

GIRLHOOD TO WOMANHOOD

Lydia E. Pinkham's Vegetable Compound

ELLEN M. OLSON CLARA E. DARMSTADTER

The responsibility for a daughter's future largely rests with the mother.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in back or lower limbs, eyes dim, desire for solitude; when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, will at this time prepare the system for the coming change, and start this trying period in a young girl's life without pain or irregularities.

Miss Ellen M. Olson, of 417 N. East St., Kewanee, Ill. writes:—

Dear Mrs. Pinkham:— I have had the best doctors in our town for my sickness and they all thought that an operation was necessary. I had headache,

sideache, and my feet were so sore I could hardly stand. I took two bottles of Lydia E. Pinkham's Vegetable Compound when my periods were established and now I am perfectly well.

Miss Clara E. Darmstadter, of 453 Breckenridge St., Buffalo, N.Y., writes:— Dear Mrs. Pinkham:—

"For about a year, except during the past few months, I suffered with severe pains every month, with backaches and headaches. I had the blues so bad that I was in despair. It is a pleasure to tell you that Lydia E. Pinkham's Vegetable Compound has cured me. The change in my appearance is wonderful and I desire that this good may come to every sufferer. Any one desiring to know further details may write to me and I shall be glad to give them."

If you know of any young girl who is sick and needs motherly advice, ask her to address Mrs. Pinkham, at Lynn, Mass., and tell her every detail of her symptoms, and to keep nothing back. She will receive advice absolutely free, from a source that has no equal in the experience of woman's ills, and it will, if followed, put her on the right road to a strong, healthy and happy womanhood.

Lydia E. Pinkham's Vegetable Compound made from native roots and herbs cures where others fail.

LOVE OFFICER QUELLS ARMY

Sergeant Cook Captures Swarm of Bees Without Injury.

OTHER POLICE TAKE TO COVER

Expert Honey Man Merely Drums on a Box and Bees March in to the Strains of Music.

A swarm of bees took possession of the front of the police station. Brave officers who have faced every danger under the sun went to killing a large tree in the front yard. Entrances to the front door were not attempted. Windows that had been left up to admit the glorious Indian summer air were hastily closed.

Sergeant Cook has a reputation as a bee expert and so he was looked upon as the man of the hour. The sergeant agreed he was the man to cope with the situation, and as he laid aside his gun and buttoned up his coat to stroll forth again, a thousand bees Captain Dunn recited the following suggestive couplet from that popular classic, "Casey at the Bat":

But the sergeant was in no mood for levity and went about his work without deigning to reply.

Light on a Tree. By the time he got out where the bees were most of them had in a large tree in the front yard. The sergeant called for a saw and sawed off the limb which contained the most bees. When the limb came down he picked it up and shook thousands of bees from it and they swarmed around him so thick one could hardly see him for bees. He had procured a box, which he set on the ground, and when the bees began swarming he took a stick and drummed on the box. The bees began to lower and many flew to the ground and started into the box. Finally he had all of them in the box and was not stung once. He took them

home to add to his other colonies of bees. The sergeant has captured many swarms of bees in that manner. He started in last spring with three hives, from which he got sixteen hives and 300 pounds of honey besides \$22 prize money his honey won at the Douglas county fair this fall.

Numerous theories were advanced by the police as to why the bees did not sting Sergeant Cook. One man was mean enough to suggest that he didn't look good to them, another said they did sting him, but his hide was too tough to feel it.

On Foraging Scout. "The real reason is this," said the sergeant, "those bees had left home on account of the crowded condition of their quarters. First they sent a few scouts out to locate other quarters. When the scouts returned and was taking the whole colony to the new home. It was the old bees that left. The old queen cannot fly far and they were compelled to stop occasionally and rest. That's what they were doing there."

"Now the reason they did not sting me is this: Before they left their old home they all filled up with all the honey they could carry in order to stock up their new home quickly. Because of being loaded down with honey they were groggy and in no mood to sting."

Found on the Street. When you find something that doesn't belong to you it should be advertised in The Bee want columns. Pretty nearly everybody reads The Bee, and those who don't read it are not the ones who have valuable things to lose.

STRANGE HE CAN'T KNOW ALL

Women Think Postoffice Watchman Should Know Every Person Calling for Mail.

Two women, evidently strangers in Omaha, accosted Watchman Morse in the postoffice corridor early in the morning and wanted to know if he had seen Mr. Ellerson about there lately. Mr. Morse informed them he did not know any such person.

"Why, don't you know all the people who call for letters here? I thought that was what you were here for," said one of the women.

"Well, hardly," replied Morse. "About 10,000 people come in here every day, and I don't happen to know more than half of them."

"Well, that's strange. We have written to him two or three times within the last few months. I should think you would surely remember him."

FIREMEN UP ON THE CARPET

William Morse Charged With Deserting Both His Duty and His Family.

Fireman William Morse is called upon to answer the charge of desertion before the Board of Fire and Police commissioners next Monday night. He was charged with being absent without leave by the chief of the department, who further states that his wife does not know where he has gone. William Gorman, charged with reporting the duty under the influence of liquor, and M. J. Cuff, charged with being intoxicated while in uniform, will face the board at the same time.

The chief of police reported that J. Ferrer had been arrested Sunday by Officer Woodbridge while in the act of selling beer and the report was placed on file to be taken up when Ferrer asks for a license. Fireman Haman reported that he was injured while on duty at the house at Twenty-seventh and Jones streets, but the chief said that he had failed to tell the officer of the injury when he took sick leave and further investigation was ordered. Lieutenant Greenman and Fireman Nichols were granted pay for time lost while being treated for injuries received at the Pastner fire.

The fine of Fireman Mitchell was reduced from \$5 to \$3. He was convicted last week of being asleep while on duty. The salary of A. J. Shields, acting clerk of the board, was increased \$5 a month on account of extra work with liquor license applications. Acting Mayor Johnson sat with the board in the absence of Mayor Dahlman, who had not returned from the meeting of the democratic national committee.

PREPARE FOR LINCOLN DEBATE

High School Holds Preliminaries to Select Team for Winter Contests.

At the high school Monday afternoon the preliminaries were held to select a team to debate Lincoln this winter on the question, "Resolved, That Japanese immigration should be restricted by the same laws as the Chinese immigration." In spite of the many other interests in the school at this time seven boys tried for the honors. Harry Drucker, Harry Kenner and Gilbert Barnes were chosen to constitute the team, with Walter Bernides as alternate. The other contestants were Edwin Rosenberg, Hiram Salisbury and David Brodsky. Mr. E. F. Denton of the Young Men's Christian association presided and Mr. Woolery of the faculty was timekeeper. The judges were the Perry Wheeler of the South Omaha High school, C. B. Call of the Young Men's Christian association and E. H. Orchard of the local high school faculty. After each speaker had talked six minutes, the time allowed, and the judges had retired to select the winner, the students of the school were organized into a debating society, the debaters and Omaha's chances of defeating Lincoln, which seem very good.

When Mr. Orchard announced the decision of the judges, the many students present showed their enthusiasm by loud applause. The mothers of the team were kept busy receiving congratulations for a long time after the meeting was over.

GREAT MAN OF A GREAT AGE

Dr. D. F. Fox Delivers an Interesting Lecture on "Walter Raleigh."

The hearts of the projectors of the Barock class entertainment course of Hancock Park Methodist Episcopal church had every reason to be glad Monday evening in the hall of the church, when Dr. D. F. Fox, first number of the series, and the excellence of the lecture by Dr. D. F. Fox, pastor of California Avenue Congregational church of Chicago.

The theme of Dr. Fox's address was "A Noble Career," he called the attention of his audience at the outset to the great century from 1450 to 1550, known as the Elizabethan era of England and of the world in general, which produced such immortal characters as Copernicus, Savonarola, Raphael, Gutenberg, Cassini, Luther, Columbus, Spencer, Johnson, Shakespeare, Cervantes, and the neglected cavalier, Sir Walter Raleigh. After paying merited tributes to the greater character of religion, art and literature of that century, he dwelt at interesting length upon the achievements of Raleigh and what he had accomplished for the world. He referred to him as a man of many great attainments, in all of which he shone with brilliance. He was a punctilious gentleman, a statesman, soldier, explorer, and the first colonizer of America, and the first of the Anglo-Saxon race who foresaw the mightiness that was yet to come from that then great unknown continent.

ROAD COSTLY TO SHIPPERS

Kansas City and Omaha Burlington Branch Accused of Inflicting Injurious Rates.

Considerable agitation has arisen over the rates the Burlington maintains from that part of its system known as the Kansas City & Omaha line, top points of the line, and the people living on the branch think the purchase of that line by the Burlington is proving an expensive luxury. This branch, which runs from McCool Junction to Alma, was bought by the Burlington about seven years ago and the system of rates was changed to give an advantage to all points on the Burlington system instead of to St. Joseph and points on the St. Joseph & Grand Island, of which system that road was formerly a part.

MOTOR CAR FOR SHORT LINE

McKeen Product Will Be Used from Tekamah to Decatur, Says Bartlett.

Judge E. M. Bartlett has gone to Tekamah, where important meetings of the proposition of building a railway line from Tekamah to Decatur, a distance of seventeen miles. "We had that proposition up about five years ago," said Judge Bartlett, "and different sections voted bonds for the road. Investigation, however, proved it would be entirely too expensive a proposition for an electric line with all the power plants and poles. Now that the McKeen motor car has been perfected we think the problem is solved and another company is being formed to build the line. The country between Tekamah and Decatur is quite low and was at one time valueless for farming, but a system of drainage and tilling has changed this and it is one of the best farming sections in the state."
