

GRAIN AND PRODUCE MARKET

All Cereals Open Weak and Hit the Toboggan.

EXPORT BUSINESS IS SLOW

Foreign bids are lower and have their effect on the domestic situation.—Crowd is fearful.

OMAHA, Oct. 17, 1907. All grain opened on a decline. Export business was slow and foreign bids were lower and had their effect on our domestic market. Wheat started early on the decline, with every commission house holding selling orders and cables coming in steadily. The crowd was bearish and worked hard for a decline. Commission houses were open in the afternoon and several notches were gained. Selling was general at the start and lots of long cords were rushed out. December corn opened at 66 1/2 cents at 66 1/2 cents and 66 1/4 cents.

Primary wheat receipts were 1,100,000 bu. and shipments were 800,000 bu. against receipts last year of 1,600,000 bu. and shipments of 800,000 bu. Corn receipts were 800,000 bu. and shipments were 600,000 bu. against receipts last year of 1,200,000 bu. and shipments of 1,000,000 bu.

Wheat: Dec... 97 1/2... 97 3/4... 97 1/2... 97 3/4... Corn: Dec... 66 1/4... 66 1/2... 66 1/4... 66 1/2...

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Oct. 17.—Prices on the wheat exchange here today were generally lower than those reported from the board of trade yesterday. At the close of the day's trading a sharp decline in wheat, corn and provisions was noted. Wheat was off 1/4 cent, corn 1/8 cent and provisions 2 1/2 to 3 cents.

The wheat market was extremely weak all day because of aggressive selling by local and outside longs. Prices declined about 1 cent, but were held in check by a sharp decline at all of the principal grain centers of Europe. As trading progressed the market became more active, but a bank failure in this country, the suspension of an influential concern in Germany, and an influential appropriation for foreign grain markets tomorrow, following the slump today in this country, were the principal factors causing the persistent selling. A break of nearly 60 per bushel in the price of wheat at Winnipeg, following the closing of the local market, inspired additional sales on the local exchange. The fact that no acceptances of American wheat for shipment abroad were reported by exporters except for a moderate quantity at Duluth, was a further aggravation of the bearish feeling.

Provisions were easier because of the weakness of grain. Trade was only moderate. Lard was down 1/2 cent, at 24 1/2. Ribs were 5/16 cent lower, at 46 1/4.

Estimated receipts for tomorrow: Wheat, 1,000 cars; corn, 350 cars; provisions, 1,000 head.

Leading futures ranged as follows: Wheat—December, 97 1/2; May, 97 1/2; July, 97 1/2.

Corn—December, 66 1/4; May, 66 1/4; July, 66 1/4.

Lard—October, 24 1/2; May, 24 1/2; July, 24 1/2.

Ribs—October, 46 1/4; May, 46 1/4; July, 46 1/4.

Provisions—Short ribs, sides, 60 1/2; long ribs, 60 1/2; corn, 66 1/4.

Estimated receipts for tomorrow: Wheat, 1,000 cars; corn, 350 cars; provisions, 1,000 head.

Leading futures ranged as follows: Wheat—December, 97 1/2; May, 97 1/2; July, 97 1/2.

Corn—December, 66 1/4; May, 66 1/4; July, 66 1/4.

Lard—October, 24 1/2; May, 24 1/2; July, 24 1/2.

NEW YORK STOCKS AND BONDS

NEW YORK, Oct. 17.—The halting and irregular movement of prices of stocks today offered a confused picture through which it is difficult to discern any definite trend towards the market. During the early part of the day the market was more active, but later, with the subsidence of activity, there was still a general apprehension that was not yet clear in the tone.

The collapse in the United Copper stock in the early part of the day was followed by a sequence from that event were the central influences, as they were yesterday. In the afternoon the market became more active, but later, with the subsidence of activity, there was still a general apprehension that was not yet clear in the tone.

The announcement that stock sheets had been passed through the stock exchange clearing house relieved the market from the appearance of greatest depression. Some of the stock sheets were apparently due to the covering of some heavy short lines of stocks and buying for the long account of the market.

The market was generally quiet, but there was a general apprehension that was not yet clear in the tone. The market was generally quiet, but there was a general apprehension that was not yet clear in the tone.
