A Real Farm Paper

Is read by farmers and stockmen. It is a class publication it carries live stock advertising. And the volume of this advertising indicates its circulation and standing among farmers.

This test is unfailing. The average farmer is conservative. He is not a speculator and he is not easily stampeded. When he spends his money to advertise his pure-bred cattle, horses, sheep, or swine, he demands results. He selects a farm paper that is read by farmers.

There are many fake farm papers. They may fool advertisers, but they do not fool the farmers. They have plenty of fake advertising, but no live stock advertising placed by real farmers.

FARMER makes good. Nearly two hundred farmers and stockmen are advertising in each issue. Their business shows an increase of more than \$0 % over last year.

In the months of October, November, December, January Pobruary and March the live stock advertising in this paper ran up to nearly 500 inches in each issue. It filled nearly eight pages of space. Most of this farmers advertising stays in the paper the year

This means something. It means great circulation among the best class of farmers and stockmen in the west. It means that THE TWEN-TIETH CENTURY FARMER is a real farm paper, read by real farmers.

65,000 Paid Subscribers

The subscription list of THE TWEN PIETH SENTURY FARMER is a paid list, and 65,000 farmers are paying one dollar a year each for the paper. There is no free list except to advertisers. Thirty subscription solicitors are now at work in Nebraska, Iowa, Missouri and Kansas. They work at all the big fairs and live stock shows in the central west, during the fall. At other seasons they work through the country, in small towns and at stock yard points. Each new name added to the list means a dollar paid for one year, or 50 cents for six months. We do not get subscribers through guessing contests, or fake schemes. The list is growing at such a rate that we can safely guarantee from 70,000 to 75,000 by January 1st, 1908, but there will be no advance in rates. Write for sample copy and advertising rates.

SEND WORD

THE FARMERS OF THE CENTRAL WEST THROUGH THE ADVERTISING COLUMNS OF

THE TWENTIETH CENTURY FARMER

It is today the greatest selling agent in the Trans-Mississippi country for the manufacturers of farm machinery, for real estate, for mail order goods of any description, for anything, in fact, sold to farmers and stockmen, or to the women folks in the country home. There never was a time in the history of the west when our farmers were so prosperous. They all have money in the bank and they are enjoying not only the comforts but the luxuries of life. They buy pianos, automobiles and diamonds, to say nothing of the thousand-and-one necessities of life. And they are peculiarly susceptible to advertising for many of them live remote from cities and towns. They buy largely by mail and only a few people in the cities realize what a large volume of business is handled for farmers through the post offices and the express companies. Especial attention is called to the demand for cheap land in the west, southwest and in Canada. Thousands of farmers are selling high priced land in the Mississippi and Missouri valleys and are buying cheaper land farther west.

REAL ESTATE DEALERS

Should not overlook this opportunity to send word to the 65,000 farmers who read The Twentieth Century Farmer. Why not tell them what you have to sell? Why not send in an order for a combination ad. for The Farmer and The Daily Bee? One will reach the people on the farms of the west; the other covers the cities and towns of Nebraska and western Iowa like a blanket. The rates are low. Write for full information. We will co-operate with you in every practical way to secure results.

Here is what the Lininger Implement company of Omaha, one of the largest wholesale implement dealers in the west, said in a recent letter:

"After a thorough experience in advertising to reach the trade in the vicinity of Omaha, we have come to the conclusion that the best returns come from The Twentieth Century Farmer. We have decided to drop our outside advertising and make a year's contract with you for space. We have had big sales in the vicinity of Omaha, but also have inquiries from Maine to Texas and recently sold quite a bill of goods, through a Twentieth Century ad. to a party in Kentucky."

The river is very low at this point and the bar across the river from the water company's plant is getting larger every year on account of the riprap work done by the water company. If this riprap should go out it is very likely the intake for the water company would be a quarter of a mile inland, but the current has been held where it is now for several years past and there is not much likelihood of a change in the river as long as the work holds.
