APRONS--Holiday Line Now Ready...

Most women require aprons at some time of the day, in home or social or business occasions. Chiefly, of course, for protecting the dress, but there are pretty styles that really enhance the toilette, as when presiding at the chafing dish, or pouring tea. A good many gift possibilities among aprons for women, at home, at business, teaching, waitress or for maids. We'll box it for you if you wish.

There are dozens of styles in round or square ruffles and lace trimming, brocade and bib. Pretty lawn aprons for elderly women; small tucks and embroidery trimming.

Prices, from 25c to \$3.00

A Few Pretty Styles to be Seen in Our Corner Window.

Get Christmas Ribbons Now

There are many other pretty styles; too many to describe, all with dainty trimmings of lace, tucks, ribbons, etc.

Bed Comforters

Heavy covers are not only unpleasant to sleep under, but they are not warm. They are unhealthy. You cannot realize what a difference there is in bed comforters until you see ours, even the cheapest grades are soft and downy.

Cotton Comforters, covered with alkaline, full bed size, hand tufted with zephyr yarn, at \$1.25, \$1.50, \$1.75, \$2.00, \$2.25 and \$2.50 each.

Sateen covered, cotton filled, at \$2.50, \$3.00 and \$4.00. Wool Comforters at \$4.00, \$5.00, \$6.00 and \$6.50 each.

Down Quilts at \$5.50, \$7.00, \$10.00, \$11.50, \$12.50, \$15.00 and \$18.00 each.

The celebrated Marsh Comforters at \$3.00 and \$4.00 each.

The celebrated Merritt's Wool Comforters at \$2.00, \$2.50, \$4.00 and \$5.00 each.

Wooltex Coat

Each coat has perfect balance. Note how the front falls in an exact straight line--how close and true the collar sets. The Wooltex coat is the shoulderers slope up. Wooltex coat is the work of experts, and shows its effects in shapely appearance, without any of that wearing dragging, which tires the wearer so much in ordinary garments.

THOMPSON BELDEN & CO.

CURRENCY PREMIUM LOWER

Loans of Money in New York at One and One-Half Per Cent.

TWELFTH WARD BANK TO REOPEN

Issue of Treasury Certificates Has Had Beneficial Effect Upon the Finance of Entire Country.

NEW YORK, Nov. 19.--The Twelfth Ward bank, one of the institutions which suspended payment during the early days of the financial crisis, will reopen tomorrow. The premium on currency, which has been maintained at about 3 per cent since the hearing of money began a few weeks ago, has begun to diminish. Loans of currency were made today at rates ranging as low as 1 1/2 per cent. Bankers reported that the premium in a number of interior cities was either much reduced or had disappeared. The action was attributed chiefly to the arrangement for issuing treasury certificates and canal bonds.

Engagements of gold abroad for importation to relieve the financial stringency in the United States are nearing a total of \$75,000,000. Heindelbach, Kichelmeier & Co. and the Guaranty Trust company, both of whom have made large engagements since the present movement began, announced today that they had concluded negotiations, the former for an additional \$1,000,000 and the latter for \$500,000. This brings the total engagements to date to \$75,500,000.

PRINCE IS OPPOSED TO ISSUE

Congressman Declares It Merely Adds Interest Bearing Debt.

GALESBURG, Ill., Nov. 19.--Congressman George Pring, member of the house committee on banking and currency, in speaking today of the issuance of Panama bonds and debt certificates, said:

"We owe \$200,000,000 of interest bearing debt. We have today in the hands of national banks and drawing no interest for the government \$200,000,000.

"The present policy of the secretary of the treasury is to all intents in times of peace adding to the interest bearing debt of the people \$150,000,000. It is not justifiable under existing conditions. I think that the \$200,000,000 needed for the construction of the Panama canal should be taken out of the \$200,000,000 in the banks and not be raised by bond issue. As to the other \$100,000,000 which is proposed to be raised by debt certificates, I do not approve of the plan at all. First, because the money is worth 3 to 4 per cent interest and no one is going to buy a government note that draws but 3 per cent interest. Second, because the purpose of the 3 per cent note is to realize money from the sales of these certificates, the money arising from the sale to be deposited in the national banks. What does this mean? It means, if I understand correctly, that the people are to borrow \$100,000,000 and pay 3 per cent on it and hand it over to the national banks to be by them loaned, without a dollar's cost to them, to the people at the rate of 5 to 10 per cent, according to the rate where the banks are located."

NO PREMIUMS ON GOLD SOUGHT

American Smelting and Refining Company Rushes for Gold.

NEW YORK, Nov. 19.--Daniel Guggenheimer, president of the American Smelting and Refining company, in a statement issued here this morning that his company is cooperating with the government to meet the unusual demands for currency. He said that the plant of the company, which is being operated day and night to expedite the refining of gold and silver. Regarding the general attitude of the smelting company toward the money market, Mr. Guggenheimer said:

"The gold and silver produced by the American Smelting and Refining company has been running in excess of \$100,000,000 a year. For some time the refineries of the company have been running night and day to increase this production of gold and silver for the benefit of the government and the business of the country."

"The smelting company regularly deposits its gold product with the government daily and has not sought to obtain any premium on this product. In this matter we have pursued the same policy that we did in 1893. Then, too, there was a premium on currency, but we turned our government checks over to the banks and allowed them to collect the cash without trying to profit ourselves by the premium. It is right to do so, and the banks appreciate it."

Long Distance to Water.

MITCHELL, S. D., Nov. 19.--(Special)--After drilling for a year at Murdo, North Dakota, the water has been secured at a depth of 2,000 feet. Much to the disappointment of the Murdo people, the well is not a flowing one, and the water rises to within a foot or two of the top, but it is the best that can be secured at that point, for the reason that Murdo stands on a high spot, and the contractors find it impossible to go deeper. The town has been short of water ever since it was started several years ago, and this drawback has affected the growth of the place. The water can

RECOUNT LAW IS INVALID

Court of Appeals in Accord that W. R. Hearst Shall Have No Recount.

ALBANY, N. Y., Nov. 19.--The court of appeals today decided that the act passed at the last session of the legislature providing for a recount of the votes cast at the mayoralty election in New York City in November, 1906, is unconstitutional. The court was in accord in favor of William R. Hearst to unseat Mayor McClellan on the ground of fraud in the counting of the votes. The decision was unanimous.

EX-SENATOR GETS INDICTED

Man Accused of Bribery in Standard Oil Case to Stand Trial.

FINDLAY, O., Nov. 19.--The grand jury today indicted ex-Senator Thomas McClellan for alleged bribery in connection with the Standard Oil trial of last June. It alleged that McClellan was back of an attempt to bribe Juror Charles Thomson, who, as charged, was to get \$500 if he voted for acquittal.

be utilized only by pumping it over the town. Forty miles farther east, at Kennebec, a farmer secured a well with fifty pounds pressure to the square inch at a depth of 110 feet, that country being much lower than at Murdo.

MRS. BRADLEY TELLS STORY

(Continued from First Page.)

Brown's presence and it had been given the senator's name. He had wanted to get a divorce and marry her, she said, but she would not consent to break up his home and had tried to break the relationship, but he would not have it so and would frequently come to her saying she was the only bright spot in his life.

Intimacy Becomes Known.

Mrs. Bradley then told of the birth of her second child and of a criminal operation which she said had been performed in 1903 by Mr. Brown himself, after which she was very ill for two weeks. She declared she had not suggested the operation, but at that time the intimacy between them had become known and neither of them knew what to do. After this incident she said she was not well for a long time and her doctor had said she could not expect to be well. She had felt that it was very wrong, "but, oh, it is so hard to tell one's feelings."

Brown Fond of Oldest Boy.

Then she told of Mr. Brown's intellectual attainments and said that he completely dominated her. He had been very fond of her oldest boy, had often noticed his resemblance to himself and said of the boy: "I must make him a supreme judge of the United States."

FOR GOOD CITY GOVERNMENT

Noteworthy Gathering at Providence in This Behalf.

TWO SOCIETIES IN CONVENTION

National Municipal League and American Civic Association in Conference on Problems Affecting Cities.

PROVIDENCE, R. I., Nov. 18.--One of the most noteworthy gatherings in the interest of the science of city government ever held in America convened in this city today for the annual meetings of the National Municipal League and the American Civic Association, which this year, for the first time, are held jointly. The sessions are being held in the halls of Brown university and will continue until Friday.

The National Municipal League is holding its thirteenth annual gathering, while for the American Civic Association this week's session is the third annual convention and also comprises the fifteenth national conference for good city government. All the reform organizations of the larger cities of the country are represented at the sessions, more than 200 delegates being present.

Attorney General Bonaparte is president of the league, while the president of the American Civic Association is J. Horace McFarland of Harrisburg, Pa.

The objects of the two bodies, while harmonizing, are distinct. The National Municipal League looks especially to pro-

HILL ON RAILROADS

(Continued from First Page.)

the public mind, there will presently be no power short of a pledge to the credit of the government itself able to secure the funds necessary to provide more tracks. It behooves every business man to consider in a purely business way this business problem. For it is his problem. He individually will suffer if railroad construction does not keep pace with business growth. This is not a question of private opinion or of politics, but one that touches directly the welfare of all the people.

"It is necessary to this end that the operations of our railroads should be regulated properly by wholesome and fair laws; and quite as necessary that they should not be regulated improperly. Regulative statutes are no win force of such scope and stringency that no one denies their efficacy. It would be easy to multiply and add to their burdens that the confidence necessary to investment would be entirely destroyed, and the development of the country prevented.

"Business and Righteousness. "We have read of a conflict between righteousness and business. There can be no such conflict, unless there is fraud at the business or hypocrisy and cant at the righteous end. If any man has done evil, if any corporation is sinning against the laws, let him or it be punished under the

REESE HIGHER THAN LETTON

Republican Candidate for Supreme Judge Increases Plurality.

Official returns from all but eight counties, and unofficial figures from these, indicate that Judge Reese will have nearly 25,000 as a final plurality over Judge Letton.

On the tabulation given below, with official returns from Cheyenne, Deuel, Greeley, Holt, Keya Paha, McPherson, Thayer and Valley counties, the Reese plurality is 24,828. Judge Letton's official plurality over Hastings two years ago was 22,215.
