### Marvel Furnace

Not a competition furnace or a furnace made to sell in houses built for speculation. But a heavy, durable, all-**WROUGHT IRON FURNACE** built to last a century. A furnace that will heat your house with a very small outlay for fuel. A furnace that costs you almost nothing for repairs.

**ONE DOLLAR** spent for fuel in our furnace will go as far as one-fifty in any other furnace ever made. There is a reason for it, a good, sensible reason, too.

Absolutely gas tight. Our price for the Marvel Furnace, set up ready to build a fire in, is only a few dollars more than what you would have to pay for a cheap, poorly made furnace.
