

DANGER IN OVERCONFIDENCE

Chairman Hayward Sends Warning to Nebraska Republicans.

ALL SHOULD VOTE AT ELECTION

Necessity for a Rousing Old-Time Majority is Pointed Out by the Leaders in the Present Fight.

(From a Staff Correspondent.)

LINCOLN, Oct. 26.—(Special.)—"Every republican in the state must get busy and work from now until election and then go and vote." That is what Chairman Hayward is trying to impress upon the members of the party. The only danger to the ticket, Mr. Hayward says, is overconfidence, and he desires to impress upon the members of the party and on the people who believe in the policies advocated and put into practice by the last legislature, the necessity of being up and doing. He will not claim the victory until the votes are counted and he wants it understood the recent overwhelming majorities received by republican candidates is no indication of republican success this year unless the same enthusiasm is shown and the same zealous work is done by the individual members of the party.

While it is true the democrats have practically no organization and the fact is known that the democratic chairman, Tom Allen, is hand and glove with the railroads and other corporations, it is not trying to capture the state government. Chairman Hayward says the strength of the railroad machine is unknown and therefore the republicans must fight as though the old machine was as strong as in the old days.

Senator Norris Brown is here today en route to the northwest to make speeches. He said: "The state is going for Reese more than 20,000 majority, but the republicans must keep on fighting. It will not do to lose any of the ground which has been gained. The party organization must be kept strong for next year. Every republican should take special interest in assisting in the election of the present state ticket and the majority should be a record-breaker."

Congressman Pollard, who is making some speeches in Lancaster county, called at headquarters this morning and reported splendid meetings where he had been.

Dates for Anderson.

The Republican State Central committee has arranged for meetings in which C. B. Anderson will take part as follows: With Senator Burkett—At Blue Springs, October 28 at 8 p. m.; at Clark, November 1, at 8 p. m. With Congressman Norris—At University Place, October 29, at 8 p. m.; at Ord, October 30, at 8 p. m.; at North Loup, October 31, at 8 p. m. With Congressman Hinshaw—At York, November 2, at 8 p. m.; at Aurora, November 3, at 8 p. m. With George Copeland and Governor Sheldon—At Council Bluffs, October 29, at 8 p. m.; at Fremont, October 30, at 8 p. m.; at Geneva, October 31, at 8 p. m.

Editor and Express Company.

C. B. Edgar, editor and publisher of the Lincoln Star, has filed a complaint against express companies in general which has struck a tender spot in the hearts of the railway commissioners. The newspaper man tried to express some clothing to St. Joseph, he making the trip himself at night from Lincoln. The next day the clothing failed to show up. Just what the newspaper man did he does not say, in his letter, which is as follows:

LINCOLN, Neb., Oct. 26.—Honorable State Railways Commissioners: I enclose herewith a certain abuse practiced by the express companies, which would certainly be of great benefit to the public if it were stopped. It is this: Express companies are in the habit of taking packages for delivery at appointed places where they have no office. Very likely they take these packages from the people who have them, and in other cases they steal them from the rival company. In these instances there is a very great delay in getting the packages to the roads, and probably, although I am not sure, it also causes an increased cost to the shipper.

A case in my experience will illustrate how this practice works. I left at the office of the Lincoln hotel a package containing wearing apparel, which was needed the next day in St. Joseph. I myself addressed the tag and called on the express company. The Adams Express, which runs direct to St. Joseph, arrived at the hotel at night. After considerable investigation I found the Adams Express company had called for and obtained the package. This was on Wednesday afternoon, October 18. The package was delivered at night, from Lincoln, until Saturday, the 19th, whereas the Adams would have delivered it on the morning of the 17th. The Adams went by way of

Food Poisons

90 Per Cent of All Diseases the Result of Undigested Putrefying Foods.

Men of affairs, women of society and children with their parents, are all equally sedentary in their habits, giving little time to exercise. To this evil is added that of high and irregular living—as a result, the stomach cannot stand the demands made upon it. The abused and overtaxed stomach does not properly do the work of digestion, food taken in ferments and the poison permeates the whole system. The body loses in weight and becomes a prey for the attack of whatever disease it may encounter.

Did I ever occur to you how busy that stomach of yours is? It only holds three pints, but in one year you force it to take in 3,600 pounds of material, digest it and prepare it for assimilation into the blood. No wonder it rebels when overworked. We crowd it with acids and poisons, irritate its juices with spices and acids, and expect the stomach to do its work. It can't do it.

All over the inner layer of the stomach are glands which secrete the juices necessary to digestion. The entrance of food into the stomach is the signal for these glands to do their work. The more the food, and the more indigestible, the greater the demand upon them and upon the muscles of the wall adjoining.

Think of the tons of high-seasoned game, sweetmeats and appetizers crammed into this little four-ounce mill, and then wonder, if you will, why you are dizzy or nauseated or constipated. Don't blame your stomach or curse your fate that you should be born so unfortunate. Blame yourself and apply the remedy.

First, get a small package of Stuart's Dyspepsia Tablets, taking one after each meal and at bed time. They are not a medicine, but a digestive. Your stomach is worn out, not needing medicine. Stuart's Dyspepsia Tablets will do the work that the stomach fails to do. There's enough power in one grain of Stuart's Dyspepsia Tablets to digest 2,999 grains of ordinary food, so you needn't fear that a single tablet will remain in your stomach undigested.

Stuart's Dyspepsia Tablets will rouse the poison because they remove the cause—food fermentation. They are nature's own cure for dyspepsia. The host of ironical dyspepsia is father of cannot be numbered, for a healthy stomach is the source of all health.

Seize your opportunity before worse conditions confront you. Send today for a free trial package of Stuart's Dyspepsia Tablets. They will bring your stomach roused. J. Stuart Co., 129 Stuart Bldg., Marshall, Mich.

Fremont and Omaha, where they transferred to learn, to the Adams. They did not get to Omaha until the morning of the 17th, when it would have been by the Adams Express company, in St. Joseph. The package was not delivered by St. Joseph until Saturday, the 19th, three days after they left from the hotel. Found on the tag was gone, and in place of it, an American Express company tag, on which the name and address had been copied. The delay caused great inconvenience and disappointment, and was entirely unnecessary. Under the circumstances, it is to be hoped they do not run direct to points where they do not run direct. Yours truly, C. B. EDGAR.

NEBRASKA'S PRODUCTION OF OATS

Fifty-Three and a Half Million Bushels for the Year.

(From a Staff Correspondent.)

LINCOLN, Oct. 26.—(Special.)—Land Commissioner Ryder has issued the following compilation of statistics of the Nebraska 1907 crop:

Table with columns: County, Acreage, Average Yield, Production. Lists counties from Adams to York with their respective statistics.

The state total is 53,454,000 bushels.

Cremeries Case Testimony

More testimony was taken this morning in the case where the creameries are asking the state railway commission to compel the railroads to furnish them better service. The testimony was practically the same as that taken yesterday, witnesses declaring they were unable to get cream shipped delivered within a reasonable time and specified instances were shown where cream had been kept on the platforms of stations until it had deteriorated in value. Adjournment was taken at noon until 8 o'clock Monday morning. The railroad men evince a desire to get out of hauling cream at all, claiming it does not pay at the prices charged the creameries.

Up to date Chairman Winnett and Member Clark have not passed upon the agreement between Commissioner Williams and the engineers and conductors of the Missouri Pacific to modify the recent speed limit order issued by the board. Commissioner Williams recommended the order be made and then agreed to its being modified. The other two members have come to the conclusion that a little more time had better be used before any further action is taken.

Thayer Monument

The unveiling of the memorial monument to the late General John M. Thayer, Nebraska's distinguished soldier and public man, will occur at 2:30 tomorrow afternoon at St. Joseph. The last legislature appropriated \$125 for the erection of the monument and the old soldiers were active in the movement.

Governor George L. Sheldon is expected to be present on that as master of ceremonies. The following program has been mapped out for the occasion:

Invocation, Rev. J. W. Jones, pastor Grace Methodist Episcopal church. Song by quartet. Reading of a monument by William M. Gillespie and Wesley Barr, First Nebraska Regiment. Address, General John C. Cowin, Omaha, Neb., America, by the audience. Benediction, Rev. J. M. Michel, chaplain Farragut post No. 25, G. A. R., Lincoln, Neb. Taps by O. C. Bell. Save Your Leaves.

The sight of people working overtime, tired husbands and others, raking and burning leaves, has stirred Prof. Bessey to action. He said:

"Whatever you do with your leaves, don't burn them. You might as well burn your dollar bills, for leaves are worth dollars if rightly handled. The falling of the leaves has again started up the annual waste of raking them up and burning. Leaves contain much valuable plant food. Leaf-mold added to the soil will enrich it. The reason the soil is rich is that year by year the leaves have been allowed to fall to the ground and decay there, adding their substance to the soil. If we went into the forest and raked up the leaves, taking them away, the forest soil would be as lean as that of the open ground. Fortunately we have not yet begun doing such a foolish thing. But we are wasteful, to say the least. We rake off the leaves from our grounds so that not a leaf is allowed to add its decayed substance to the soil. We expose the soil and soil to the dry air of the fall and winter by removing the leaves. This dries out the soil and makes it so that wonder is that more of our grasses and other plants do not perish from drought. Why should we not allow the leaves to remain on the ground? The first rain will beat down most of them into the grass, and there they will stay until rotted, which will be the case by next spring. I fear that it is hopeless to urge people not to rake their yards. Everybody does it, and it is not to do what everybody does would be quite impossible. So I suppose we will rake off the leaves, in spite of the fact that we ought not to do so."

Mormon Missionaries Are Active

WEST POINT, Neb., Oct. 26.—(Special.)—Several Mormon missionaries have made West Point a base of operations for the spread of their faith. It would be hard to find in the state of Nebraska a more unpromising field for missionary effort than the city of West Point, the population being confined almost altogether to the sturdy, stolid children of the German fatherland, whose education and training preclude their forsaking the faith of their fathers and the last people on earth to follow strange gods. In spite of the unfruitful field the so-called missionaries are making strenuous attempts to convert the people. So earnest are their efforts that the local Protestant clergymen have united in a signed warning to their parishioners, published in the local newspapers, advising them to avoid the errors and fallacies of the new religion and exposing some of its inconsistencies.

Jailer's Sons Prevent Jailbreak

YORK, Neb., Oct. 26.—(Special.)—Claire, who is charged with preventing a jewelry man's trip from the depot, came near making a get-away from the county jail Friday day evening. Had it not been for Jailer Ilgenfritz's two sons, who happened to be in the building and heard the commo-

tion, he would have escaped. Jailer Ilgenfritz had carried in Claire's meal and set it down on the table, standing between the prisoner and the door. While in the act of setting the meal on the table the prisoner rushed past and ran out of the court house in a hurry. Claire, who was in two blocks he was caught by the boys. Claire is a Fremont boy and an escaped Reform school inmate, and has escaped nearly every sheriff and broken out of every jail in which he has been confined. The Burlington has been sued for \$100 loss by the jewelry salesman. Jailer Ilgenfritz proposes to keep his hearing and thinks he will have a hard time to escape.
