

GRAIN AND PRODUCE MARKET

Another Break Sets In Because Banks Raise Money Rates.

SMALL FAILURES HAVE EFFECT

Foreign Cables Come Much Lower and Europe Is Having Hard Time to Finance Grain Already Bought.

OMAHA, Nov. 8.—The market experienced another break this morning owing to the fact that the banks raised the rates and reports small failures through Europe. Europe's cables came much lower, and Europe is having a hard time to finance the grain already bought.

Wheat opened steady, but broke on news of lower receipts and the reports of higher bank rates. There was a turn later in the day, but closed steadily with good buying around the point of 64c.

Corn opened steady, holding well, and showed bullish tendencies. Buying was fair and scattered and reports are generally bullish as to shortage and returns.

Dwarf winter corn opened at 64c and closed at 65c.

Oats were weak at the start, being above where they closed last night. There wasn't much outside trade and the market was light. December oats opened at 46c and closed at 47c.

Primary wheat receipts were 654,000 bushels, and imports were 500,000 bushels, against receipts last year of 61,000 bushels and shipments of \$2,000 bushels.

Corn receipts were 185,000 bushels and shipments last year of 100,000 bushels against receipts of 350,000 bushels and shipments of 350,000 bushels.

Imports were 20,000 bushels of corn, more than twice as much and wheat and flour equal to 94,000 bushels.

Seaboard reported 33,000 bushels of wheat taken for export.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Nov. 8.—Another decline in wheat prices at Liverpool caused a break of almost 2 cents from the high point of the day. A large part of the loss was taken by the market, but the net loss on the December delivery was the same as on the December 1st.

Provisions were 20c lower.

Weather in the Grain Belt

Fair and No Special Change in the Temperature Saturday.

OMAHA, November 8, 1907.—A very decided fall in temperature occurred last night over the middle Rocky mountain slopes, the Missouri and upper Mississippi valley. Temperatures ranging from 19 to 27 degrees below zero general this morning over Nebraska and throughout the upper valley and northwest. Temperatures are higher in the west, especially during the day, but the weather is growing settled at the upper Atlantic coast, and the weather is growing settled in the eastern states. Clear weather prevails west of the mountains, but the weather is very light during the next three months.

The market opened rather weak because of the fall in temperature, but advanced to 6c lower at 8:30 a.m., and declined to 5c, and then to 5c.

The close was 5c higher.

Local forecasters said the market would show a gain yield than the previous figures. A general rush after the market closed at 5c, and really occurred late in the day on the reports that shipments of wheat from Russia will be very light during the next three months.

The market opened weak and unchanged to 5c lower at 8:30 a.m., and advanced to 5c, and then to 5c.

The close was 5c higher.

Chicago, Nov. 8.—Wheat, corn, oats, etc., were 20c lower.

Local forecasters said the market would show a gain yield than the previous figures. A general rush after the market closed at 5c, and really occurred late in the day on the reports that shipments of wheat from Russia will be very light during the next three months.
