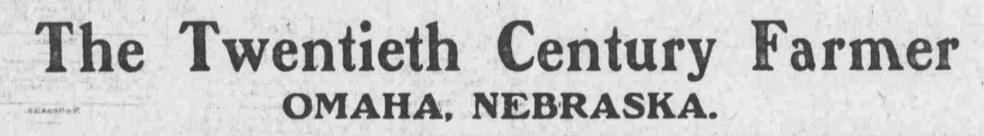

It is today the greatest selling agent in the Trans-Mississippi country for the manufacturers of farm machinery, for real estate, for mail order goods of any description, for anything, in fact, sold to farmers and stockmen, or to the women folks in the country home. There never was a time in the history of the west when our farmers were so prosperous. They all have money in the bank and they are enjoying not only the comforts but the luxuries of life. They buy pianos, automobiles and diamonds, to say nothing of the thousand-and-one necessities of life. And they are peculiarly susceptible to advertising for many of them live remote from cities and towns. They buy largely by mail and only a few people in the cities realize what a large volume of business is handled for farmers through the post offices and the express companies. Especial attention is called to the demand for cheap land in the west, southwest and in Canada. Thousands of farmers are selling high priced land in the Mississippi and Missouri valleys and are buying cheaper land farther west.

FARMER

# **REAL ESTATE DEALERS**

Should not overlook this opportunity to send word to the 65,000 farmers who read The Twentieth Century Farmer. Why not tell them what you have to sell? Why not send in an order for a combination ad. for The Farmer and The Daily Bee? One will reach the people on the farms of the west; the other covers the cities and towns of Nebraska and western Iowa like a blanket. The rates are low. Write for full information. We will co-operate with you in every practical way to secure results.

## Letters From **Our Advertisers**

You cover a very desirable section most thoroughly, and our clients are universally satisfied with results; In fact, we do not know of a single instance last year when your paper did not "make good" for us. It is a pleas-ure to send your advertising, because you make it a profitable investment for our clients.

White's Class Advertising Co. Chicago, Ill., Jan. 23, 1907.

Greater results have been obtained from the advertising given you than from any other paper we have used. Shields-Beggs Land Co. Ft. Morgan, Colo., Nov. 2, 1906.

Your paper has always paid me and you will get as much of our advertising as any western farm paper.

M. M. Johnson, Incubators. Clay Center, Neb., Dec. 12, 1906.

Your paper is certainly O. K. Our copy appeared in over 200 agricultural papers and inquiries averaged in cost a triffe over 2 cents each.

St. Louis Seed Co. St. Louis, Mo., Oct. 24, 1906.

I consider your paper the greatest selling agent I have ever tried. Orders are coming in as fast as I can fill them

A. J. Kennedy, Washing Machines. Omaha, Neb., Aug. 1, 1906.

We are having very good business this winter and have had many inquiries from your paper.

A. B. Holbert, Horse Importer, Grealey, Ia.

Please stop our ad and send us the bill. We are well satisfied with results and will send you more soon, undoubtedly.

Phillips & Wheeler, Land, Cottage Grove, Ore.

Enclosed you will find draft for advertisment. It is doing the business. M. M. Johnson, Incubators, Clay Center, Neb.

Here is what the Monitor Drill Company of Minneapolis, Minn., wrote us ast winter:

"We have received nineteen replies to our first advertisement of January 3d, at a cost of 29 cents each, which is not bad."

Here is what the Lininger Implement company of Omaha, one of the largest wholesale implement dealers In the west, said in a recent letter:

"After a thorough experience in advertising to reach the trade in the vicinity of Omaha, we have come to the conclusion that the best returns come from The Twentieth Century Farmer. We have decided to drop our outside advertising and make a year's contract with you for space. We have had big sales in the vicinity of Omaha, but also have inquiries from Maine to Texas and recently sold quite a bill of goods, through a Twentleth Century ad. to a party in Kentucky."
