Trotting Association Finds That Animal That Won \$10,000 Was Four Years Old Instead of Three.

CHICAGO, Dec. 5 .- The American Trotting association ended its semi-annual meeting here today and handed down decisions in some 150 cases involving alleged attempted fraud in harness races. Many of the protests came from the Canadian northwest and others from as far east as West Virginia. The majority of the cases, however, originated in Illinois, Indiana, lows and other middle west states.

The most prominent case was that of Manager H., a pacing horse which raced as a 3-year-old in Illinois and Iowa last season. He won the 3-year-old pace at Davenport, Ia., August 20; at Dubique, Ia., August 30, and at Milwaukee, Wis., Sepember 10. His winnings aggregated \$10,000, but this money must be returned to the various racing associations by his owner, Dr. W. B. Hawkey, Belvidere, Ill., the association deciding that the horse is in fact a 4-year-old.

The association authorities were unable to unravel the mystery attached to the horse John Martin. R. F. Dygert of Springville, N., Y., or Phillipsburg, Kan., was suspended until the money won by John Martin is returned and the horse properly identified, C. E. Nelson, Phillipsburg, Kan., who was involved in the case, was exonerated.

Smathers Will Keep Cup. NEW YORK, Dec. 4 .- The board of review of the National Trotting association today considered a number of applications for removal of penalties visited upon horses, owners and drivers for offenses of various character upon the tracks under the association's control.

So far as the board is concerned final action was taken today in the famous Memphis gold cup case.

After an investigation the board decided without further consideration to drop the case against Millard Sanders, trainer of Lou Dillon, which it was for many months alleged was "doped" sufficiently to cause her to lose the famous race at Memphis on October 18, 1904. The \$500 gold cup was won by Major Delmar, owned by E. E. Smathers. C. K. G. Billings, owner of Lou Dillon charged that his mare had been "doped." Testimony was presented to bear out this theory, but it was determined by the board that there was no evidence to show that Lou Dillon had been "doped" and that Smathers could retain the cup.

"Eddie" Molloy, a stableman, testified that he had seen Sanders give something to Lou Dillon out of a bottle. George Spear, former trainer for Smathers, and Ed Sanders, a stable hand, and brother of Millard Sanders, were both expelled for their connection with the case. The board in its present decision could not find that Millard Sanders was in any way cognizant of or connected with the dosing of the famous trotter, now a brood mare.

Drake Would Extend Time.

DES MOINES. Dec. 5.—(Special.)—The Drake university faculty in control of athletics is expected to make several radical recommendations to the lowa colleges at their amual meeting in Des Moines this winter. Among the most important of these is the extension of the playing life of foot ball men from three to four years, provided they continue work in one of the graduate colleges, and the abolition of the one-year residence rule in base ball and basket ball. Drake is willing to retain the one-year residence rule in foot ball, but believes that the candidates should be allowed to play for three years, anyway, provided they continue their work in the graduate colleges. Four years is favored as against three. It is not known whether Drake Would Extend Time. provided they continue their work in the graduate colleges. Four years is favored as against three. It is not known whether the lowa College association will endorse the position taken by the Drake authorities or not. For the last two years the trend in Iowa has all been the other way. The State Normal college and Simpson college have abolished foot ball completely. For these reasons it is not expected that the four-year rule will be adopted on Drake's recommendation, though it is possible that graduates in the graduate colleges will be permitted to play provided the western conference agrees. The Mississippi Valley conference will undoubtedly exert its influence to compet the adoption of the Big Eight eligibility rules throughout the Missouri valley and this is expected to hurt the Drake innovation.

Hal Chase has decided to be good and abide by the ruling of the base ball commission. Chase, after a long conference with Frank Farrell's California agent, sent word to the boss of the Greater New York club that he will not play with the San Jose team this winter, and the other National and American league players will probably follow the example of Chase. Dose Hal mean he won't play any more as Chase or Shultz?

SUNDAY SHOWS UNDER BAN All Entertainments in New York That Charge Admission Are to Be Closed.

NEW YORK, Dec. 5.-There will be no entertainments to which admission is charged in this city on Eunday if the mayor, police and amusement promoters hold to their avowed intentions. Consequent upon the decision of Suprem Court Justice O'Gorman, who put a ban on all Sunday shows, those most concerned made plain their positions today. Mayer McClellan said:

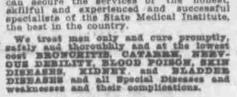

"The law will be obeyed to the letter," Police Commissioner Bingham commented: "When I have such a clear and explicit order I know what to do."

The theatrical men, the term embracing all from impressarios to proprietors of penny arcades, generally declared that they had no wish to defy the court, that they could afford to stand the monetary loss if the public was willing to dispense with the sort of entertainment it had been accustomed to enjoy on Sunday.

From the procedure in the test suit against William Hammerstein of the Victoria theater there can be no appeal directly to the appellate division from the decision of Justice O'Gorman, but there is a legal means nevertheless of having his opinion reviewed by the higher court. This involves a violation of the law, but up to tonight no entertainment provider had offered himself as a subject of a test case. There is confidence, however, that the public will bring about a modification of the law's application, or, if necessary, obtain at the approaching legislature an

amendment to the law itself.

No greater mistake can be made than to consider lightly the first symptoms of any special disease or weakness. Many a bright and promising career has been wrecked through neglect or improper treatment at the commencement, and the troubles have been aggravated and allowed to progress until they have completely shattered the physical strength and mental faculties. When a man's health is concerned he should not experiment with uncertain, dangerous or unreliable treatment, or jeopardize his future health and happiness by neglect. Why take such desperate chances when you can secure the services of the honest, skillful and experienced and successful specialists of the State Medical Institute, the best in the country.
